

Understanding Centuries

When you were born, you were **0 years old** the entire time you were in your **1st year of life**; when you were **1 year old**, you were in your **2nd year of life**; and at the age of **17**, you will be in your **18th year of life**.

Did you notice how the **number** of your age is always different from your **year of life**? For example, when you're **7** you are in your **8th year of life**.

Dates in history are also figured this way, except instead of saying **1st year** or **10th year**, we talk about the **1st set of 100 years** (centuries), the **10th set of 100 years**, etc.

Take a look on the time line at the 1st set of 100 years following Christ's birth (AD 1). This range of years, from 1 to 100th is called the **1st century** because it is the **1st set of 100 years** after the birth of Christ.

A KEY TO REMEMBER!

If you're trying to remember dates, thinking in terms of centuries can really be confusing. So, whenever you hear a time period given as a century, **always translate the century into years in your head**. For example:

- When you see **14th century**, think **1300's**
- When you see **8th century**, think **700's**

The next set of 100 years, the dates in the 100's, is called the **2nd century**, and the 1700's is called the **18th century**. This is even true for the years before Christ (BC). For example, the 3rd century BC is the 200's.

Did you notice that the **years** are different from the **centuries**? For example, the year **1345** is in the **14th century**.

When you come across a century term in your reading, it's always a good idea to translate it into years in your head. For example, if you read the term **15th century**, think the **1400's**.

If you read a date or set of dates, but you'd like to describe them in terms of centuries, just drop the last two digits of the year and go up to the next number. For example, for the year **1453** you would think, "14 rounds up to 15, so it's the **15th century**."

* Our modern calendar was based on the traditional placement of Christ's birth at AD 1, although it is now believed Christ was actually born a few years prior to AD 1.

"Although technically a new century doesn't begin until the "01" year, people commonly consider that a new "century" begins at "00" instead of "01." Since this distinction isn't crucial to understanding centuries, for memorization's sake, it's often easier to remember that the 18th century is any date in the 1700's, the 2nd century is any date in the 100's, etc.

The 21st Century Media (r)evolution Jim Macnamara, 2010 The emergence of new media and social media is widely discussed in contemporary society However media and public communication are mostly analyzed within particular theoretical frameworks and within specific disciplinary fields Such approaches have created polarized views on media and communication and fail to create an understanding of the interdependencies between these fields This book expertly synthesizes competing theories and disciplinary viewpoints integrates scholarly and cutting edge research and examines international data from fast growing markets including China to provide a comprehensive holistic view of the twenty first century r evolution in media and public communication The book identifies how the changes are located in practices rather than technologies and that these practices are emergent in highly significant ways Engaging and accessible the book is essential reading for media scholars and communication professionals and a valuable text for courses in media studies journalism advertising public relations and organisational and political communication

Fairy Tales, Fables & Yarns For All Ages Robert Lee, Fairy tales are escapes into wondrous worlds It is only our inflexible adult reasoning that tells us that they are just for children Fables too are disdainfully disregarded by grown ups in spite of the valuable life lessons that they often provide It is only yarns and tall tales that are permitted to dwell in the structured world of the adult I have compiled this collection of silly inconsequential stories and poems to satisfy the child in any of us that has been handicapped by active imagination and has been unable to fully embrace the responsible pedantic adult world A few of these little stories were written for my children as they journeyed from childhood to adolescence to adulthood I hope that the tales have allowed them to avoid becoming staid grownups A few of these yarns were written for staid adults I am glad to say that they for a few moments anyway were able to become irresponsible children again A couple specifically the romantic poems were written for my wife who I hope will not be terribly upset that I have shared private thoughts with the world Many were written just for me No reason other than that I like being a perpetual child For those of you who dare to explore wondrous worlds even if you do so in the secrecy of your own hidden sanctums I welcome you to my haven Please enjoy and thank you
