Women and Philosophy in Eighteenth-Century Germany Corey W. Dyck, 2021-04-22 Women and Philosophy in Eighteenth

Century Germany showcases the vibrant and diverse contributions on the part of women in eighteenth century Germany and explores their under appreciated influence upon philosophical debate in Germany in this period Among the women profiled in this volume are Sophie of Hanover Dorothea Christiane Erxleben Johanna Charlotte Unzer Wilhelmina of Bayreuth Amalia Holst Henriette Herz Elise Reimarus and Maria von Herbert Their contributions span the range of philosophical topics in metaphysics logic and aesthetics to moral and political philosophy and pertain to the main philosophical movements in the period They engage controversial issues of the day such as atheism and materialism but also women s struggle for access to education and for recognition of their civic entitlements and they display a range of strategies for intellectual engagement in doing so This collection vigorously contests the presumption that the history of German philosophy in the eighteenth century can be told without attending to the important roles that women played in the signature debates of the period

Atlas of a Tropical Germany Zafer Şenocak, 2000-01-01 Germany long ago became part of us German Turks Zafer Şenocak observes Are we also a part of Germany Gathered here for the first time in English translation these essays chart a new orientation for

German life culture and politics beyond the Cold War and at the dawn of an unprecedented era The 1990s began with national unification between East and West and closed with a radical liberalization of German citizenship law many questions about the largest minority in this multicultural Germany have yet to be asked This decade also reeled with war in the Persian Gulf and ethnic cleansing in the Balkans As Germans imagine themselves as westerners interacting with Muslim populations at home and abroad these essays acquire a critical urgency Senocak reconfigures the Turkish diaspora and the German nation by mapping a tropical Germany The House of Joshua Mindy Thompson Fullilove, 2002-03-01 The author uses nine family stories to illustrate the psychological importance of place *Finitude's Score* Avital Ronell, 1994-01-01 Suspending the distinction between headline news and high theory Avital Ronell examines the diverse figures of finitude in our modernity war guerrilla video trauma TV AIDS music divorce sadism electronic tagging rumor Her essays address such questions as How do rumors kill How has video become the conscience of TV How have the police come to be everywhere even where they are not Is peace possible Writing to the community of those who have no community to those who have known the infiniteness of abandonment her work explores the possibility one possibility among many that this time we have gone too far One last word It is possible that we have gone too far This possibility has to be considered if we as a species as a history are going to get anywhere at all **Opera** Linda Hutcheon, Michael Hutcheon, 1996-01-01 An interdisciplinary study of the interconnected subtexts of erotic attraction illness and death in several 19th and 20th century operatic texts This is an examination of how opera uses the singing body to give voice to the suffering person It presents medical and literary sources to make sense of the changing depiction of disease in opera **Women Writers' Philosophy of Love in German Romanticism** Renata T. Fuchs, 2024-07-01 This monograph spotlights women writers contributions to the philosophy of German Romanticism Dorothea Mendelssohn Veit Schlegel Rahel Levin Varnhagen Karoline von Gunderode and Bettina Brentano von Arnim suggested a new vision for an emancipated community of women that develops through philosophical discourse of Progressive Universal Poetry Their personal fictionalized and literary letters reinvent and retheorize the Romantic notions of sociability symphilosophy and sympoetry as theorized by men and retheorize the concepts of love They provided a model for shaping intellectual and cultural life in the modern world while challenging rigid dichotomies of class gender and ethnicity **The Oxford Handbook of European Romanticism** Paul Hamilton, 2016-01-14 The Oxford Handbook to European Romanticism brings together leading scholars in the field to examine the intellectual literary philosophical and political elements of European Romanticism The book focuses on the cultural history of the period extending from the French Revolution to the uprisings of 1848 It begins with a series of chapters examining key texts written by major writers in languages including French German Italian Spanish Russian Hungarian Greek and Polish amongst others A second section then explores the naturally interdisciplinary quality of Romanticism exemplified by the different discourses with which writers of the time set up an internal comparative dynamic These chapters highlight the sense a discourse gives

of being written knowledgeably against other pretenders to completeness or comprehensiveness of self understanding of the time Discourses typically advance their own claims to resume European culture collaborating with and at the same time trying to assimilate each other in the process The main examples featured here are history geography drama theology language philosophy political theory the sciences and the media Each chapter offers an original and individual interpretation of an inherently comparative world of individual writers and the discursive idioms to which they are historically subject Together the forty one chapters provide a comprehensive and provocative overview of European Romanticism *Hannah Arendt and the History of Thought* Daniel Brennan, Marguerite La Caze, 2022-06-14 Hannah Arendt and the History of Thought edited by Daniel Brennan and Marguerite La Caze enriches and deepens scholarship on Arendt's relation to philosophical history and traditions Some contributors analyze thinkers not often linked to Arendt such as William Shakespeare Hans Jonas and Simone de Beauvoir Other contributors treat themes that are pressing and crucial to understanding Arendt's work such as love in its many forms ethnicity and race disability human rights politics and statelessness The collection is anchored by chapters on Arendt's interpretation of Kant and her relation to early German Romanticism and phenomenology while other chapters explore new perspectives such as Arendt and film her philosophical connections with other women thinkers and her influence on Eastern European thought and activism The collection expands the frames of reference for research on Arendt both in terms of using a broader range of texts like her *Denktagebuch* and in examining her ideas about judgment feminism and worldliness in this wider context **The House in the Garden** John Randolph, 2018-07-05 Aspiring thinkers require a stage for their performance and an audience to help give their actions distinction and meaning To be made durable and influential their charismatic stories have to be framed by supporting ideals practices and institutions Although the biographies of the Empire's most famous thinkers have a comfortable platform in modern Russia's printed record scholars have yet to explore fully the intimate context surrounding their activities in the early nineteenth century There is as a result a certain homeless quality to our understandings of Imperial Russian culture which this history of one extremely productive home will help us correct from *The House in the Garden* *The House in the Garden* explores the role played by domesticity in the making of Imperial Russian intellectual traditions It tells the story of the Bakunins a distinguished noble family who in 1779 chose to abandon their home in St Petersburg for a rustic manor house in central Russia's Tver Province At the time the Russian government was encouraging its elite subjects to see their private lives as a forum for the representation of imperial virtues and norms Drawing on the family's vast archive Randolph describes the Bakunins' attempts to live up to this ideal and to convert their new home Priamukhino into an example of modern civilization In particular Randolph shows how the Bakunin home fostered the development of a group of charismatic young students from Moscow University who in the 1830s sought to use their experiences at Priamukhino to reimagine themselves as agents of Russia's enlightenment Some of the story Randolph tells is familiar to historians The anarchist Mikhail Bakunin

whose early philosophical evolution Randolph describes was born at Priamukhino while the radical critic Vissarion Belinsky claimed to have been transformed by his experiences there When Tom Stoppard sought to portray the spiritual history of the Russian intelligentsia in his trilogy *The Coast of Utopia* he chose Priamukhino as the scene for act 1 Yet Randolph's research allows us to watch this drama from a radically different perspective It shows how the culture of Russian Idealism so long presumed to be a product of alienation actually relied on the support provided by the cult of distinction that the Russian government had built around noble homes It also allows us to see the other actors and agents of private life and most notably the Bakunin women as participants in the creation of modern Russian social thought The result is a work that revises our understanding of Russian intellectual history while also contributing to the histories of women gender private life and memory in nineteenth century Russia
