Garrison, Kyle Pivetti, 2015-11-19 This volume brings together two vibrant areas of Renaissance studies today memory and sexuality The contributors show that not only Shakespeare but also a broad range of his contemporaries were deeply interested in how memory and sexuality interact Are erotic experiences heightened or deflated by the presence of memory Can a sexual act be commemorative Can an act of memory be eroticized How do forms of romantic desire underwrite forms of memory To answer such questions these authors examine drama poetry and prose from both major authors and lesser studied figures in the canon of Renaissance literature Alongside a number of insightful readings they show that sonnets enact a sexual exchange of memory that epics of nationhood cannot help but eroticize their subjects that the act of sex in Renaissance tragedy too often depends upon violence of the past Memory these scholars propose re shapes the concerns of queer and sexuality studies including the unhistorical the experience of desire and the limits of the body So too does the erotic revise the dominant trends of memory studies from the rhetoric of the medieval memory arts to the formation of collective pasts Breaking the Cycle of Dependency in K-12 Education: Using Cognitive Science to Guide Instruction Derek Regensburger, 2025-03-04 This book seeks to help teachers convert dependent learners into independent learners who can take control of their own learning Part One instructs teachers on the conditions that create dependent learners as well as the principles of human intelligence and learning It discusses some of the myths and controversies concerning these topics It also analyzes the cognitive science research on how students learn and what educational practices best promote new learning The second half of the book addresses how teachers can create and implement classroom practices that promote the principles of learning and convert dependent learners into independent ones The book offers a holistic approach to teaching focusing on classroom management and relationship building writing and oral communication lesson design and assessment and feedback It also examines how direct instruction methods can be used in conjunction with active learning strategies like project based learning to improve student retention of knowledge and increase motivation and engagement **How to Remember Everything** Jacob Sager Weinstein, Odd Dot, 2020-10-13 HOW TO REMEMBER EVERYTHING is the ultimate guide to unlocking the power of your brain Kids will learn how to ace history tests by memorizing dates feel confident about remembering people's names win card games by mastering entire decks and hang on to happy memories for a lifetime This invaluable memory guide for children is full of recall building techniques fun challenges and hilarious art The Memory Palace Mira Bartok, 2011-01-11 In the tradition of *The Glass Castle* two sisters confront schizophrenia in this New York Times bestselling poignant memoir about family and mental illness Through stunning prose and original art *The Memory Palace* captures the love between mother and daughter the complex meaning of

truth and one family's capacity for forgiveness A Washington Post Best Book of the Year The National Book Critics Circle Award Winner for Best Autobiography People have abandoned their loved ones for much less than you've been through Mira Bartok is told at her mother's memorial service It is a poignant observation about the relationship between Mira her sister and their mentally ill mother Before she was struck with schizophrenia at the age of nineteen beautiful piano prodigy Norma Herr had been the most vibrant personality in the room She loved her daughters and did her best to raise them well but as her mental state deteriorated Norma spoke less about Chopin and more about Nazis and her fear that her daughters would be kidnapped murdered or raped When the girls left for college the harassment escalated Norma called them obsessively appeared at their apartments or jobs threatened to kill herself if they did not return home After a traumatic encounter Mira and her sister were left with no choice but to change their names and sever all contact with Norma in order to stay safe But while Mira pursued her career as an artist exploring the ancient romance of Florence the eerie mysticism of northern Norway and the raw desert of Israel the haunting memories of her mother were never far away Then one day a debilitating car accident changes Mira's life forever Struggling to recover from a traumatic brain injury she was confronted with a need to recontextualize her life she had to relearn how to paint read and interact with the outside world In her search for a way back to her lost self Mira reached out to the homeless shelter where she believed her mother was living and discovered that Norma was dying Mira and her sister traveled to Cleveland where they shared an extraordinary reconciliation with their mother that none of them had thought possible At the hospital Mira discovered a set of keys that opened a storage unit Norma had been keeping for seventeen years Filled with family photos childhood toys and ephemera from Norma's life the storage unit brought back a flood of previous memories that Mira had thought were lost to her forever The Memory Palace is a breathtaking literary memoir about the complex meaning of love truth and the capacity for forgiveness among family Through stunning prose and original art created by the author in tandem with the text The Memory Palace explores the connections between mother and daughter that cannot be broken no matter how much exists or is lost between them

Memory and Confession in Middle English Literature Kisha G. Tracy, 2017-05-06 This book argues that the traditional relationship between the act of confessing and the act of remembering is manifested through the widespread juxtaposition of confession and memory in Middle English literary texts and furthermore that this concept permeates other manifestations of memory as written by authors in a variety of genres This study through the framework of confession identifies moments of recollection within the texts of four major Middle English authors Langland Chaucer Gower and the Gawain Poet and demonstrates that these authors deliberately employed the devices of recollection and forgetfulness in order to indicate changes or the lack thereof both in conduct and in mindset in their narrative subjects Memory and Confession in Middle English Literature explores memory's connection to confession along with the recurring textual awareness of confession's ability to transform the soul demonstrating that memory and recollection is used in medieval literature to emphasize emotional and behavioral change

Miller,2024-09-30 Arguably all of Guatemalan writer Eduardo Halfon s fictional works deal with quandaries of translation even in their original versions The award winning author of fifteen books claims to have lost his mother tongue when his family fled to the United States after his tenth birthday This displacement echoing the displacement of his four grandparents from different corners of the Jewish diaspora to Guatemala gives Halfon like his ancestors before him good reason to consider translation a natural environment for his creative work and for life itself Indeed Halfon s uncanny ability to translate his family s history into fictions that resonate across the globe with readers in Spanish English and several other languages helps explain why he has received numerous prizes in the United States Spain Guatemala and even France some as a Latin American author others as a Latino or Jewish author Marilyn G Miller has written the first study to focus exclusively on this important voice in Jewish Latin American letters Only after returning to Guatemala and regaining his command of Spanish through reading literature did Halfon begin to build his life as a writer and translator Nonetheless the author admits that one thing is stubbornly true and it s this every sentence that I write every verb or adjective that I painstakingly insert or remove every literary thought that I have while writing always begins and ends in English Halfon s translated works are never parallel texts however Thus translation and its side effects foreign words linguistic lacunae multilingual modes of perception offer us crucial keys to understanding the author s fictional world as a vehicle for retelling and surviving Jewish trauma and finding his own particular plurilingual voice Memory and Narrative James Olney,1998 At a time when the memoir has never been more popular *Memory and Narrative* presents an account of how the weave of life writing has altered over time to arrive at its present form James Olney tells the story of an evolving literary form that originated in the autobiographical writings of St Augustine underwent profound and disruptive changes in Jean Jacques Rousseau s life writing trilogy and found its momentary conclusion in the body of Samuel Beckett s work Among other issues Olney considers the rejection of the pronoun I by many post Rousseau writers the uses of narrative in the works of Beckett Franz Kafka and the sculptor Alberto Giacometti and the role of literary memory in light of recent memory work from a variety of scientific disciplines Giambattista Vico Henry Adams Gertrude Stein Richard Wright and Christa Wolf are some of the many writers examined in this monumental study A to Zoo Rebecca L.
