

William P. CUNNINGHAM • Mary Ann CUNNINGHAM

A person with dark hair, wearing a brown jacket and purple pants, is kneeling on a rock in a stream. They are holding a silver, cylindrical water sampling device with both hands, and a small black rectangular object is attached to it. The stream has clear water and several rocks. The background is a lush green forest.

Principles Of Environmental Science With Olc:

Principles of Environmental Science William P. Cunningham, Mary Ann Cunningham, 2001-05 As environmental science textbooks have gotten larger and more encyclopedic over the years an increasing number of instructors have called for a smaller less expensive book that concentrates on the core principles of the discipline *Principles of Environmental Science Inquiry and Applications* emphasizes how science can help us find solutions for important environmental issues While not attempting to describe every possible environmental dilemma or scientific field of study this new text focuses on the major topics we face and how scientists search for answers to questions about them Students are provided a solid grounding in scientific principles and then encouraged to think analytically and creatively on their own *Environmental Science* William P. Cunningham, Mary Ann Cunningham, Barbara Woodworth Saigo, 2003-03 This book is intended for use in a one or two semester course in environmental science human ecology or environmental studies at the college or advanced placement high school level Because most students who will use this book are freshman or sophomore nonscience majors the authors have tried to make the text readable and accessible without technical jargon or a presumption of prior science background At the same time enough data and depth are presented to make this book suitable for many upper division classes and a valuable resource for students who will keep it in their personal libraries after their formal studies are completed The goal of this book is to provide an up to date introductory view of essential themes in environmental science along with emphasis on details and case studies that will help students process and retain the general principles **Beyond Access** Stephanie J. Waterman, Shelly C. Lowe, Heather J. Shotton, 2023-07-03 This book argues that two principal factors are inhibiting Native students from transitioning from school to college and from succeeding in their post secondary studies It presents models and examples of pathways to success that align with Native American students aspirations and cultural values Many attend schools that are poorly resourced where they are often discouraged from aspiring to college Many are alienated from the educational system by a lack of culturally appropriate and meaningful environment or support systems that reflect Indigenous values of community sharing honoring extended family giving back to one's community and respect for creation The contributors to this book highlight Indigenized college access programs meaning programs developed by not just for the Indigenous community and are adapted or developed for the unique Indigenous populations they serve Individual chapters cover a K 12 program to develop a Native college going culture through community engagement a crash course offered by a higher education institution to compensate for the lack of college counseling and academic advising at students schools the role of tribal colleges and universities the recruitment and retention of Native American students in STEM and nursing programs financial aid educational leadership programs to prepare Native principals superintendents and other school leaders and finally data regarding Native American college students with disabilities The chapters are interspersed with narratives from current Indigenous graduate students This is an invaluable resource for student affairs practitioners and

higher education administrators wanting to understand and serve their Indigenous students *Emerging Nanostructured Materials for Energy and Environmental Science* Saravanan Rajendran, Mu. Naushad, Kumar Raju, Rabah Boukherroub, 2019-02-07 This book provides the fundamental aspects of the diverse ranges of nanostructured materials 0D 1D 2D and 3D for energy and environmental applications in a comprehensive manner written by specialists who are at the forefront of research in the field of energy and environmental science Experimental studies of nanomaterials for aforementioned applications are discussed along with their design fabrication and their applications with a specific focus on catalysis energy storage and conversion systems This work also emphasizes the challenges of past developments and directions for further research It also looks at details pertaining to the current ground breaking of nanotechnology and future perspectives with a multidisciplinary approach to energy and environmental science and informs readers about an efficient utilization of nanomaterials to deliver solutions for the public *Intuitive Imagery* Susan E. Mehrtons, John B. Pehrson, 2012-08-21 Intuitive Imagery puts the discoveries of modern science to work through a simple proven technology to meet the challenges of our fast paced changing world This book shows you how to harness the wisdom of your inner images to achieve peak performance in both business and personal life Results include greater creativity better decision making enhanced productivity the unlocking of blocked potential accelerated learning increased success and a sense of greater well being Learning to use intuitive imaging is like finding a new set of lenses through which to view the world It helps us change our beliefs about how we know what we know so we can begin to restructure how we do what we do John B Pehrson is president of Creative Change Technologies a training and consulting firm to individuals and organizations focusing in the areas of creativity deep team building and executive coaching John is a former executive with DuPont and has over 20 years of broad international business experience that includes business and technology management strategic planning product development manufacturing sales and marketing He lives in Signal Mountain TN Susan E Mehrtons is president of The Potlatch Group a research organization specializing in analysis of business trends related to global evolution and social change Her clients range from Fortune 500 companies like AT T DuPont General Motors and Sears to smaller businesses schools and private foundations such as The Institute of Noetic Sciences and the World Business Academy Sue is the co author of Earthkeeping an ecology text and The Fourth Wave a vision of business in the 21st century She lives in Mineola NY
