Mensch und Umwelt im Mittelalter Vito Fumagalli,1992 **Famines During the 'Little Ice Age' (1300-1800)**

Dominik Collet,Maximilian Schuh,2017-08-01 This highly interdisciplinary book studies historical famines as an interface of nature and culture It will bring together researchers from the natural and social sciences as well as the humanities With reference to recent interdisciplinary concepts disaster studies vulnerability studies environmental history it will examine how the dominant opposition of natural and cultural factors can be overcome Such an integrated approach includes the archives of nature as well as archives of man It challenges deterministic models of human environment interaction and replaces them with a dynamic historicising approach As a result it provides a fresh perspective on the entanglement of climate and culture in past societies **Menschen und Mentalitäten** Hans-Henning Kortüm,2015-04-28 Dachten f hlten und handelten

modes the circumstances and dynamics of large scale subsistence change the effect of social differentiation on resource use and the effects of subsistence behaviour on population development and regulation **Sheela-na-gigs** Barbara

Freitag,2005-08-15 Here Barbara Freitag examines all the literature on the subject since their discovery 160 years ago highlighting the inconsistencies of the various interpretations in regard to origin function and name By considering the Sheela na gigs in their medieval social context she suggests that they were folk deities with particular responsibility for assistance in childbirth This fascinating survey sheds new light on a controversial phenomenon and also contains a complete catalogue of all known Sheela na gigs including hitherto unrecorded or unpublished figures **Perception and Action in Medieval Europe** Harald Kleinschmidt,2005 Study of the changing nature of the perception of an action and the action itself and how thought processes altered radically in the middle ages Can dancers dance for a year and a day without drinking eating and sleeping Can pictures be made to speak to their viewers Can lavender purify the soul The modern mind regards it as impossible and simply regards reports that these things happened as typical of the fantastic Middle Ages In his new book however Harald Kleinschmidt argues that we should not be so swift to dismiss such matters In this thought provoking study of the logic of perception and action behind these and other stories and of the history of the five senses he argues that modern Western rationalism is peculiar in seeing an opposition between perceivers and the targets of their curiosity actors and their environments or in general terms subject and object Instead he shows that whether active or passive people saw their deeds as correlated and mutually dependent Using a wide range of textual and pictorial sources he goes on to demonstrate that the assumption of an opposition between subject and object resulted from fundamental changes of standards of perception and patterns of action that took place during the Middle Ages resulting in the emergence of a new rationalism HARALD KLEINSCHMIDT teaches in the College of International Studies at the University of Tsukuba Japan

The Archaeology of Medieval Germany Günter P. Fehring,2014-10-24 Medieval archaeology is a relatively young discipline It relies heavily on and contributes to the neighbouring disciplines of history and geography as well as certain of the natural sciences The kinds of sources investigated in the context of medieval archaeology also cast light on many aspects of life in later centuries The main sources used are graveyards churches and churchyards castles and fortifications rural and urban settlements technical production sites and routes of communication Closely allied to these are the numerous finds of small objects of everyday life from cutlery and tools to animal remains and grain This book is a comprehensive discussion of what can be established from the use of such materials about the culture and daily life of medieval Germany Each subject is augmented with the use of many illustrations Besides methodological questions the author considers what can be learnt about the history of settlement and architecture of technology of economic and social matters of churches and missions and of population diet and vegetation **Beyond Bratwurst** Ursula Heinzelmänn,2014-04-15 Thanks to Oktoberfest and the popularity of beer gardens our thoughts on German food are usually relegated to beer sausage pretzels and limburger cheese

But the inhabitants of modern day Germany do not live exclusively on bratwurst Defying popular perception of the meat and potatoes diet Ursula Heinzelmann's *Beyond Bratwurst* delves into the history of German cuisine and reveals the country's long history of culinary innovation Surveying the many traditions that make up German food today Heinzelmann shows that regional variations of the country's food have not only been marked by geographic and climatic differences between north and south but also by Germany's political cultural and socioeconomic history She explores the nineteenth century's back to the land movement which called for people to grow food on their own land for themselves and others as well as the development of modern mass market products rationing and shortages under the Nazis postwar hunger and divisions between the East and West Throughout she illustrates how Germans have been receptive to influences from the countries around them and frequently reinvented their cuisine developing a food culture with remarkable flexibility Telling the story of beer stollen rye bread lebkuchen and other German favorites the recipe packed *Beyond Bratwurst* will find a place on the shelves of food historians chefs and space lovers alike

Children, Identity and the Past Liv Helga Dommasnes, Melanie Wrigglesworth, 2021-02-03 In this volume fourteen authors representing different academic fields and traditions present their work on children in past societies how to recognise children in the archaeological record the conditions of their lives and deaths and how they may have been perceived by their contemporaries The case studies from a number of European sites cover a time span from the Palaeolithic to the Middle Ages A central theme in many of the contributions is socialisation and education as part of identity forming processes What was it like to be a child in Palaeolithic times How did the Early Medieval Church approach the teaching of children Socialisation is a theme echoed also in the two papers dealing with teaching children of today about the past as the authors discuss how the past can be used in present identity forming processes During the last c 20 years the archaeology of children has been enriching our understandings of the past The papers in this volume make us realise that the study of children will have a profound impact on the study of past societies in general challenging us to reconsider established notions of prehistoric community life The past will never be the same after its children have entered the scene

Schauplätze der Umweltgeschichte in Schleswig-Holstein Collet, Dominik, Jakubowski-Tiessen, Manfred, 2013-12-09 In diesem Sammelband werden Schauplätze der Umweltgeschichte aus dem heutigen Bundesland Schleswig Holstein vorgestellt die den Blick auf die lokale Verflechtung von natürlicher Umwelt und gesellschaftlichem Handeln erlauben Selbstverständlich ist keine Vollständigkeit bei der Darstellung umweltgeschichtlicher Erinnerungsorte in Schleswig Holstein angestrebt worden Wir möchten mit diesem Band den an der Umweltgeschichte Interessierten jedoch einige exemplarische Fallbeispiele vorstellen welche Einblicke in das Mensch Umwelt Verhältnis und die Umweltproblematik vergangener und gegenwärtiger Zeiten ermöglichen und von besonderer umweltgeschichtlicher Relevanz sind Zugleich möchten wir mit diesen Schauplätzen ein stärkeres Bewusstsein für zeit und orts bergreifende Umweltthemen vermitteln

[A Social History of Disability in the Middle Ages](#) Irina Metzler, 2013-03-05 What was it like to

be disabled in the Middle Ages How did people become disabled Did welfare support exist This book discusses social and cultural factors affecting the lives of medieval crippled deaf mute and blind people those nowadays collectively called disabled Although the word did not exist then many of the experiences disabled people might have today can already be traced back to medieval social institutions and cultural attitudes This volume informs our knowledge of the topic by investigating the impact medieval laws had on the social position of disabled people and conversely how people might become disabled through judicial actions ideas of work and how work could both cause disability through industrial accidents but also provide continued ability to earn a living through occupational support networks the disabling effects of old age and associated physical deteriorations and the changing nature of attitudes towards welfare provision for the disabled and the ambivalent role of medieval institutions and charity in the support and care of disabled people

Frauen und Männer in der Gesellschaft des Mittelalters Cordula Nolte, 2013-07-01 Das Verhältnis der Geschlechter ist für alle Bereiche der mittelalterlichen Geschichte von Bedeutung Cordula Nolte schreibt eine Sozial und Kulturgeschichte unter dem Vorzeichen Geschlecht indem sie die Lebensbedingungen Lebensformen Aufgabenbereiche und Handlungsspielräume von Frauen und Männern verschiedener sozialer Schichten ebenso thematisiert wie die Verhaltensnormen und Leitbilder mit denen sie sich in Welt und Kirche konfrontiert sahen Dabei wird deutlich wie sich die Existenzformen von Frauen und Männern vor dem Hintergrund gesellschaftlicher und kultureller Veränderungen entwickelten Der geographische Schwerpunkt liegt auf dem frühmittelalterlichen Frankenreich bzw auf dem deutschen Reich im Hoch und Spätmittelalter So ergibt sich ein kompakter Überblick im Sinne einer interdisziplinären Mediävistik die neue Zugänge zur Erforschung von Politik Gesellschaft Wirtschaft Recht Kultur und Religion unter dem Motto Gendering the Middle Ages liefert

Wood Joachim Radkau, 2013-12-23 The iceman could not do without wood when he was climbing his Alpine glacier nor could medieval cathedral builders or today's construction companies From time immemorial the skill of the human hand has developed by working wood so much so that we might say that the handling of wood is a basic element in the history of the human body The fear of a future wood famine became a panic in the 18th century and sparked the beginnings of modern environmentalism This book traces the cultural history of wood and offers a highly original account of the connection between the raw material and the human beings who benefit from it Even more it shows that wood can provide a key for a better understanding of history of the peculiarities as well as the varieties of cultures of a co evolution of nature and culture and even of the rise and fall of great powers Beginning with Stone Age hunters it follows the twists and turns of the story through the Middle Ages and the Industrial Revolution to the global society of the twenty first century in which wood is undergoing a varied and unexpected renaissance Radkau is sceptical of claims that wood is about to disappear arguing that such claims are self serving arguments promoted by interest groups to secure cheaper access to and control over wood resources The whole forest and timber industry often strikes the outsider as a world unto itself a hermetically sealed black box but when we lift the lid on this box as Radkau does here we

will be surprised by what we find within Wide ranging and accessible this rich historical analysis of one of our most cherished natural resources will find a wide readership *Perspectives for Biodiversity and Ecosystems* Carsten Hobohm, 2021-02-05

The novelty of the book is a strong focus on perception perspectives and prediction by scientists with profound insight into the ecology of ecosystems or into human demands and activity The challenge is to bridge from empirical data and the knowledge of the past to the possibilities of the performance in the future We assume that there is scope for more cooperation between the fields of ecology and practical philosophy or other social sciences in organising ecosystems and shaping the cultural future of humankind and that such collaboration should be accorded considerably more priority This book deals with environmental processes seen within a framework of the nature of ecosystems and human cultures The future of the environment the development of ecosystems and effective nature conservation management are the essentials of this book Human nature and culture and in particular their interactions are interpreted as a set of rules and as given The aim is not only to assess the significance of human influence on species composition and biodiversity but also to weigh up the subsequent potentials for action In this book we will analyze the problems independently of one another even if they are interconnected This book focuses on perspectives and prognoses for the impacts of anthropogenic activity on ecosystems and thus on species conservation Its goal is to improve assessments of the impacts of human activity on the environment We are aware that prognoses have very often proven to be false It is difficult to impossible to be able to predict with precision how evolution and ecosystems will change in future under anthropogenic influence This strengthens our resolve to attempt to retain the highest possible degree of scientific integrity and professionalism and not to shy away from expressing the uncertainty of our own ideas and prognoses We venture prognoses in this book and we will fail However we hope that we will be wrong on the right side **The Salian Century** Stefan Weinfurter, 1999 An important interpretation of a major epoch in German history John Freed Illinois State University

Kirchenreform und Hochmittelalter 1046-1215 Hermann Jakobs, 2010-10-01 In der Sache hat der Autor nicht zuletzt nach neuerlich von Gerd Tellenbach ausgelsten Diskussionen denen sich in diesen Tagen ein von Cinzio Violante und Johannes Fried betreuter Band zugesellt II secolo XI una svolta Annali dell Istituto storico italo germanico Quaderno 35 Bologna 1993 mit sich gerungen den Reformbegriff aus dem Titel herauszunehmen und durch die Rosenstocksche Idee von der Papstrevolution zu ersetzen zumal ihn diese Idee immer in Forschung und Lehre auch in der Konzeption der Erstauflage dieses Buches wesentlich mitbestimmt hat Wenn es bei Kirchenreform geblieben ist soll der Titel einerseits dem gregorianischen Selbstverständnis gerecht zu werden versuchen und andererseits der Vielfalt des Zeitalters nicht zu viel von ihren Schattierungen nehmen Darber wird jedoch die relativ eng gefasste aber nicht verabsolutierte Periodisierung von 1046 bis 1215 und das strukturelle Verständnis von Hochmittelalter aus der Kirchenreform und der Papstrevolution keineswegs preisgegeben
