Remittances And Their Impact A Study Of Tonga And Western Samoa:

Remittances and Their Impact Dennis A. Ahlburg, 1991 Number 7 in the TPacific Policy Papers series this is a summary of the effects of migration and labour export on the two Pacific island economies over the last 15 20 years Includes tables statistics and a bibliography

Tonga Martin Daly, 2009-02-04 Praise for the first edition Tonga is unique among bibliographies in its perception and understanding and in its affection for Tonga and its people Daly s work stands on exceptionally sound foundations His summaries are excellent indeed but Daly writes always with the authority of first hand knowledge with a keen eye for the essential and the ability to interpret and clarify obscurities A trustworthy introduction to Tonga in all its diversity a splendid point de d part for all layman or scholar needing a reliable guide to the essential literature about this remarkable Polynesian kingdom Bulletin of the School of Oriental and African Studies The book is so arranged that it is easy to locate any of the items listed I found myself spending pleasant hours perusing Daly s comments on the different publications I hope the rumor of a second revised edition of this bibliography is true Journal of the Polynesian Society Tonga is a fascinating and subtle combination of a traditional Polynesian kingdom the only one to survive the impact of colonization in the nineteenth century and remain independent and a thoroughly Christian country This comprehensive bibliography is a selective guide to the most significant and accessible English language books papers and articles on every aspect of the kingdom s history culture arts politics environment and economy It is a much updated and expanded edition of the original version that was published in 1999 as part of the World Bibliographical Series with the addition of more than 200 new entries Each of the approximately 600 described and annotated items is organized under broad subject headings and indexed by author title and subject In addition and new to this edition all known Ph D theses although not annotated are shown within their appropriate subject categories and indexed Also new is a section on the most important Tonga related websites A general introduction describes the Tongan kingdom its history and society and its current situation Tonga A New Bibliography will be an invaluable resource for anyone with a serious interest in Tonga and an indispensable volume for academic libraries reference collections and policy makers focused on the Pacific islands

Handbook of the Economics of International Migration Barry Chiswick, Paul Miller, 2014-12-08 The economic literature on international migration interests policymakers as well as academics throughout the social sciences These volumes the first of a new subseries in the Handbooks in Economics describe and analyze scholarship created since the inception of serious attention began in the late 1970s This literature appears in the general economics journals in various field journals in economics especially but not exclusively those covering labor market and human resource issues in interdisciplinary immigration journals and in papers by economists published in journals associated with history sociology political science demography and linguistics among others Covers a range of topics from labor market outcomes and fiscal consequences to the effects of international migration on the level and distribution of income and everything in between Encompasses a wide range of topics related to migration and is

multidisciplinary in some aspects which is crucial on the topic of migration Appeals to a large community of scholars interested in this topic and for whom no overviews or summaries exist *Voyages* Cathy A. Small, 2011-11-15 In *Voyages* Cathy A Small offers a view of the changes in migration globalization and ethnographic fieldwork over three decades The second edition adds fresh descriptions and narratives in three new chapters based on two more visits to Tonga and California in 2010 The author whose role after thirty years of fieldwork is both ethnographer and family member reintroduces the reader to four sisters in the same family two who migrated to the United States and two who remained in Tonga and reveals what has unfolded in their lives in the fifteen years since the first edition was written The second edition concludes with new reflections on how immigration and globalization have affected family economy tradition political life identity and the practice of anthropology *The Pacific Islands* Moshe Rapaport, 1999 Forty five contributors offer information on the physical environment history culture population economy and living environment of the Pacific islands **Migration and Development** Wonderful Hope Khonje, 2015-02-11 Over the past two decades studies on the migration development nexus often portray small states as one homogeneous group developing countries without considering their critical and peculiar challenges or inherent vulnerabilities due mainly to their size This book explores key dynamics of migration and development in a small states setting It includes case studies from small states in Africa Caribbean and the Pacific that will help policy makers to embrace migration as an inevitable phenomenon and devise policies that will maximise the benefits from migration at a minimal cost **Demographic and Social Change in the Island Nations of the Pacific** Dennis A. Ahlburg, 1996

Globalisation and Governance in the Pacific Islands Stewart Firth, 2006-12-01 The Pacific Islands are feeling the effects of globalisation Free trade in sugar and garments is threatening two of Fiji s key industries At the same time other opportunities are emerging Labour migration is growing in importance and Pacific governments are calling for more access to Australia s labour market Fiji has joined Samoa Tonga Tuvalu and Kiribati as a remittance economy with thousands of its citizens working overseas Meantime Papua New Guinea and Solomon Islands grapple with an older kind of globalisation in which overseas companies exploit mineral and forest resources The Pacific Islands confront unique problems of governance in this era of globalisation The modern democratic state often fits awkwardly with traditional ways of doing politics in that part of the world Just as often politicians in the Pacific exploit tradition or invent it to serve modern political purposes The contributors to this volume examine Pacific globalisation and governance from a wide range of perspectives They come from Papua New Guinea Solomon Islands Hawai i the Federated States of Micronesia Samoa Fiji New Zealand and Jamaica as well as Australia Publisher s description **Managing Globalization in the Asian Century** Hal Hill, Jayant Menon, 2016-11-16 The global centre of gravity continues to shift to the Asia Pacific the most dynamic region in the world These economies have generally grown faster for longer periods of time than any other major region in world history Their embrace of globalization has been a central feature and driver of their dynamism The management of Asia Pacific economic integration and

globalization is crucial not only for the countries themselves but also for the state of the global economy including importantly latecomer developing economies who look to the region for analytical and development policy lessons Twenty eight leading international authorities in the field drawn from nine countries provide a comprehensive examination of the causes consequences and challenges of globalization in a volume that celebrates the distinguished career of Professor Prema Chandra Athukorala Among the major issues examined are the region's distinctive approach to trade liberalization the effects of economic growth on poverty reduction and the labour market the special challenges of by passed regions the role of ideas in influencing policy making the modalities of connecting to global production networks and the importance of remittances in economic development Several country case studies provide in depth analyses of development processes and outcomes These include episodes in economic development the challenges faced by transition economies the macroeconomics of adjusting to slower growth and rising debt in advanced economies and the so called middle income trap phenomenon

The Warm Winds of Change Cluny Macpherson, La'avasa Macpherson, 2013-10-01 Examining a variety of intriguing issues this sociological study analyzes the impact global culture has had on the flora and fauna people economies languages and cultures of the Pacific for many centuries The survey draws on findings from a 40 year research partnership illustrating the effects of globalization from the perspective of a typical Samoan village and documenting the country's shift from baskets to buckets from religious authority to a questioning democracy and from in kind work to a cash economy Delving into questions such as When do Pacific emigrants stop sending money to their home village Do villagers stop giving away fish when they get a refrigerator and How do cell phones change villages this argument contends that contemporary changes are presenting a more profound challenge to Samoan social institutions and society than at any other time in the past Comprehensive and accessible this guide is essential for those interested in the way global forces are shaping change in small Pacific nations

Return Migration of the Next Generations Dennis Conway, 2016-12-05 There is renewed interest in return migration among researchers of global movement patterns Until recently it was overlooked regarded as the result of failure by emigrants or related to the return of retired elderly migrants This important study looks at the one and a half and second generation migrants the youthful contract workers and the prolonged sojourners and the consequences of their return to source communities

Tourism, Diasporas and Space Tim Coles, Dallen J. Timothy, 2004-08-02 In a vibrant inter disciplinary collection of essays from leading scholars in the field this book introduces the main features and constructs of diasporas and explores their implications for the consumption production and practices of tourism

Pacific Studies : a Journal Devoted to the Study of the Pacific-its Islands and Adjacent Countries, 2001

Small Worlds, Global Lives Russell King, John Connell, 1999-10-01 Geologists most from Australia and Britain but with some outliers from continental Europe and North America focus on small islands where the scarcity of people and resources make migration substantially important socially and economically The topics include the Azores historical cultural and literary perspectives on emigration from the

minor islands of Ireland Nevis and the post war labor movement in Britain islands and the migration experience in the fiction of Jamaica Kincaid from dystopia to utopia on Norfolk Island Tongans online the changing contours of migrant Samoan kinship and finding a retirement place in sunny Corfu

International Migration Douglas S. Massey, J. Edward Taylor, 2004-03-25 International Migration Prospects and Policies offers a comprehensive up to date survey of global patterns of international migration and the policies employed to manage the flows It shows that international migration is not rooted in poverty or rapid population growth but in the expansion and consolidation of global markets As nations are structurally transformed by their incorporation into global markets people are displaced from traditional livelihoods and become international migrants In seeking to work abroad they do not necessarily move to the closest or richest destination but to places already connected to their countries of origin socially economically and politically When they move migrants rely heavily on social networks created by earlier waves of immigrants and in recent years professional migration brokers have become increasingly common Developing countries generally benefit from international migration because migrant savings and remittances provide foreign earnings to finance balance of payments deficits and make productive investments Some developing nations have gone so far as to establish programs or ministries dedicated to the export of workers Developed nations in contrast focus more on the social and economic costs of immigrants and seek to reduce their numbers regulate their characteristics and limit their access to social services Over time receiving nations have gravitated toward a similar set of restrictive policies yielding undocumented migration as a worldwide phenomenon Globalization also creates infrastructures of transportation communication and social networks to put developed societies within reach In the latter ageing populations and segmenting markets create a persistent demand for immigrant workers All these trends are likely to intensify in the coming years to make immigration policy a key political issue in the twenty first century

Pacific Regional Order Dave Peebles, 2005-10-01 New policies are needed if the Pacific is to realise its potential as a peaceful prosperous region where the Pacific s citizens enjoy good standards of health and education long lives and many opportunities where Pacific economic growth is constantly improving driven by environmentally sustainable service industries where coups civil conflict and the dangers of failed states have been relegated to the past where the Pacific is integrated into the wider region and is an influential voice in world affairs Argues that Pacific countries including Australia need to embrace regional integration to realise this vision The book sets out a comprehensive plan for realising a Pacific regional community dedicated to promoting sustainable development security human rights the rule of law and democracy

Urbanisation in the Island Pacific John Connell, John Lea, 2002-09-26 Managing rapid urban growth presents a significant challenge in the small independent countries of the Pacific Islands Although they originated in colonial times the towns and cities are now distinctively post colonial with economies environments and social structures that reflect unique island characteristics This transformation has stimulated new concerns such as the causes and effects of pollution the need for employment for landless

migrants the need for adequate and affordable housing and the financing of expanding urban services This book explores the diversity of the urban experience in the ten independent island states focusing on strategies to secure long term sustainable development Pacific Studies ,2001 *The Pacific Islands and the USA* R. G. Crocombe,1995 The world s most powerful nation and more than a dozen of the world s smallest have been interacting for 200 years Beginning with whaling in the 1700 s it has continued through many trades investment education churches media diplomacy and strategic issues As significant as the movement of Americans to the Pacific is that of 150 000 Pacific Islanders to the USA This important book documents the growing interaction with the USA to the pinnacle of involvement in World War II The importance of USA to the Pacific Islands remained high until the end of the 1980 s but has declined since then on almost every dimension While USA will remain significant for the Pacific Islands its relative profile will continue to decline Back cover **Migration, Globalisation and Human Security** David T. Graham,Nana K. Poku,2005-08-04 Migration Globalisation and Human Security looks at a range of security and human security issues related to the displacement of civilian populations and shows how the tenuous existence of migrants can lead to a myriad of human security threats Providing major theoretical analyses of recent migration trends and in depth case studies this book shows that a redefinition of the notion of human security is now needed
