**Lights of Dragomar** Marc Krautwedel, 2022-08-17 We have to be prepared for everything even for someone who destroys everything so that no one has it not even him They stood side by side again in silence on the terrace high up on the mountain watching the play of colours in the night sky They heard the wind and the occasional cracking of ice floes piled on top of each other in the ocean in front of them The waves that thundered recurrently against the rocks were a low murmur up on the mountain accompanied by the fresh smell of the sea Will we win asked Galbohei without taking his eyes off the sky glow We have the advantage replied Eremides We know the value of freedom and we don't want to lose it We know friendship and will not give it up We know love and want to be able to continue to love Antarctica circa 1540 Two aging swashbucklers confer on how to defend or stand their ground against a hostile force they know Things look tight They live on an island in a mountain rich in tradition and myths It is called The Mountain of Hope Actually it is Dragomar supposedly the ancient home of dragons and their successful cultural successors A slightly pubescent youth is bored far away from Dragomar Everything is trivial transparent and repeats itself in a daily rhythm He would like to travel the ocean but he is not allowed to yet He dreams of adventures and battles that seem so real to him as if he were having a déjà vu with a claim to historical truth Fire seems to come out of his nose and he changes in other ways as well He is drawn toward a distant island where there is a mountain with a crystal shining brightly and mysteriously at the top He is told that he is a foster child and that his grandfather his last relative lives on the distant island The budding hero sets out meets various people develops physical and mental abilities is kidnapped There is a sea battle for him because he is supposed to be something like an heir to the throne He learns about history past forms of government and more about ancient myths So much for the plot That Italian emperor penguins completely deface and shred the Band of Brothers speech of Henry V that a black dragon can spit black holes and is about to merge into the matrix that really fascistic meanies are afraid of the crowd of penguins and are prone to vulgarity that the topic of separation of powers is a real problem all this fills the pages in such a way that it is irrelevant whether there is a human animal or dragon giving something to the best A little excursion into humanity A little unexplained philosophy a little unexplained physics a little unexplainable behaviour Myths legends magic and everyday life

Monaghan,2010-12-01 This collection of accessible essays relates the stories of individual goddesses from around the world exploring their roles in the cultures from which they came their histories and status today and the controversies surrounding them Goddesses in World Culture brings readers the fascinating stories of close to 100 of the world s goddesses ranging from the immediately recognizable to the obscure These figures many of whom derive from ancient cultures and civilizations serve as points of departure for examining questions that go well beyond the role of women in religion and spirituality to include social organization environmental awareness historical developments and psychological archetypes Each volume of this groundbreaking set is composed of 20-25 previously unpublished articles written by expert contributors from diverse disciplines Volume one covers Asia and Africa volume two covers the Eastern Mediterranean and Europe and volume three covers Australia and the Americas Goddesses from cultures often overlooked in texts on religion such as those of the Australian Aborigines Korea Nepal and the Caribbean are included here In addition the work offers new translations of ancient texts introduces little known folklore and suggests new approaches to contemporary religious practices      The Contested Floodplain Tobias Haller,2013 The Contested Floodplain tells the story of institutional changes in the management of common pool resources pasture wildlife and fisheries among Ila and Balundwe agro pastoralists and Batwa fishermen in the Kafue Flats in southern Zambia It explains how and why a once rich floodplain area managed under local common property regimes becomes a poor man s place and a degraded resource area Based on social anthropological field research the book explains how well working institutions in the past regulating communal access to resources have turned into state property and open access or privatization As a basis for analysis the author uses Elinor Ostrom s design principles for well working institutions and the approach of the New Institutionalism by Jean Ensminger The latter approach focuses on external factors and change in relative prices It explains how local actors face changing bargaining power and use different ideologies to legitimize and shape resource use regulations The study focuses on the historic developments taking place since pre colonial and colonial times up to today Haller shows how the commons had been well regulated by local institutions in the past often embedded in religious belief systems He then explains the transformation from common property to state property since colonial times When the state is unable to provide well functioning institutions due to a lack in financial income it contributes to de facto open access and degradation of the commons The Zambian copper based economy has faced crisis since 1975 and many Zambians have to look for economic alternatives and find ways to profit from the lack of state control a paradox of the present absent state And while the state is absent external actors use the ideology of citizenship to justify free use of resources during conflicts with local people Also within Zambian communities floodplain resources are highly

contested which is illustrated through conflicts over a proposed irrigation scheme in the area The different actors and interest groups use ideologies such as citizenship vs being indigenous ethnic identity vs class conflict and modernity vs traditional way of life to legitimize land claims **Kaleidoscope Skills, Book One** ,2004 *E.
