Night Freight:

Railroad Gazette ,1874 **Railroad Age Gazette** ,1910 **Connecticut Reports** Connecticut. Supreme Court of Errors,1885 The Target; Love, Death and Airline Deregulation J. R. Hauptman,2008 Novel set in the late nineteen eighties recounting first years of airline deregulation and the effects it had on that industry and its employees Corporate raider Carlo Clemenza is the chief villain of the piece He uses junk bonds uncompromising Soviet styled negotiation tactics sham bankruptcies and ruthless abrogation of union contracts to crush competing airlines and to bring airline workers to heel His methods earn him countless death threats Thousands of professional pilots find themselves compelled to start their careers over or with no careers at all One pilot decides to take direct action and makes Clemenza The target But his pursuit of the well protected Clemenza makes him a target in turn The Railroad in American Fiction Grant Burns,2015-01-28 Nothing better represented the early spirit of American expansion than the railroad Dominant in daily life as well as in the popular imagination the railroad appealed strongly to creative writers For many years fiction of railroad life and travel was plentiful and varied As the nineteenth century receded the railroad s allure faded as did railroad fiction Today it is hard to sense what the railroad once meant to Americans The fiction of the railroad often by railroaders themselves recaptures that sense and provides valuable insights on American cultural history This extensively annotated bibliography lists and discusses in 956 entries novels and short stories from the 1840s to the present in which the railroad is important Each entry includes plot and character description to help the reader make an informed decision on the source s merit A detailed introduction discusses the history of railroad fiction and highlights common themes such as strikes hoboes and the roles of women and African Americans Such writers of pure railroad fiction as Harry Bedwell Frank Packard and Cy Warman are well represented along with such literary artists as Mark Twain Thomas Wolfe Flannery O Connor and Ellen Glasgow Work by minority writers including Jean Toomer Richard Wright Frank Chin and Toni Morrison also receives close attention An appendix organizes entries by decade of publication and the work is indexed by subject and title **A Return to the 'Boro** George G. Suggs Jr.,2017-04-24 In this book the author recaptures life as he lived and observed it during the Great Depression and World War II in the small southern town of Bladenboro North Carolina Despite this being a troublesome era it was the authors good fortune to grow up where families were large and strong and people knew and respected each other Amid segregated schools and churches and other class distinctions in those hard times social and racial relations were peaceful A Return to the Boro takes slices of life from this small Carolina textile town that reveal in a small way the caring relationships that existed among all classes at a time when the world seemed to be going to pot It provides a glimpse of a way of life now gone For many readers of this era this book may provoke a trip down memory lane If so the author hopes that their memories will be as positive about the past as are his *Trips in the Life of a Locomotive Engineer* Henry Dawson,2021-11-05 In *Trips in the Life of a Locomotive Engineer* Henry Dawson offers a compelling narrative that captures

the unique experiences and challenges faced by those who operate steam engines during the peak of the Industrial Revolution With a vivid and detailed writing style Dawson immerses readers in the sights and sounds of the railway blending personal anecdotes with meticulous observations of the technology and landscapes that defined an era The book serves as both a memoir and an insightful commentary on the transformative power of the locomotive reflecting broader themes of progress labor and the human connection to machinery in a rapidly modernizing world Henry Dawson s background as a seasoned locomotive engineer provides an authentic lens through which he recounts his journeys across diverse terrains His firsthand experiences are colored by his deep appreciation for the evolving technology of his time and the camaraderie shared among fellow engineers Dawson s life on the tracks characterized by both exhilarating adventures and mundane realities offers readers a unique perspective on a profession integral to America s economic expansion This book is highly recommended for anyone interested in the history of transportation technological advancements or biographical narratives that illuminate the human experience Dawson s engaging prose will resonate with railway enthusiasts and casual readers alike inviting them to journey along the steel tracks of a bygone era The Boston Composers Project Boston Area Music Libraries,1983 The bibliography lists nearly 5 000 compositions by 200 composers of jazz and art music indicating where scores or realizations can be purchased rented or borrowed and which Boston area libraries have them in their collections
