The Business of Armaments Joanna Spear,2023-01-19 How did Britain s most prominent armaments firms Armstrongs and Vickers build their businesses and sell armaments in Britain and overseas from 1855 to 1955 Joanna Spear presents a comparative analysis of these firms and considers the relationships they built with the British Government and foreign states She reveals how the firms developed and utilized independent domestic strategies and foreign policies against the backdrop of imperial expansion and the two world wars Using extensive new research this study examines the challenges the two firms faced in making domestic and international sales including the British Government s commitment to laissez faire policies prejudices within the British elite against those in trade and departmental resistance to dealing with private firms It shows the suite of strategies and tactics that the firms developed to overcome these obstacles to selling arms at home and abroad and how they built enduring relationships with states in Latin America Asia and the Middle East **Collective Security**

Under International Law Hans Kelsen,2001 Washington D C United States Government Printing Office 1957 vi 275 pp Reprinted 2001 2011 The noted jurist Hans Kelsen advances his theory that collective security is an essential function of law national as well as international and that therefore there exists an intrinsic connection between international security and international law in other terms that collective security of the state is just as collective security of the individual within the state by its very nature a legal problem Foreword p ii Professor Kelsen s high standing as a scholar is sufficient to commend in advance any volume that comes from his pen But in this case he has chosen a subject that will at once challenge attention The main function of the volume in the words of the author is to show that collective security is an essential function of law that it is by its very nature a legal problem A generation ago there were many in high places to contest the thesis Today the bitter lesson of two world wars has established the principle for practical purposes in spite of the difficulty of putting it into practice But the legal aspects of the thesis remain to be clarified and this is what Professor Kelsen does with all his power of legal analysis and systematic presentation We must be grateful for what we are given an acute analysis of a fundamental principle the applications of which we can make from our own knowledge of recent history C G Fenwick American Journal of International Law 52 1958 811 Senate Documents, Otherwise Publ. as Public Documents and Executive Documents
