

The scanning electron microscope (SEM) enables us to see the often invisible world in which we live. In this unique book, you will see dimensional images and hand-colored photographs of everyday items such as string and table salt, plants, insects and other animals, and various parts of the body—all magnified dozens to thousands of times.

You will be astounded by the beauty and beautiful details of these electron microscope photos, called micrographs. Lift the flaps and you will discover intriguing structures. At the end of the book, you will have a chance to guess what objects or animals the micrographs are the flaps show.

**MAGNIFICATION** reveals a surprising, hidden world for all ages to explore.

Micrograph of a complex, branching structure.

Micrograph of a textured, circular structure.

Micrograph of a green, segmented structure.

**How to Use This Book:**  
This book is designed to be used in a variety of ways. It can be used as a reference book, a classroom resource, or a fun activity for children. The book is divided into sections, each containing a micrograph and a description of the object. The descriptions are written in a way that is easy to read and understand. The book is also designed to be used as a pop-up lift-the-flap book. The flaps are designed to be lifted, revealing the micrograph underneath. This is a fun way to learn about the microscopic world.
