The Inner Nature of Man Rudolf Steiner,2013-11-06 When we know how to enter deeply into the realm of the soul we reach understanding of the harmony that exists between successive lives on earth and the whole of the physical world outside us Rudolf Steiner In these eight lectures given during the Great War as thousands of young men were being killed in battle Rudolf Steiner the great initiate of the twentieth century describes the dramatic reality of the spiritual worlds encountered by human beings after death He speaks of the joys and sufferings experienced in those worlds by people of different character the vision of the ideal human being that souls experience the cosmic midnight hour the processes leading to rebirth in the world of the senses the deeper causes behind such phenomena as materialism and criminality and why in the flesh we lose our instinctive perception of the spiritual worlds Steiner describes how knowledge of the spiritual realms as well as the life beyond death and before birth can be built on the foundations of modern science Indeed he speaks of mankind s involvement in science and its many

Joseph Hebert Jr., 2012-07-10 [More than Kings and Less than Men](#) Tocqueville on the Promises and Perils of Democratic Individualism examines Alexis de

Tocqueville's hopes and fears for modern democracy arguing that the distinctive political philosophy informing Democracy in America can help us to think more profoundly about the problems facing liberal democratic society today L Joseph Hebert Jr argues that Tocqueville saw the historical power of democracy as originating in its promise to liberate human nature and the greatness it is capable of achieving from the artificial constraints of conventional hierarchy He probes Tocqueville's fear that the momentum of democratic change may violate that promise by neglecting or even stifling human greatness in the name of an artificial equality of conditions Hebert explains why Tocqueville saw the need for a new political science to regulate democracy and why Tocqueville thought that the central task of this science supported by enlightened statesmanship was to combat individualism an extreme form of civic moral and intellectual apathy capable of ushering in a historically unprecedented form of despotism Hebert looks in depth at the principles of Tocqueville's political science their relation to classical modern and contemporary political thought and their practical applications in his time and ours He outlines the model Tocqueville recommended for a free and flourishing modern democratic order and analyzes the primary mechanisms Tocqueville proposed for avoiding the perils and securing the promise of democracy in his own day Hebert observes that many of Tocqueville's fears regarding individualism are occurring today and analyzes how Tocqueville's insights might be applied to combat individualism and promote genuine liberty in our own time *The Development of the Feeling for Nature in the Middle Ages and Modern Times* Alfred Biese, 1905 **The Chinese Recorder and Missionary Journal**, 1888
