Religious Art From The Twelfth To The Ei:

The Oxford Companion to Christian Thought Adrian Hastings, Alistair Mason, Hugh S. Pyper, 2000-12-21 Embracing the viewpoints of Catholic Protestant or Orthodox thinkers of conservatives liberals radicals and agnostics Christianity today is anything but monolithic or univocal In The Oxford Companion to Christian Thought general editor Adrian Hastings has tried to capture a sense of the great diversity of opinion that swirls about under the heading of Christian thought Indeed the 260 contributors who hail from twenty countries represent as wide a range of perspectives as possible Here is a comprehensive and authoritative though not dogmatic overview of the full spectrum of Christian thinking Within its 600 alphabetically arranged entries readers will find lengthy survey articles on the history of Christian thought on national and regional traditions and on various denominations from Anglican to Unitarian There is ample coverage of Eastern thought as well examining the Christian tradition in China Japan India and Africa The contributors examine major theological topics such as resurrection the Eucharist and grace as well as controversial issues such as homosexuality and abortion In addition short entries illuminate symbols such as water and wine and there are many profiles of leading theologians of non Christians who have deeply influenced Christian thinking including Aristotle and Plato and of literary figures such as Dante Milton and Tolstoy Most articles end with a list of suggested readings and the book features a large number of cross references The Oxford Companion to Christian Thought is an indispensable guide to one of the central strands of Western culture An essential volume for all Christians it is a thoughtful gift for the holidays *The National quarterly review*, ed. by E.I. Sears Edward Isidore Sears, 1871 **The Catholic Art Quarterly**, 1949 *The Dragon in Medieval East Christian and Islamic Art* Sara Kuehn, 2011-07-12 This book is a pioneering work on a key iconographic motif that of the dragon It examines the perception of this complex multifaceted motif within the overall intellectual and visual universe of the medieval Irano Turkish world Using a broadly comparative approach the author explores the ever shifting semantics of the dragon motif as it emerges in neighbouring Muslim and non Muslim cultures The book will be of particular interest to those concerned with the relationship between the pre Islamic Islamic and Eastern Christian especially Armenian world The study is fully illustrated with 209 b w and full colour plates many of previously unpublished material Illustrations include photographs of architectural structures visited by the author as well as a vast collection of artefacts all of which are described and discussed in detail with inscription readings historical data and textual sources *Patterns of Religious Narrative in the Canterbury Tales* Roger Ellis, 2019-09-23 Originally published in 1986 This study asks What problems confront the narrator of a religious story and What different solutions to those problems are offered by the religious narratives of The Canterbury Tales The introduction explains the grounds for inclusion of the tales here studied then examined in three sections The first includes the tales of the Clerk Prioress and Second Nun and Chaucer's Melibee and explores the parallels between the production of a religious narrative and that of a faithful translation The second considers how the tales of the Man of Law Monk and Physician though

formally similar to those in the first section subvert the offered parallel by their creation of narrators who actively mediate them to their audience and who seem as concerned with the projection of their own personalities as with the transmission of the given story The final section shows how the tales of the Pardoner and Nun s Priest highlight the dilemma and provide distinctive resolutions The whole study aims to explore the dynamic relationships that exist between two contrasting positions an artist s commitment to the authority of a given story and his need to assert himself over it

Mary of Mercy in Medieval and Renaissance Italian Art Katherine T. Brown, 2017-07-05 Mater Misericordiae Mother of Mercy emerged as one of the most prolific subjects in central Italian art from the late thirteenth through the sixteenth centuries With iconographic origins in Marian cult relics brought from Palestine to Constantinople in the fifth century the amalgam of attributes coalesced in Armenian Cilicia then morphed as it spread to Cyprus An early concept of Mary of Mercy the Virgin standing with outstretched arms and a wide mantle under which kneel or stand devotees entered the Italian peninsula at the ports of Bari and Venice during the Crusades eventually converging in central Italy The mendicant orders adopted the image as an easily recognizable symbol for mercy and aided in its diffusion In this study the author s primary goals are to explore the iconographic origins of the Madonna della Misericordia as a devotional image by identifying and analyzing key attributes to consider circumstances for its eventual overlapping function as a secular symbol used by lay confraternities and to discuss its diaspora throughout the Italian peninsula Western Europe and eastward into Russia and Ukraine With over 100 illustrations the book presents an array of works of art as examples including altarpieces frescoes oil paintings manuscript illuminations metallurgy glazed terracotta stained glass architectural relief sculpture and processional banners **Library of Congress Catalogs** Library of Congress, 1979 **The Mind's Eye** Jeffrey F.

Hamburger, Anne-Marie Bouché, 2006 *The Mind's Eye* focuses on the relationships among art theology exegesis and literature issues long central to the study of medieval art yet ripe for reconsideration Essays by leading scholars from many fields examine the illustration of theological commentaries the use of images to expound or disseminate doctrine the role of images within theological discourse the development of doctrine in response to images and the place of vision and the visual in theological thought At issue are the ways in which theologians responded to the images that we call art and in which images entered into dialogue with theological discourse In what ways could medieval art be construed as argumentative in structure as well as in function Are any of the modes of representation in medieval art analogous to those found in texts In what ways did images function as vehicles not merely vessels of meaning and signification To what extent can exegesis and other genres of theological discourse shed light on the form as well as the content and function of medieval images These are only some of the challenging questions posed by this unprecedented and interdisciplinary collection which provides a historical framework within which to reconsider the relationship between seeing and thinking perception and the imagination in the Middle Ages
