*Rocket Dreams* Marina Benjamin,2003-05-25 In 1958 mankind s centuries long flirtation with space flight became a torrid love affair For a decade tens of millions of people were enraptured first by the U S Soviet race to the moon and finally as America outstripped its rival by Project Apollo alone It is now more than three decades since the last man walked on the moon more time than between the first moonwalk and the beginning of World War II Apollo did not as had been promised by a generation of visionaries herald the beginning of the Space Age but its end Or did it Project Apollo like a cannonball reached its apogee and returned to earth but the trajectory of that return was complex America s atmosphere its economic scientific
