Independent School Libraries Dorcas Hand,2010-06-11 The first book published about independent school libraries since 1985 this work offers both the independent school library community and the broader school library community a wealth of insights into excellence in library practice *Independent School Libraries Perspectives on Excellence* offers readers insights into best practices in library services for school communities using examples drawn from independent schools of various sizes descriptions and locations across the United States Two overview essays introduce a statistical analysis of independent schools Each of the remaining essays provides perspective on a different aspect of library practice including staffing advocacy assessment technology collaboration programs beyond the curriculum intellectual freedom and privacy budgeting accreditation disaster planning and more Because independent school librarians work across divisions and without a mandate to adhere to state or national standards they have the freedom to explore and refine best practice in a school library setting Fortunately the ideas and methods they have developed many of which are on display here can be applied in any school library *Education Reform and the Quest for Excellence* Lok Sang Ho,Paul Morris,Yue-ping Chung,2005-11-01 This book investigates and analyses critical issues in education reform and discusses possible pitfalls in the current global drive to promote excellence Instead of documenting the successes and frustrations encountered by education reformers in specific jurisdictions this book aims to offer directions for education reformers and sets out to be prescriptive rather than descriptive While the cases covered here are focused on Hong Kong they are no less useful in throwing light upon the direction of education reform all over the world The first section of the volume Conceptual Framework provides the theoretical underpinnings for the design and implementation of education reform The next two sections Reform of Tertiary Education and Experiments Dilemmas and Risks in Secondary Schools look at reform at the tertiary and secondary levels in greater detail The final section Ideals vs Reality the Interplay of Diverse Interests and Diverse Perceptions looks at the conflicting goals and perceptions of different stakeholders with a concluding chapter that summarizes the main lessons to be learnt This book will be of interest to scholars educators parents policymakers politicians and all who are concerned about our younger generation and their future The editors Lok Sang Ho Paul Morris and Yue ping Chung are to be congratulated on producing a volume which is both hard hitting and insightful about education reforms in Hong Kong The range of experiences of the contributing authors contribute to a most interesting mix of perspectives about education reform The focus is squarely on Hong Kong in terms of general policy and reform issues followed by more specific chapters dealing with issues of graduate teachers English as a medium of instruction and the role of the media However the issues raised are very applicable to many countries This book is a valuable contribution to the literature on education reform Professor Colin J Marsh Curtin University Perth Western Australia **Nonprofit Nation** Michael O'Neill,2002-11-29 In Nonprofit Nation the
