Yelle, 2004-03-01 Explaining Mantras explores the intersection of poetry and magic in the mantras or verbal formulas of Hindu Tantra The author reveals how mantras work in light of both the esoteric tradition of Tantra and a general semiotic theory of ritual Mantras mimic the act of sexual reproduction and the cosmic cycle of creation and destruction A mantra that imitates creation is believed to be more creative and effective in producing a real world result Drawing from linguistics semiotics anthropology and philosophy as well as the history of religions the author argues that mantras and other ritual discourses use rhetorical devices including imitation to construct the persuasive illusion of a natural language one with a direct and immediate connection to reality This vital relation between poetry and ritual has been neglected in many current

theories of religion Explaining Mantras combines the study of ancient Tantric rituals with the latest theories in the human sciences and will be of interest to a broad range of readers

Barratt, 2015-11-06 According to the author psychoanalytic theory and practice which discloses the interminable falsity of the human subject's belief in the mastery of its own mental life is in part responsible for the coming of the postmodern era In this title originally published in 1993 Barratt examines the role of psychoanalysis in what he sees as the crisis of modernism shows why the modernist position what he calls the modern episteme is failing and proposes that psychoanalysis should redefine itself as a postmodern method In Barratt's innovative account of psychoanalysis which focuses on the significance of the free associative process Freud's discovery of the repressed unconscious leads to a claim that is basic to postmodern ideas that all thinking and speaking the production and reproduction of psychic reality is inherently dynamic polysemous and contradictory He argues that subsequent attempts to normalize and systematize psychoanalysis are reactionary and antipsychoanalytic efforts to salvage the modern episteme that psychoanalysis itself calls into question *Bulletin of the Public Library of the City of Boston*, 1921 **Bulletin [1908-23]** Boston Public Library, 1922 Bulletin of the Public Library of the City of Boston ... been considered a monumental exploration of the foundations of Indian philosophy Based on the copious notes of Indologist linguist and art historian Heinrich Zimmer and edited by Joseph Campbell this book is organized into three sections The Highest Good looks at Eastern and Western thought and their convergence The Philosophies of Time discusses the philosophies of success pleasure and duty and The Philosophies of Eternity presents the fundamental concepts of Buddhism Brahmanism Jainism Sankhya and yoga and Tantra This work examines such areas as the Buddhist Tantras Buddhist Genesis the Tantric presentation of divinity the preparation of disciples and the meaning of initiation and the symbolism of the mandala palace Tantric ritual and twilight language It also delves into the Tantric teachings of the inner Zodiac and the fivefold ritual symbolism of passion Appendices a bibliography and general and Sanskrit indexes are included The Self and the Lotus: A Jungian View of Indian Buddhism, Volume II George R. Elder, 2023-05-30 It is obvious to thoughtful persons that our culture is undergoing a major transition as is our religion the carrier of values and guide to meaning It is essential therefore that we understand how religion functions when a culture is alive and well Observing how it has functioned elsewhere in another time and place is a good way to gain objectivity about the religious life And this survey of ancient Indian Buddhism serves that purpose It is important too that we try to interpret ancient wisdom in a modern way so that it has meaning for us Thus this work on Buddhism introduces the psychology of C G Jung and demonstrates to what extent Jung knew about Buddhism how he used it to comment upon the psychology of religion in general This is the second volume of a two volume work Following the first volume s exploration of the Life of the Buddha and Early Buddhist teaching this volume explores Mahayana teaching Buddhist Philosophy and Tantra At important junctures of the discussion the author pauses to reflect from the point of view of Jungian psychology
