Unaccountably Percy Grainger has remained on the margins of both American music history and twentieth century modernism This volume reveals the well known composer of popular gems to be a self described hyper modernist who

composed works of uncompromising dissonance challenged the conventions of folk song collection and adaptation re visioned the modern orchestra experimented with ego less composition and designed electronic machines intended to supersede human application Grainger was far from being a self sufficient maverick working in isolation Through contact with innovators such as Ferruccio Busoni L on Theremin and Henry Cowell promotion of the music of modern French and Spanish schools appreciation of vernacular jazz and folk musics as well as with the study and transcription of non Western music he contested received ideas and proposed many radical new approaches By reappraising Grainger s social and historical connectedness and exploring the variety of aspects of modernity seen in his activities in the British American and Australian contexts the authors create a profile of a composer propagandist and visionary whose modernist aesthetic paralleled that of the most advanced composers of his day and in some cases anticipated their practical experiments Music Teacher and Piano Student ,1945 *The Aesthetics of Music* Roger Scruton,1999 Now available in paperback this is perhaps the first comprehensive account of the nature and significance of music from the perspective of modern philosophy and the only treatment of the subject which is properly illustrated with music examples The book starts from the metaphysics of sound distinguishes sound from tone analyses rhythm melody and harmony and develops a novel account of music as the intentional object of an imaginative perception The argument explores the various dimensions of musical organization and musical meaning and shows exactly how and why music is an expressive medium The Aesthetics of Music explains and criticizes many fashionable theories in the philosophy and theory of music and mounts a case for the moral significance of music its place in our culture and the need for taste and discrimination in both performer and listener The various schools of musical analysis are subjected to a critical examination and recent criticism of tonality as the foundation of musical order are rehearsed and rejected Scruton defends the objectivity of aesthetic values lays down principles of criticism and ends with an energetic critique of modern popular music **The Healing Energies of Music** Hal A.
