 brilliant an impressive tour de force Network Why does collective memory matter How is social memory generated
 maintained and reproduced How do we explain changes in the content and role of collective memory Through a synthesis of
 old and new theories of social remembering this book provides the first comprehensive overview of the sociology of memory
 This rapidly expanding field explores how representations of the past are generated maintained and reproduced through
 texts images sites rituals and experiences The main aim of the book is to show to what extent the investigation of memory
 challenges sociological understandings of the formation of social identities and conflicts It illustrates the new status of
 memory in contemporary societies by examining the complex relationships between memory and commemoration memory
 and identity memory and trauma and memory and justice The book consists of six chapters with the first three devoted to
 conceptualising the process of remembering by analyzing memory s function status and history as well as by locating the
 study of memory in a broader field of social science The second part of the book directly explores and discusses theories and
 studies of social remembering After a short conclusion which argues that study of collective memory is an important part of
 any examination of contemporary society the glossary offers a concise and up to date overview of the development of relevant
 theoretical concepts The result is an essential text for undergraduate courses in social theory the sociology of memory and a
 wider audience in cultural studies history and politics Broken Circles Anna Haebich, 2000-11-01 This major work reveals
 the dark heart of the history of the Stolen Generations in Australia It shows that from the earliest times of European
 colonization Aboriginal Australians experienced the trauma of loss and separation as their children were abducted enslaved
 institutionalized and culturally remodeled Providing a moving and comprehensive account of this tragic history this study
 covers all Australian colonies states and territories The analysis spans 200 years of white occupation and intervention from
 the earliest seizure of Aboriginal children through their systematic state removal and incarceration and on to the harsh
 treatment of families under the assimilation policies of the 1950s and 1960s The resistance struggle and achievements of
 Aboriginal people in defending their communities regaining their rights and mending the broken circles of family life
 provides a compelling parallel story of determination and courage Christian Advocate ,1923 Remembrance and
Forgiveness Ajlina Karamehić-Muratović, Laura Kromják, 2020-10-26 An enquiry into the social science of remembrance and
 forgiveness in global episodes of genocide and mass violence during the post Holocaust era this volume explores the ways in
 which remembrance and forgiveness have changed over time and how they have been used in more recent cases of genocide
 and mass violence With case studies from Rwanda Ethiopia South Sudan South Africa Australia Cambodia Indonesia Timor
 Leste Israel Palestine Argentina Guatemala El Salvador the United States Bosnia and Herzegovina and Chechnya the volume
 avoids a purely legal perspective to open the interpretation of post genocidal societies communities and individuals to global
 and interdisciplinary perspectives that consider not only forgiveness and thus social harmony but remembrance and

disharmony This volume will appeal to scholars across the social sciences with interests in memory studies genocide remembrance and forgiveness

Memory, History, Nation Susannah Radstone, 2017-09-04 In the last decade a focus on memory in the human sciences has encouraged new approaches to the study of the past As the humanities and social sciences have put into question their own claims to objectivity authority and universality memory has appeared to offer a way of engaging with knowledge of the past as inevitably partial subjective and local At the same time memory and memorial practices have become sites of contestation and the politics of memory are increasingly prominent This inter disciplinary volume demonstrates from a range of perspectives the complex cultural work and struggles over meaning that lie at the heart of what we call memory The chapters in this volume offer a complex awareness of the workings of memory and the ways in which different or changing histories may be explained They explore the relation between individual and social memory between real and imaginary event and fantasy history and myth Contradictory accounts or memories in direct contradiction to the historical record are not always the sign of a repressive authority attempting to cover something up The tension between memory as a safeguard against attempts to silence dissenting voices and memory s own implication in that silencing runs throughout the book Topics covered range from the Basque country to Cambodia from Hungary to South Africa from the Finnish Civil War to the cult Jim Jarmusch movie Dead Man from the Rock and Roll Hall of Fame to Australia Part I Transforming Memory is concerned primarily with the social and personal transmission of memory across time and generations Part II Remembering Suffering Trauma and History brings the after effects of catastrophe to the fore Part III Patterning the National Past the relation between nation and memory is the central issue Part IV And Then Silence reflects on the complex and multiple meaning of silence and oblivion wherein amnesia is often used as a figure for the denial of shamefu
