Redefining the Political. Youth Experiences of Collective Action in Turkey Pınar Gümüş Mantu, 2023-08-01 This book offers an analysis of the complex and shifting conditions of being young as well as the new ways in which young people engage in politics in Turkey It is based on a closer examination of young people s participation in the Gezi protests in 2013 From the perspective of cultural sociology this work presents a nuanced discussion of the roots and dynamics of young people s unexpected engagement and spectacular appearance at the protests with a theoretical focus on the concepts of youth and the political by exploring questions such as How did young people experience the protests How did they reflect on being young How did they define the political Grounded in ethnographic field research conducted via in depth interviews this book demonstrates that what happened in the Gezi protests was not a sudden

and miraculous transformation of apolitical youth into political subjects on the streets as has often been argued in public discourse. Rather, the protests brought into view the changes which had already been taking place in young people's lives in Turkey as a result of the effects of both local and global processes, i.e. the influence of authoritarian politics and social change characterized by religion in everyday life as well as the implications of neoliberal policies in the restructuring of urban spaces.

A Comparative Political Economy of Industrial Capitalism R. Mascarenhas, 2002-10-04. This comparative study of industrial capitalism is an examination of state-economy relations in mixed economies ranging from the interventionist German and Japanese to the less interventionist Anglo-American. Following the postwar consensus that resulted in the golden age 1950-1973 and ended with the energy crisis, the Anglo-American economies adopted neoliberalism while Germany and Japan remained interventionist. This resulted in the emergence of national types of capitalism. While analyzing the increased competition between them, R. C. Mascarenhas also notes the influence of globalization as well as alternative capitalism with the survival and re-emergence of industrial districts.
