Australia's Children's Courts Today and Tomorrow

Rosemary Sheehan, Allan Borowski, 2013-04-05 The Children's Court is one of society's most important social institutions At the same time it is steeped in controversy This is in large measure due to the persistence and complexity of the problems with which it deals namely juvenile crime and child abuse and neglect Despite the importance of the Children's Court as a means of holding young people accountable for their anti social behaviour and parents for the care of their children it has not been the subject of close study Certainly it has not been previously studied nationally This book an edited collection is based on the findings of study that spanned the six States and two Territories of Australia The study sought to examine the current challenges faced by the Children's Court and to identify desirable and feasible directions for reform in each State and Territory A further unique feature of this study is that it canvassed the views of judges and magistrates who preside over this court

Decision-Making and Judgment in Child Welfare and Protection John D. Fluke, Mónica López López, Rami Benbenishty, Erik J. Knorth, Donald J. Baumann, 2020-07-17 Professionals in child welfare and protection are often required to make decisions fraught with many difficulties and shortcomings that have crucial implications for children and families There are many indications that these decisions are frequently unreliable and involve unavoidable errors in judgement due to the uncertainties Despite the central role of judgements in the field child welfare and protection training and research programs pay limited attention to leveraging the human factors aspect of practice Although extensive research exists in relevant areas such as medicine psychology business administration and economics little has been done to help develop transfer and translate scientific knowledge to the child welfare arena Decision Making and Judgment in Child Welfare and Protection pulls together the best internationally sourced expertise and makes it accessibly available and applicable to scholars educators practitioners students and policymakers the key stakeholders in child protective services and child welfare

Child Abuse and Family Law Thea Brown, 2020-07-28 I have no doubt that this book will become an invaluable tool for family and children's court judges and magistrates, psychiatrists, psychologists, social workers, police, and the many other professionals who work in this field. The Honourable Alastair Nicholson, former Chief Justice of the Family Court of Australia, a ground-breaking, comprehensive, honest, well-researched, and courageous book that should be essential reading for all politicians and professionals involved in both the Family Court of Australia and state child protection systems. Emeritus Professor Freda Briggs AO. Child abuse in the context of parental separation and divorce is not a malicious allegation nor a misunderstanding. It is a real and growing problem with very young children as the primary victims. *Child Abuse and Family Law* draws on pioneering research to identify the causes, features, and impact of child abuse in parental separation and divorce. The authors argue that professionals working with these families need to better understand the specific and often severe nature of this abuse to improve outcomes for both the children and their families. The authors develop a much-needed practice framework for all socio-legal professionals involved in the family law system. Using case studies, they take a multi-disciplinary approach to outline strategies for family lawyers, child legal representatives, social workers, child protection workers, psychologists, psychiatrists, health workers, and teachers.

Beliefs and Expectancies in Legal Decision Making Bradley D. McAuliff, Brian H. Bornstein, 2016-02-26 Beliefs and expectancies influence our everyday thoughts, feelings, and actions. These attributes make a closer examination of beliefs and expectancies worthwhile in any context but particularly so within the high-stakes arena of the legal system. Whether the decision maker is a police officer assessing the truthfulness of an alibi, a juror evaluating the accuracy of an eyewitness identification, an attorney arguing a case involving a juvenile offender, or a judge deciding whether to terminate parental rights, these decisions matter and without doubt are influenced by beliefs and expectancies. This volume is comprised of research on beliefs and expectancies regarding alibis, children's behaviour while testifying, eyewitness testimony, confessions, sexual assault victims, judges' decisions in child protection cases, and attorneys' beliefs about jurors' perceptions of juvenile offender culpability. Areas for future research are identified, and readers are encouraged to discover new ways that beliefs and expectancies operate in the legal system. This book was originally published as a special issue of *Psychology of Crime and Law*.

Guidelines for Public Policy and State Legislation Governing Permanence for Children Donald N. Duquette,1999

Children, Autonomy and the Courts Aoife Daly,2017-12-18 In this book Aoife Daly argues that where courts decide children s best interests for example about parental contact the UN Convention on the Rights of the Child s right to be heard is insufficient and autonomy should instead be the focus Global law and practice indicate that children are regularly denied due process rights in their own best interest proceedings and find their wishes easily overridden It is argued that a children s autonomy principle respecting children s wishes unless significant harm would likely result would ensure greater support for children in proceedings and greater obligations on adults to engage in transparent decision making This book is a call for a reconceptualisation of the status of children in a key area of children s rights
