The Sunuwar of Nepal and their Sense of Communication Werner M. Egli, 2014 This detailed study on the Sunuwar people one of the many indigenous peoples of Nepal is based on more than twenty years of ethnographic research The book starts with an account of the Sunuwar s indigenous notion of culture mukdum as expressed in social practice With reference to specific social fields a model of the Sunuwar person mainly used to grasp deviations from the ideal way of life is analyzed from the perspective of cultural psychology and the anthropology of the senses The study concludes with an analysis of healing rituals showing that their effect simultaneously results from the ancestral atmosphere produced by the shaman and a kind of domination free discussion among the ritual participants mainly taking place in the pauses of the ritual Thus the shamanic ritual is interpreted as a kind of mediation Series LIT Studies on Asia Asien Forschung und Wissenschaft Vol 6 Subject Asian Studies Anthropology Cultural Studies Psychology Religious Studies **Span of Words** Anjou Giri Kwan, 2012-11-30 In these Span of Words life has been more than a journey and I haven t found my destination yet I search for it in life experiences travels photographs and Love My mind is always on the move How does one describe a snowflake I am the snowflake and so are you sometimes we have a great design and other times we just melt away Whatever the mood or experience everything teaches We have a poetry in us words that seek for a place in the sun The idea is to live it and I am doing so in this book giving it a life playing genius tapping bursts of wisdom even the cynical ones how else to do it How else would you **The Perfume of the Rainbow** Lily Adams Beck, 1923 **Solariad** Surazeus Astarius, 2017-10-15 Solariad of Surazeus Guidance of Solaria presents 114 920 lines of verse in 1 660 poems lyrics ballads sonnets dramatic monologues eulogies hymns and epigrams written by Surazeus 2006 to 2011 **Advanced Yoga Practices - The AYP Plus Lessons** Yogani, The AYP Plus Lessons eBook is offered as a resource for off line study covering nearly 1 000 lessons and additions on practices and experiences Until now this large amount of instructional content has only been available through the AYP Plus online service Full Scope Yoga consisting of eight limbs opens the doorway between our outer and inner reality leading us to Abiding Peace Unity and Joy in all aspects of life The Advanced Yoga Practices AYP Lessons provide detailed instructions on how to open the doorway of our nervous system aiding us in unfolding our full potential and destiny in this life Deep Meditation Spinal Breathing Pranayama and Yoga Asanas form the foundation of daily practice in a short routine compatible with modern life with extensive refinements and many additional practices provided in the lessons as experience in human spiritual transformation advances over time Prudent Self Pacing of practices for comfort and safety is a core teaching throughout the lessons The AYP Lessons began in 2003 as an online resource Over the years the teachings have expanded to populate several websites more than 15 books and translations into more than a dozen languages The two original AYP Easy Lessons for Ecstatic Living books published in 2004 and 2010 cover nearly 500 lessons combined As the writings continued the AYP Plus online service was launched in 2015 eventually providing nearly 500 additions to the original lessons expanding

Nitrosative Signaling in Cardiovascular System: from Physiological Response to Disease Mariarosaria Santillo,Pasquale Pagliaro,2019-01-22 The role of ROS RNS signaling in cardiovascular functions and diseases is increasingly emerging in the last decades The involvement of ROS RNS in the control of a large number of cardiovascular functions like the regulation of the vascular tone the control of blood pressure or myocyte excitation contraction coupling and force development has been broadly investigated and in part clarified On the other hand many efforts have been focused in clarifying the redox mechanisms involved in cardiovascular diseases like ischemia reperfusion injury diabetes associated cardiovascular dysfunctions atherosclerosis or hypertension just to mention the major ones However in most cases the two levels of investigation remain separate and not interlaced failing in the attempt to provide a unified vision of the

pathophysiologic mechanisms of cardiovascular diseases The major aim of the Research Topic has been to collect original papers and review articles dealing with the issue from basic to translation research point of views The topic includes contributions that highlight different interesting aspects of cardiovascular biology with an integrated approach useful for the development of new ideas and advancements in the field of redox signaling in the control of normal cardiovascular functions and their disruption in diseases

Pilgrimage and Healing Jill Dubisch, Michael Winkelman, 2022-08-09 Bikers converge at the Vietnam Veterans Memorial in Washington D C Thousands flock to a Nevada desert to burn a towering effigy And the hopeless but hopeful ill journey to Lourdes as they have for centuries Although pilgrimage may seem an antiquated religious ritual it remains a vibrant activity in the modern world as pilgrims combine traditional motives such as seeking a cure for physical or spiritual problems with contemporary searches for identity or interpersonal connection That pilgrimage continues to exercise such a strong attraction is testimony to the power it continues to hold for those who undertake these sacred journeys This volume brings together anthropological and interdisciplinary perspectives on these persistent forms of popular religion to expand our understanding of the role of the traditional practice of pilgrimage in what many believe to be an increasingly secular world Focusing on the healing dimensions of pilgrimage the authors present case studies grounded in specific cultures and pilgrimage traditions to help readers understand the many therapeutic resources pilgrimage provides for people around the world The chapters examine a variety of pilgrimage forms both religious and non religious from Nepalese and Huichol shamanism pilgrimage to Catholic journeys to shrines and feast days to Nevada s Burning Man festival These diverse cases suggest a range of meanings embodied in the concept of healing itself from curing physical ailments and redefining the self to redressing social suffering and healing the wounds of the past Collectively and individually the chapters raise important questions about the nature of ritual in general and healing through pilgrimage in particular and seek to illuminate why so many participants find pilgrimage a compelling way to address the problem of suffering They also illustrate how pilgrimage exerts its social and political influence at the personal local and national levels as well as providing symbols and processes that link people across social and spiritual boundaries By examining the persistence of pilgrimage as a significant source of personal engagement with spirituality Pilgrimage and Healing shows that the power of pilgrimage lies in its broad transformative powers As our world increasingly adopts a secular and atheistic perspective in many domains of experience it reminds us that for many spiritual quest remains a potent force

The Theory of Light Chetan Amfire, 2015-11-30 The Theory of Light is a book of the one by the one and for the one Set in the New Age each chapter seeks to uncover the mysteries of the one as a personality and as a number This book is a collection of subjective experiences based on an objective phenomenon that which we know as Light In the book Light is the personification of the light of consciousness As the chapters progress you will have a realization every character in the book has this realization Light has this realization and although everyone shares this experience there is a distinct

difference in the depth of each one's understanding of who or what the one is *Ithihaasa* Bhaktivejanyana Swami, 2013 Dr Singh Science says that the different species were not created simultaneously but evolved gradually I came across a statement in the Bhagavad Gita to the effect that all 8 400 000 species of living entities are created simultaneously Is that correct Srila Prabhupada Yes Living beings move from one bodily form to another The forms already exist The living entity simply transfers himself just as a man transfers himself from one apartment to another One apartment is first class another is second class and another is third class Suppose a person comes from a lower class apartment to a first class apartment the person is the same but now according to his capacity for payment or karma he is able to occupy a higher class apartment Real evolution does not mean physical development but the development of Consciousness Do you follow The apartment already exists however it is not the lower class apartment that becomes the higher class apartment That is Darwin's nonsensical theory He would say that the apartment has become high class Modern scientists think that life has come from matter They say that millions and millions of years ago there was simply matter but no life We do not accept that Of the two energies life and matter life or spirit is the original superior energy and matter is the resultant inferior energy Spirit is independent and matter is dependent Dr Singh All that you have been saying completely contradicts Darwin's theory of evolution Srila Prabhupada Darwin and his followers are rascals If originally there were no higher species why do they exist now Also why do the lower species still exist For example at the present moment we see both the intellectual person and the foolish ass Why do both these entities exist simultaneously Why hasn't the ass form evolved upwards and disappeared Why do we never see a monkey giving birth to a human In Bhagavad Gita the word yantra or machine means that in any species of life we are traveling in bodies that are like machines provided by material nature
