**Transhumanist Dreams and Dystopian Nightmares** Maxwell J. Mehlman, 2012-10-01 What will happen when technology allows us to direct our own evolution Transhumanists advocate for the development and distribution of technologies that will enhance human intellectual physical and psychological capacities even eliminate aging What if the dystopian futures and transhumanist utopias found in the pages of science journals Margaret Atwood novels films like Gattaca and television shows like Dark Angel are realized What kind of world would humans have created Maxwell J Mehlman considers the promises and perils of using genetic engineering in an effort to direct the future course of human evolution He addresses scientific and ethical issues without choosing sides in the dispute between transhumanists and their challengers However Transhumanist Dreams and Dystopian Nightmares reveals that radical forms of genetic engineering could become a reality much sooner than many people think and that we need to encourage risk management efforts Whether scientists are dubious or optimistic about the prospects for directed evolution they tend to agree on two things First however long it takes to perfect the necessary technology it is inevitable that humans will attempt to control their evolutionary future and second in the process of learning how to direct evolution we are bound to make mistakes Our responsibility is to learn how to balance innovation with caution
