49 inmate deaths in jails and prisons across the state of Mississippi No study has been produced or written to explicate why
such deaths have occurred in Mississippi s jails Most of the deaths have been labeled suicide but further research by the
author has led to other explanations that these deaths were not all suicide Many of the victims were African American male

found hanged in their jail cells with larynx and muscles missing tongue cut out and body covered with bruises **Crime**
Control David John Farmer, 2013-03-08 The question of how to use police resources productively par ticularly in this era of
tight municipal budgets is a major con cern for police chiefs and others responsible for crime control In *Crime Control The*
Use and Misuse of Police Resources David J Farmer provides new insights into this question and sug gests a practical
resource allocation approach for police poli cymakers and administrators The book documents the results of current police
resource allocation practices and describes the major research studies that have identified a need to restructure police field
operations It very usefully outlines the development and nature of allocation techniques and ana lyzes the political contexts
which influence resource alloca tion After describing planning at the neighborhood level that should inform the allocation
process the author provides a comprehensive planning budgeting resources allocation approach to managing a productive
police department This comprehensive approach is illustrated by an account of the Manpower Allocation Review System
