Just War Thinkers Revisited Daniel R. Brunstetter, Cian O'Driscoll, 2024-11-25 This book comprises essays that focus on a range of thinkers who challenge the boundaries of the just war tradition The ethics of war scholarship has become a rigid and highly disciplined activity closely associated with a very particular canon of thinkers This volume moves beyond this by presenting thinkers not typically regarded as part of that canon but who have interesting and potentially important things to say about the ethics of war The book presents 20 profile essays on an eclectic cast of heretics humanists and radicals from ancient Greece to the twenty first century who lived through and theorized about violence The book asks how ethics of war scholars might benefit from engaging with them Some of these thinkers engage directly with to

augment or criticize the just war tradition while others contribute to military thinking across the ages pushing the boundaries of what was acceptable in war Many proffer alternative moral frameworks regarding the legitimacy of political violence The present volume thus invites scholars to reconsider the ethics of war in a way that challenges the standard delineation between just war theory realism and pacifism and to reflect on how those positions might inform our own approach to these matters This book will be of much interest to students of just war theory ethics of war war studies and International Relations

Farlow, 2017-07-14 Matthew Farlow traces the thoughts of Balthasar and Barth so as to enter into theological truth of God's Being in Act This exploration embarks on a journey into the reality of our Triune God who has engaged his creation so as to elicit fellow actors God seeking out humanity is God with us a truth that not only informs our theological endeavors but invites us into the dramatic performance of reconciliation As Farlow illumines God is an acting God who seeks fellow participants in his ongoing drama of salvation Through the dramatizing of theology the church and her theologians come to realize God's threefold movement revelation invitation and reconciliation It is a unified act that startles humanity and thus theology out of its spectator's seat so as to drag it onto the world's stage As Farlow discusses it is through the dramatizing of theology that we find ourselves best equipped to participate faithfully in the role of a lifetime

Faith and Force David L. Clough, Brian Stiltner, 2007-06-04 This book began in an argument between friends surprised to find themselves on opposite sides of the debate about whether the United States and the United Kingdom should invade Iraq in 2003 Situated on opposite sides of the Atlantic in different churches and on different sides of the just war pacifist fence we exchanged long emails that rehearsed on a small scale the great national and international debates that were taking place around us We discovered the common ground we shared as well as some predictable and some surprising points of difference When the initial hostilities ended our conversation continued and we felt the urgency of contributing to a wider Christian debate about whether and when war could be justified From the Preface So began a dynamic collaboration that developed into a civil but provocative debate over matters of war and peace that is Faith and Force From the ancient battles between Greek city states to the Crusades to the World Wars of the twentieth century to the present day wars in Afghanistan and Iraq and the Middle East aggressors and defenders alike have claimed the mantle of righteousness and termed their actions just But can the carnage of war ever be morally grounded And if so how These are the questions that David L Clough a Methodist proponent of pacifism and Brian

Stiltner a Catholic theologian and just war adherent have vowed to answer together With one voice Clough and Stiltner outline and clarify issues of humanitarian intervention weapons proliferation and preventative war against rogue states Their writing is grounded in Christian tradition and provides a fresh and illuminating account of the complexities and nuances of the pacifist and just war positions In each chapter Clough and Stiltner engage in debate on the issues demonstrating a respectful exchange of ideas absent in much contemporary political discourse whether on television or in the classroom The result is a well reasoned challenging repartee that searches for common ground within the Christian tradition and on behalf of the faithful promotion of justice yet one that also recognizes genuine differences that cannot be bridged easily Intended for a broad audience Faith and Force is the perfect foil to the shrill screeching that surrounds partisan perspectives on military power and its use To help with using the book in a classroom context the authors have provided Questions for Reflection and Discussion for each chapter You can download these questions in PDF format at press.georgetown.edu **Public**
