we all have opinions on what zoos do few people consider how they do it Irus Braverman draws on more than seventy interviews conducted with zoo managers and administrators as well as animal activists to offer a glimpse into the otherwise unknown complexities of zooland Zooland begins and ends with the story of Timmy the oldest male gorilla in North America to illustrate the dramatic transformations of zoos since the 1970s Over these decades modern zoos have transformed themselves from places created largely for entertainment to globally connected institutions that emphasize care through conservation and education Zoos naturalize their spaces classify their animals and produce spectacular experiences for their human visitors Zoos name register track and allocate their animals in global databases Zoos both abide by and create laws and industry standards that govern their captive animals Finally zoos intensely govern the reproduction of captive animals carefully calculating the life and death of these animals deciding which of them will be sustained and which will expire Zooland takes readers behind the exhibits into the world of zoo animals and their caretakers And in so doing it turns its gaze back on us to make surprising interconnections between our understandings of the human and the nonhuman

Entangled Encounters at the National Zoo Daniel Vandersommers, 2023-09-29 Founded amid the urban commotion of Washington DC before the dawn of the twentieth century the National Zoological Park opened to preserve teach and conduct research about the animal world Entangled Encounters at the National Zoo is a study of this important cultural landmark from 1887 to 1920 Centered on the animals themselves each chapter looks from a different angle at the influential science of popular zoology in order to shed new light on the complex entangled relationships between humans and animals Daniel Vandersommers s goal is twofold First through narrative he shows how zoo animals always ran away from the zoo This is meant literally animals escaped frequently but even more so figuratively Living breathing historical zoo animals ran away from their cultural constructions and these constructions ran away from the living bodies they were made to represent The author shows that the resulting gaps produced by runaway animals contain concealed distorted and erased histories worthy of uncovering Second Entangled Encounters at the National Zoo demonstrates how the popular zoology fostered by the National Zoo shaped every aspect of American science culture and conservation during the Gilded Age and Progressive Era Between the 1880s and World War I as intellectuals debated Darwinism and scientists institutionalized the laboratory zoological parks suddenly appeared at the heart of nearly every major American city captivating tens of millions of visitors Vandersommers follows stories previously hidden within the National Zoo in order to help us reconsider the place of zoos and their inhabitants in the twenty first century

Zoo Studies Tracy McDonald,Daniel Vandersommers,2019-06-19 Do both the zoo and the mental hospital induce psychosis as humans are treated as animals and animals are treated as humans How have we looked at animals in the past and how do we look at them today How have zoos presented themselves and their purpose over time In response to the emergence of environmental and animal studies anthropologists sociologists philosophers theorists literature scholars and historians around the world have begun to explore the significance of zoological parks past and present Zoo Studies considers the modern zoo from a range of approaches and disciplines united in a desire to blur the boundaries between human and nonhuman animals The volume begins with an account of the first modern mental hospital La Salpêtrière established in 1656 and the first panoptical zoo the menagerie at Versailles created in 1662 by the same royal architect the final chapter presents a choreographic performance that imagines the Toronto Zoo as a place where the human body can be inspired by animal bodies From beginning to end through interdisciplinary collaboration this volume decentres the human subject and offers alternative ways of thinking about zoos and their inhabitants This collection immerses readers in the lives of animals and their experiences of captivity and asks us to reflect on our own assumptions about both humans and animals An original and groundbreaking work Zoo Studies will change the way readers see nonhuman animals and themselves

Zoo Talk Patricia G. Patrick,Sue Dale Tunnicliffe,2012-09-28 Founded on the premise that zoos are bilingual that the zoo in the shape of its staff and exhibits and its visitors speak distinct languages this enlightening analysis of the informal learning that occurs in zoos examines the speech of exhibits and staff as well as the discourse of visitors beginning in the earliest years Using real life conversations among visitors as a basis for discussion the authors interrogate children's responses to the exhibits and by doing so develop an informal learning model and a zoo knowledge model that prompts suggestions for activities that classroom educators can use before during and after a zoo visit Their analysis of the visitor voice informs creative suggestions for how to enhance the educational experiences of young patrons By assessing visitors' entry knowledge and their interpretations of the exhibits the authors establish a baseline for zoos that helps them to refine

their communication with visitors for example in expanding knowledge of issues concerning biodiversity and biological conservation The book includes practical advice for zoo and classroom educators about positive ways to prepare for zoo visits engaging activities during visits and follow up work that maximizes the pedagogical benefits It also reflects on the interplay between the developing role of zoos as facilitators of learning and the ways in which zoos help visitors assimilate the knowledge on offer In addition to being essential reading for educators in zoos and in the classroom this volume is full of insights with much broader contextual relevance for getting the most out of museum visits and field trips in general

Metamorphoses of the Zoo Ralph R. Acampora, 2010-06-14 *Metamorphoses of the Zoo* Animal Encounter After Noah is a volume dedicated to radically transformative approaches to spaces set aside as zoological parks or gardens Historically these establishments served as symbols of power and venues for entertainment but today they have taken to portraying themselves as flagships of environmental education scientific research and wildlife conservation Along with the past century's turn in exhibition design toward increasingly naturalistic architecture such portrayals have been received by many in an uncritically positive light At the same time it remains clear that zoos are immensely popular attractions drawing hundreds of millions of visitors globally per year This level of participation is consistent with the suggestion that humans harbor a strong sense of biophilia one which moves them to seek out diverse life forms when their own territories become too biologically homogenous from such a vantage it is no accident that zoos are most often situated in urbanizing areas *Metamorphoses of the Zoo* emphasizes creative and reconstructive analyses of zoos that do not simply advocate marginal reform or quick abolition By focusing on issues such as interspecies progress and eco psychological health this unique collection will satisfy those in disciplines ranging from ecophilosophy to humanistic psychology to environmental studies
