Rendering with pen and ink Robert W. GILL, 1984 THE RUDIMENTS OF ARCHITECTURAL RENDERING: PEN & INK, COLOURS. Ar. Adedayo Jeremiah Adeyekun, 2019-04-10 *The Rudiment of Architectural Rendering: Pen and Ink Colours* is a practical Architectural rendering book edited by Prof. Prabhubhai K. Patel, Emeritus Professor of Architecture from Indian Institute of Technology Roorkee.

Oldest Technical Institution of Asia It contains about 45 illustration pictures of buildings rendered with colours pen and ink It is a book for Architects Illustrators Artists and Interior Designers This book intended to develop a student studying architecture to demonstrate artistic skills in the core course needed to become an architect Architectural Graphics most especially in the application of colours As an experience teacher of all levels of education from primary to university believed that the daily practice of a good architect relies more on hand created drawings before it is done with the use of software Hand created drawings gives a person training to be an architect to make use of the simplest intuitive connection between the mind and the hand It also allows a consolidation of ideas developing the process of creative thinking AutoCAD was created to aid architectural design for professional practice not to be a tool to develop an architect The power of creativity relies on what you can create with your hand An architect hand created drawing should be his pride and a manifesto to fire the imagination of his client Even in the age of computer application the use of hand in architectural graphics has become more precious Using digital tools certainly has improved the way in which building design is organized and documented but the computer cannot become a complete replacement for the way in which architects conceptualize and communicate their designs Hand drawing is a gift that can t be ignored We need to keep doing it We are not machines but humans and to be an architect one must be an artist and to be an artist you must be creative and to be creative you must be at one with the house Hand drafting is an art according to Walter Gropius says in one of his quotes Children should be introduced right from the start to the potentialities of their environment to the physical and psychological laws that govern the visual world and to the supreme enjoyment that comes from participating in the creative process of giving form to one s living space **Rendering**
