Path To Love Renewing The Power Of Spirit In Your Life:

Quest to Live Carrie Fleharty, 2010-03-15 The Quest to Live is not just a memoir The writings are in two parts the first part being the author's background and her near suicide and the second part explains how we can truly change our thoughts The changing of new thoughts for the reader becomes possible through the exercises that examine and reflect on the reader's own mind and soul The author has read many readings on how to change to positive thinking and the need to change toward positive thinking This book is different because the author uses examples from her own life to record the process of changing This book represents the struggles of the process and how to overcome them and live Deep down she believes we all want to Live Our Best Life She is one of those people who now understand that living our best life starts where we are right here and right now

Road to Digital Divine Hemant Gupta, 2010-12-20 For most of us our current perspective is deeply rooted in the eighteenth century science of materialism The new science of information and quantum computation is bringing a fresh perspective a new understanding about the true nature of us and our universe It has profound implications to the way us humans understand ourselves and our universe Since this newer understanding rests on digital and informational nature of being and has divine like qualities I have referred to this as digital divine A road to arrive at digital divinity has also been my journey to understand this new nature of us and our universe From this perch our universe appears like an informational entity rooted deeply in the nature of silence or zero Broader laws of information seem to describe its nature and behaviors far better than the classical laws of physics Our physical universe emerges as a computing platform engaged in grand act of quantum and binary information processing How does one start from a macro view of our perceptual universe and arrive at the computational nature of matter and mind How do cosmic emotional and rational mind arise from this foundation How does this view impact the concept of my self that I hold deep within my psyche The informational and computational description of our universe provides a framework to naturally explain many such difficult questions As one realizes that this grand informational and quantum computational entity or digital divine is not only rooted in logic but it is also rooted in love oneness or unity consciousness one embarks on a new understanding of us our universe and our divinity an incredible bridge between science and spirituality This is an amazing know how We can all benefit from this

Different Visions of Love Brian Griffith, 2008 Griffiths narrative moves like a searchlight over each phase of church history illuminating the visions options and choices behind events He traces the rise of a dominator version of Christianity in which the primary concern was a chain of command to be followed with rewards or punishments according to the degree of obedience And beside this he illuminates another face of Christianity concerned with healing all divisions between loved and unloved people The story Griffith presents is often deeply disturbing as in his unstinting accounts concerning the gospel for women or the age of holy wars and witch hunts But ultimately his story offers solid grounds for optimism He shows that all contention between different religious visions can be a process of building partnership As Griffith points out Jesus himself wished to debate his opponents openly not to silence or eliminate them He was not afraid of real encounter or the potential of creative conflict I want to congratulate Brian Griffith on this masterful controversial and highly readable account His book offers hope in a divided world where reaction against globalized godless corporate secularism meets with a war on religious fundamentalism I hope to see other writers do comparable work in highlighting the partnership and dominator visions within their religious traditions around the world

The New Age of Soul Ray S. Anderson, 2001-11-27 In The New Age of Soul the broad appeal of new age spirituality is identified and defined with special attention to the claim that the soul may be understood as both the repository of divine energy and a source of spiritual healing and hope Through dialogue with sources and perspectives on the spiritual nature of the soul the book attempts to win the respect and appreciation of the reader already persuaded by the claims and benefits of new age spirituality while at the same time convincing the reader who has suspicions and concerns about new age spirituality that a better alternative may be found The book thus has a two fold purpose first to expose the inadequacy indeed the superficiality of new age spirituality through this dialogue and discussion attracting the attention and interest of the reader already influenced by this genre Second the author makes a case for a more traditional orthodox and biblical view of the soul and human spirituality so that the reader who is inclined toward new age spirituality will rediscover the more traditional biblical content of the soul and spirituality while providing the committed more traditional Christian reader a tool by which to communicate a biblical faith with the growing segment of our population attracted toward new age spirituality In its own way this book is an apologetic for a more traditional Christian theology of human spirituality and self identity presented in a positive dialogue with new age spirituality

over with is a daunting task Being 47 now widowed and starting over was a daunting task My faith as about to be tested big time For from tragedy comes triumph Having found the owner of those eyes I know I have more work and a much higher purpose in life to fulfill It took a life threatening and frightening plane crash to make me see the truth my plane truth It s truly been a humbling experience and one I consider to be a gift and not a tragedy The hardest part was simply looking in the mirror and uncovering all my masks that I had thought were protecting me but in fact were keeping me from knowing my true self
