**Memory Ireland** Oona Frawley, Katherine O'Callaghan, 2014-05-16 In the fourth and final volume of the *Memory Ireland*

series Frawley and O Callaghan explore the manifestations and values of cultural memory in Joyce's Ireland both real and imagined. An exemplary author to consider in relation to questions of how history is remembered and recycled, Joyce creates characters who confront particularly the fraught relationship between the individual and the historical past, between the crisis of colonial history and the colonized state and between the individual's memory of his or her own past and the past of the broader culture. The collection includes leading Joyce scholars Vincent Cheng, Anne Fogarty, Luke Gibbons and Declan Kiberd and considers such topics as Jewish memory in *Ulysses*, history and memory in *Finnegans Wake* and Joyce and the Bible.

*The Lesser Evil* Helmut Dubiel, Gabriel Motzkin, 2004-04-22 In this book scholars debate the evils of Nazism and Communism and explore methods and purposes of comparing the two.

*The Jew in the American World* Jacob Rader Marcus, 1996 This important volume provides the first complete single volume reference source for American Jewish history. *The Jew in the American World* is a complete documentary history of the Jewish people in North America from the late sixteenth century to the present. A compilation of previously published archival sources chronicling the evolving domestic religious and political experiences of the Jews, this important volume provides the first complete single volume reference source for American Jewish history. Once again Jacob Rader Marcus has created a vivid and insightful portrait of the life and culture of Jews. He has compiled materials the majority of which were written by Jews culled from diverse sources and ranging in subject from the establishment of the first Jewish day school in the mid eighteenth century to the plight of Ethiopian Jews in 1991. Many articles highlight the role played by women in the community and the significant contributions made by various Jewish figures. The ideal companion to Marcus's *United States Jewry 1776-1985*, *The Jew in the American World* is an invaluable work essential for studying and understanding the American Jew.

*Remembering the Future* Emma O'Donnell, 2015 Common to both Judaism and Christianity is a heightened engagement with time within liturgical practice in which collective religious memory and anticipation come together to create a unique sense of time. Exploring the nebulous realms of religious experience and the sense of time, *Remembering the Future* charts the ways that the experience of time is shaped by the traditions of Judaism and Christianity and experienced within their ritual practices. Through comparative explorations of traditional Jewish and Christian understandings of time, contemporary oral testimonies and discussions of the work of select twentieth century Jewish and Christian thinkers, this book maps the temporal landscapes of the religious imagination. Maintaining that the sense of time is integral to Jewish and Christian religious experience, *Remembering the Future* makes a notable contribution to interreligious studies and liturgical studies. It sheds light on essential aspects of religious experience and finds that the intimacy of the experience of time grants it the capacity to communicate across religious boundaries, subtly transgressing obstacles to interreligious understanding.

*American Jewish Identity Politics* Deborah Dash Moore, 2009-12-18 Explores changes among American Jews in their self understanding during the last half of the twentieth century.

*Congressional Record* United States. Congress, 1999

*Philip Roth Considered* Steven

Milowitz,2015-12-22 This book comprehensively surveys Philip Roth's published and unpublished works focusing on the thematic unity which binds them together the memory of the Holocaust and the altered universe born of that memory The Holocaust is understood as the orienting event for Roth's fiction and non fiction the force that surrounds the characters and the narratives at all times Roth's obsession with questions of the Holocaust questions of responsibility meaning and powerlessness explains his recurring discussion of entrapment dehumanization nihilism guilt and coercion The concentrationary universe of the title is defined in this work as not only the universe of camps but also the universe that exists after the devastation Moral and philosophical norms are revoked in this new world Roth's early works are presented on a desolate landscape The introduction explicates this landscape specifically by invoking an early play of Roth's a play which is set in a Jewish ghetto during the Holocaust This unpublished work introduces the historical period that shapes the visions of Roth's future protagonists The next three chapters study Roth's relentless excavation of the dilemmas of fathers mothers authority figures and the inner discord of need and purpose These seemingly quotidian problems are exacerbated and intensified by the Holocaust's shadowy presence No relationship no effort at fulfillment no action is untempered by history in Roth's varied fictions Chapters four and five look directly at Roth's allusions to the Holocaust They explore through each of Roth's works how the Holocaust thematic the play of ideology and nihilism and the Holocaust pattern the idea of the past encroaching upon the present work through Roth's career informing his readers not only of his fascination with the Holocaust but of his particularly human way of dealing with it The last chapter briefly summarizes the findings of the previous chapter and connects Roth's specific concentrationary universe to the larger world The linguistic clues of Roth's novels are revealed and investigated pointing to Roth's celebration of ambiguity and individuality as parts of an imperfect formula for writing and living in the debased aftermath of the Holocaust

Isurin, 2017-06-06 This interdisciplinary study explores collective memory as it is presented by official producers such as textbooks and media and reflected by consumers group members Focusing on a case study of Russians and Russian immigrants to the USA and their memories of seminal events in the twentieth century Russian collective past Isurin shows how autobiographical memory contributes to the formation of collective memory and also examines how the memory of the shared past is reconstructed by those who stayed with the group and those who left By bringing together historical anthropological and psychological approaches Collective Remembering provides a new theoretical framework for memory studies that incorporates both content analysis of texts and empirical data from human participants thus demonstrating that methodologies from the humanities and the social sciences can complement each other to create a better understanding of how memory works in the world and in the mind **History, Memory, and Trans-European Identity** Aline

Sierp, 2014-06-20 This book questions the presupposition voiced by many historians and political scientists that political experiences in Europe continue to be interpreted in terms of national history and that a European community of remembrance still does not exist By tracing the evolution of specific memory cultures in two successor countries of the

Fascist Nazi regime Italy and Germany and the impact of structural changes upon them the book investigates wider democratic processes particularly concerning the conservation and transmission of values and the definition of identity on different levels It argues that the creation of a transnational European memory culture does not necessarily imply the erasure of national and local forms of remembrance It rather means the creation of a further supranational arena where diverging memories can find their expression and can be dealt with in a different way Through the triangulation of agents of memory construction constraints and opportunities and actual portrayals of the past this volume explores the difficulties faced by a multinational entity like the EU in reaching some kind of consensus on such a sensitive subject as history
