The first book to address the vast diversity of Northern circumpolar cinemas from a transnational perspective. *Films on Ice: Cinemas of the Arctic* presents the region as one of great and previously overlooked cinematic diversity. With chapters on polar explorer films, silent cinema, documentaries, ethnographic and indigenous film, gender and ecology as well as Hollywood and the USSR's uses and abuses of the Arctic, this book provides a groundbreaking account of Arctic cinemas from 1898 to the present. Challenging dominant notions of the region in popular and political culture, it demonstrates how moving images, cinema, television, video and digital media have been central to the very definition of the Arctic since the end of the nineteenth century. Bringing together an international array of European, Russian, Nordic and North American scholars, *Films on Ice* radically alters stereotypical views of the Arctic region and therefore of film history itself. **The Complete Idiot's Guide to Independent Filmmaking** Josef Steiff, 2005-08-02 You ought to be making pictures. Designed for people who want to tell a story their way, *The Complete Idiot's Guide to Independent Filmmaking* explains everything a budding auteur needs to know, from literary development and financial and organizational preproduction to principal photography, production, postproduction, assembly, exhibition and distribution and more. The advent of desktop editing and a wide range of consumer cameras enable the average person to create a film studio at home. A great textbook for novice filmmakers, whether film students or on their own auteurs. The proliferation of film festivals around the world, many of which encourage submissions from amateur filmmakers, shows there are countless filmmakers who aren't learning the ropes in school. Author has terrific credentials and has a feature length script in development in Hollywood.
