Religion And Psychology In Transition Psychoanalysis Feminism And Theology:

Religion and Psychology in Transition James W. Jones, 2008-10-01 In this thought provoking book clinical psychologist and professor of religious studies James W Jones presents a dialogue between contemporary psychoanalytic thinking and contemporary theology He sheds new light on the interaction of religion and psychology by viewing it from the perspective of world religions providing an epistemological framework for the psychology of religion that draws on contemporary philosophy of science and bringing out the importance of gender as a category of analysis Developments in psychoanalysis provide new resources for theological reflection Jones contends The Freudian view that human nature is isolated and instinctual has shifted to a vision of the self as constituted in and through relationships Jones uses this relational model of human nature to explore the convergence between contemporary psychoanalysis feminist theorizing and themes in religious thought found in a variety of traditions He also critiques the reductionism inherent in Freud's discussion of religion and proposes nonreductionistic and genuinely psychoanalytic ways for psychoanalysis to treat religious topics For therapists psychologists theologians and others interested in spiritual or psychological issues Jones offers illuminating clinical material and insightful analysis

Progress in Self Psychology, V. 18 Arnold I. Goldberg, 2013-06-17 Postmodern Self Psychology the last volume of the Progress in Self Psychology series under the editorship of Arnold Goldberg charts the path of self psychology into the postmodern era of psychoanalysis It begins with Goldberg's thoughtful consideration of the several tributaries of self psychological thought in the decades after Kohut and continues with Mark Gehrie's elaboration of reflective realism as a self psychological way out of epistemological quagmires about the essential reality of the analytic endeavor Clinical contributions offer contemporary perspectives on clinical themes that engaged Kohut in the 1970s a study of the effect of moments of meeting on systems of pathological accommodation a reappraisal of empathy as a bi directional negotiation and an assessment of the diverse clinical phenomena that justify a prolonged understanding only phase of treatment The theory section of Volume 18 comparably charts the movement of self psychology toward a postmodern sensibility Contributors reappraise intersubjectivity theory as a contextualist treatment approach consistent with dynamic systems theory return to Kohut's concept of selfobject relationships with special attention to the separate subjective and intersubjective components of selfobject experiences and develop one of Kohut's early ideas into a theory of forward edge transferences that strengthen normal self development In all Volume 18 is a richly insightful progress report on the current status of self psychology and a fitting capstone to Arnold Goldberg's distinguished tenure as editor of the Progress in Self Psychology series

The Image of God and the Psychology of Religion Richard L Dayringer, David Oler, 2013-04-03 What are the implications of a client's image of God Improve your confidence and your practice skills by enhancing your knowledge of how individuals are likely to perceive God and of how those perceptions impact the way they function as human beings Theologians have long speculated and theorized about how humans imagine God to be This book merges theology

with science presenting empirical research focused on perceptions of God in a variety of populations living in community and mental health settings Each chapter concludes with references that comprise an essential reading list and the book is generously enhanced with tables that make data easy to access and understand Liberating Images of God discusses the constriction and impoverishment of God images due to the traditional restrictions of God images to those that are male and personified This chapter examines the potential for the client and counselor s co creation of images of God which embrace the feminine as well as the masculine the nurturer as well as the warrior and the natural world in all its dimensions as well as the human world to liberate enrich sustain and transform the client s relationships with God and with him herself Attachment Well Being and Religious Participation Among People with Severe Mental Disorders examines the relationship between attachment states of mind and religious participation among people diagnosed with severe mental illness Concepts of God and Therapeutic Alliance Among People with Severe Mental Disorders explores the transferential aspects of God representation among severely mentally ill adults It highlights research on the relationship between a patient s image of God and that patient s working relationship with his her case manager and discusses the implications for clinical practice of those findings The Subjective Experience of God presents a theory about the psychological basis for the experience of God that argues that this experience is essentially a form of projection and as such is an internal event that does not exist independent of an individual s psyche This chapter draws a distinction between faith in a particular belief namely faith in the existence of a loving omnipotent God and an attitude of faith which is the basis for experiences of transcendence Relationship of Gender Role Identity and Attitudes presents the results of a study in which nearly 300 Catholic attendees at three university Catholic centers completed the Bern Sex Role Inventory the Attitudes Toward Women Scale and the Perceptions of God Checklist This chapter looks at images of God as masculine or feminine and at the connection for people between the way they perceive God and the way they relate towards men and women Reflections on a Study in a Mental Hospital brings you groundbreaking new research on perceptions of God in an inpatient population This chapter examines the positive effects as opposed to the negative effects previously portrayed by the psychological community of religious belief and practice for residential care patients in a psychiatric hospital

Race in Psychoanalysis Celia Brickman, 2017-12-06 Race in Psychoanalysis analyzes the often unrecognized racism in psychoanalysis by examining how the colonialist discourse of late nineteenth century anthropology made its way into Freud s foundational texts where it has remained and continues to exert a hidden influence Recent racial violence particularly in the US has made many realize that academic and professional disciplines as well as social and political institutions need to be re examined for the racial biases they may contain Psychoanalysis is no exception When Freud applied his insights to the history of the psyche and of

civilization he made liberal use of the anthropology of his time which was steeped in colonial racist thought Although it has often been assumed that this usage was confined to his non clinical works this book argues that through the pivotal concept of primitivity it fed back into his theories of the psyche and of clinical technique as well Celia Brickman examines how the discourse concerning the presumed primitivity of colonized and enslaved peoples contributed to psychoanalytic understandings of self and raced other She shows how psychoanalytic constructions of race and gender are related and how Freud s attitudes towards primitivity were related to the anti Semitism of his time All of this is demonstrated to be part of the modernist aim of psychoanalysis which seeks to create a modern subjectivity through a renegotiation of the past Finally the book shows how all of this can affect both clinician and patient within the contemporary clinical encounter Race in Psychoanalysis is a pivotal work of significance for scholars practitioners and students of psychoanalysis psychologists clinical social workers and other clinicians whose work is informed by psychoanalytic insights as well as those engaged in critical race and postcolonial studies *Freud and Religion* William B. Parsons, 2021-05-27 Offers a revised psychoanalytic theory of religion by sifting through the history of psychoanalytic models in dialogue with their multidisciplinary critiques

Exploring how the climate crisis discloses the symbol deficit in the Christian tradition this book argues that Christianity is rich in symbols that identify and address the failures of humans and the obstacles that prevent humans from doing well while positive symbols that can engage people in constructive action seem underdeveloped Henriksen examines the potential of the Christian tradition to develop symbols that can engage peoples in committed and sustained action to prevent further crisis To do so he argues that we need symbols that engage both intellectually and emotionally and which enhance our perception of belonging in relationships with other humans be it both in the present and in the future According to Henriksen the deficit can only be obliterated if we can develop symbols that have some root or resonance in the Christian tradition provide concrete and specified guidance of agency engage people both emotionally and intellectually and finally open up to visions for a moral agency that provide positive motivations for caring about environmental conditions as a whole Religion as

Orientation and Transformation Jan-Olav Henriksen, 2017-05-12 Religions are not primarily expressed in people's heads and their thoughts but in what they do. People use religious symbols in order to orientate or change themselves. In this way, religion is related to all realms of human life. Jan-Olav Henriksen shows that only against this backdrop can we understand the role of religions in human life. Book jacket

Relating to God, Dan Merkur, 2013-11-21 In *Relating to God*, Clinical Psychoanalysis, Spirituality, and Theism, Dan Merkur conceptualizes religious discourse within psychoanalysis. He proposes that God be treated as a transference figure whose analysis leads to a reduction of the parental content that is projected onto God. Merkur notes that religious conversion experiences regularly involve theological intuitions that are either rational or, owing to morbid complications, have undergone displacement into irrational symbolism. Analysis renders the religiosity more wholesome. Traditionally, psychoanalytic thought has been dismissive of religion. Freud is on record, however, as having called psychoanalysis a neutral procedure. He argued that religion, with its dependency on a providential God who punishes disobedience, imagines spirituality on the model of human parents and fails to approach spirituality in an appropriately scientific manner. He wrote little of spiritual phenomena but mentioned both the rationality of the universe and the parapsychological occurrence of thought transference. Occasionally, later psychoanalysts used different language in order to contrast wholesome and morbid forms of religion. Erich Fromm distinguished authoritarian and humanistic religions, while D. W. Winnicott condemned fetishistic behavior while approving of playful illusions that require belief. In these formulations, constructed a middle position for clinicians, neither categorically opposed to religion as classical psychoanalysis was, nor do they embrace cultural relativity as spiritually oriented psychotherapists are currently advocating. What sorts of spiritual practices does psychoanalysis find unobjectionable? As examples of humanistic religion, Fromm named Zen Buddhism, Buddhist mindfulness meditation, and the *via negativa* or way of negating that some Christian and Jewish mystics have followed. Because the Bible-based approaches are little known, Merkur discusses their histories, procedures, and psychoanalytic understanding.

Human Development and Faith (Second Edition) Felicity B. Kelcourse, 2015-07-28 This book, now in its second edition, brings together the best available understandings of human development from a multidisciplinary perspective. Uniquely inclusive of the moral and faith dimensions of context and life cycle development, *Human Development and Faith* examines the interplay of mind, body, family, community, and soul at every stage of development. It addresses two central questions: What are the good enough conditions of parenting, family, and community in

each phase of life from birth to death which support growth and development What gives life adequate meaning as development proceeds If human development describes the normative and hoped for passages of life then faith provides the necessary component of meaning Throughout the various perspectives offered in this volume is the premise that faith is that quality of living that makes it possible to fully live The Journal of Pastoral Theology called the first edition of Human Development and Faith an excellent text for pastoral theology courses because it fulfills its ambitious goal of bringing a holistic faith perspective to the usual topics of development This second edition includes a new chapter on infancy updates reflecting our growing awareness of cultural diversity and a new preface

Relating God and the Self Jan-Olav Henriksen, 2016-04-08 Religion is not only about understanding the world it is just as much about how to develop and shape the self's experience of itself Because the religious self is shaped by our symbols of God and symbols of God are also shaped by the self theology and philosophy of religion cannot ignore this interplay or the psychological dimension when they discuss what symbols of God are adequate and not By discussing critically different ways the symbol of God functions in the formation of the self the book develops a nuanced and original approach to the interplay between God and the self It suggests that play is actually an important metaphor in order to develop a dynamic understanding of religion's way of relating God and the Self This approach challenges understandings of religion focussing only its cognitive claims as well as those who emphasize doctrinal orthodoxy as the most important element in religion

Owens crafts a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered. The novel begins with Richard Pape, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and thrilling novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
