Julian V Roberts, Andreas von Hirsch, 2014-10-01 This latest volume in the Penal Theory and Penal Ethics series addresses one of the oldest questions in the field of criminal sentencing should an offender's previous convictions affect the sentence Although there is an extensive literature on the definition and use of criminal history information the emphasis here is on the theoretical and normative aspects of considering previous convictions at sentencing Several authors explore the theory underlying the practice of mitigating the punishments for first offenders while others put forth arguments for enhancing sentences for recidivists Hearings, Reports and Prints of the House Select Committee on Crime United States. Hearings, Reports and Prints of the Senate Committee on the Judiciary United States. Congress. Senate. Committee on the Judiciary, 1978 *Policing Suspicion* Eleanor Bland, 2021-11-04 Policing Suspicion is an innovative

examination of policing practices and the impact of these on patterns of arrest and prosecution in London 1780 1850 The work establishes and defines the idea of proactive policing in historical context where police officers exercised discretion to arrest defendants on suspicion that they had recently committed or were about to commit an offence Through detailed examination of primary sources including the Old Bailey Proceedings newspaper reports instructions for police officers

archival records of policing practices and Select Committee reports the book examines the reasons given for arrests and the characteristics of those arrested. Suggesting that individual police officers made active choices using their discretion, the book highlights how policing practices affected the received record of criminal activity. It also explores continuities and changes in policing practices before and after the establishment of the Metropolitan Police force in 1829, examining the expectations placed on the various officials responsible for law enforcement. The book contends that policing practices and proactive officers themselves contributed to the prevalence of criminal stereotypes. Beyond the historical, the book is situated within criminological frameworks around policing and preventive justice, noting parallels between historical policing based on suspicion and contemporary police powers such as stop and search. Speaking to issues of wider significance for criminologists by examining interactions between the police and suspects and reflecting on police decision making processes, the book offers an original approach to those researching both the history of crime and policing and criminology and criminal justice more broadly.

Sentencing Multiple Crimes Jesper Ryberg, Julian V. Roberts, Jan Willem de Keijser, 2018

Sentencing Multiple Crimes confronts the practical and theoretical challenges for the criminal justice system when punishing multiple crime offenders, including the proportionality of the crimes committed, the temporal span between the crimes, and the relationship between theories about the punitive treatment of recidivists and multiple offenders. It provides a comprehensive examination of the dynamics involved with sentencing multiple offenders from the perspective of several legal theories.
