Shes Gonna Be:

The Conscious Hours Stephen Lissberger, 2005-10 Represented in this novel is a microcosm of what lies beneath the civilized facade of a New York society and what lies are fed to gullible believers Any facsimile to real persons or events may or may not be coincidental That primarily depends on the point of view of the guilty as well as the innocent and how they perceive themselves Eric Soloman represents an effort to coerce the mind s eye to focus on two perspectives at the same time that of the participant and that of the observer The insurmountable anxieties throttling his ambition and the community in which he lives comprise the collisions that drive him to the point of inevitable madness The contagious complacency of a self serving society is the only thing separating him from possible acceptance His struggles reflect the natural instincts of survival His heart houses two windows One through which he sees COURAGE the other COWARDICE in his uncertain quest for life s elusive meaning
