Studies in Christian Mysticism William Henry Dyson, 1913 *The Riddle of Christian Mystical Experience* Paul Mombaers, 2003 A distinctive feature of mystical experience is that it is imageless. Mystics of various traditions witness indeed to their going beyond all intermediaries so as to enjoy immediate union. Understandably, the idea of imageless immediacy is attractive and it is especially in vogue with those who hope to discover that different religious spiritualities converge if only the particularity of, say, the Christian way would be left behind. However, a crucial question arises here: If mystical union consists in simply transcending what is part and parcel of the human condition, where is its relevance? Is the mystic, as such, in a position to be his or her human self, thinking and loving, enjoying and suffering? Can he or she be active in the world of humankind? Obviously, it is especially in the Christian tradition that this matter comes to the fore as a radical difficulty. For here there is the divine Image and Mediator so much so that the Humanity of Jesus ought to be integral to a person's union with God. Perhaps the Christian mystic is such an extraordinary figure that the Humanity and all other images and intermediaries are for him or her at best a stepping stone that is bound to disappear. *The Riddle of Christian Mystical Experience* aims to clarify this issue by analyzing the writings of such visionaries as Julian of Norwich, Teresa of Avila, and Maria Petyt, of the ecstasy-minded masters Richard of Saint Victor, Bernard of Clairvaux, and Bonaventure, describing Francis of Assisi's experience of the cream of the Flemish mystics, namely Hadewijch and Jan van Ruusbroec. Nevertheless, the preference for the mystical text does not prevent the Riddle from drawing on the insights of modern philosophers such as Jean-Paul Sartre and Jean-Luc Marion when treating of images and idols, or Michael Polanyi and Ludwig Wittgenstein when reflecting on intermediaries. The main result of this procedure may come as a surprise: Far from turning into a detached creature who forgets about the Humanity and the human, the full-fledged mystic is, as a Flemish mystic puts it, wholly in God where he rests in enjoyment and wholly in himself where he loves with works. Experiencing union with intermediary and without intermediary, the true Christian mystic is unimaged as well as imaged upon the humanity of our Lord through heartfelt affection.

Mysticisms East and West Christopher Hugh Partridge, Theodore P. C. Gabriel, 2003 Mysticism is proving to be the chosen type of religion for future generations of believers in the West. As traditional institutional religion continues to decline, mystical thought is celebrated as a vital, subversive alternative. Evidence for this religious cultural shift towards the mystical, the experiential, and indeed the creation-centered can be found in bookstores, most of which devote a large amount of shelf space to mystical themes and writers from the world religions. While this shift is not new, an increasing number of westerners are turning east because they find the

fundamentally mystical thought of Asian religious traditions appealing Furthermore numerous westerners have actually become gurus and mystics within Eastern traditions *Mysticisms East and West* examines the worldwide phenomenon of mystical experience across the world religions In examining both Christian and non Christian expressions of mysticism this unique volume brings together a number of prominent evangelical scholars to analyze the central historical cultural and theological issues Beginning in the East these studies in mystical experience gradually move to the West and to Christian mysticism before concluding with a number of philosophically reflective essays examining the implications and nature of mysticism

and out of body experiences He demonstrates that these extraordinary phenomena can actually deepen our understanding of mysticism in unexpected ways A unique feature of this book is its in depth analysis of empowerment an important phenomenon ignored by most scholars of mysticism Empowerment is a peculiar enhancement of the imagination thoughts and desires that frequently accompanies mystical states of consciousness Hollenback shows its cross cultural persistence its role in constructing the perceptual and existential environments within which the mystic dwells and its linkage to the fundamental contextuality of mystical experience
