Making Chaplaincy Work Practical Approaches:

Making Chaplaincy Work Laurel A Burton, 2014-07-10 With compassion and commitment practicing chaplains draw on a wide range of professional experiences and discuss principles themes and guidelines that have enhanced their ministries These practical and successful approaches are aimed at helping others face the daily professional challenges of health care chaplaincy The issues and responsibilities of chaplaincy work with a variety of patient populations AIDS sufferers long term care patients stroke victims and the terminally ill are thoroughly explored Contributors provide creative and innovative methods of meeting the needs of hospital patients and their families as well as health care personnel such as implementing a volunteer clergy program and establishing a surgical reporting plan **Leadership Paradigms in Chaplaincy** Joel

Graves, 2007 This dissertation argues that business people clergy lay persons and many chaplains do not understand the leadership and management dynamics of chaplaincy and this lack of knowledge has a direct impact on how chaplaincy is done and not done in certain areas In chaplaincy and many churches leadership management and ministry have a synergistic effect when they come together in response to a problem or crisis An understanding of chaplaincy dynamics scope methods possibilities and issues in relation to this effect is vital to this growing field in four areas Helps prepare people for ministry as chaplains whether clergy or lay benefits those already in chaplaincy ministry helps clergy reexamine their ministry to determine if they are where God wants them serves to teach everyone including upper level management and senior church leaders of the roles actual or potential that chaplains can fill in response to the growing needs of people *Professional*

Chaplaincy and Clinical Pastoral Education Should Become More Scientific Larry Van De Creek, 2013-04-03 Does the scientific process belong in pastoral counseling Professional Chaplaincy and Clinical Pastoral Education Should Become More Scientific Yes and No examines the widespread ambivalence among pastoral caregivers and educators over the growing inclusion of science in pastoral care and counseling methodologies Twenty three seasoned professionals in the field give candid and sometimes emotional accounts of their interest in and reservations about the role scientific research plays in their profession Some authors look at the issue from a historical perspective others voice additional concerns A few make concrete proposals on how chaplaincy can become more scientific The result is a unique insight into the relationship between the secular and the religious The question of whether science belongs in pastoral care and counseling is moot pastoral care already makes extensive use of psychological testing and psychotherapeutic skills all products of scientific thinking But as technology becomes more dominant and health care delivery reflects a more corporate perspective pastoral caregivers and educators are divided on whether the changes represent the significant opportunity to improve a ministry or the surrender of the ministry's very essence The essays collected in Professional Chaplaincy and Clinical Pastoral Education Should Become More Scientific Yes and No go a step farther breaking down the issue of faith versus science into more specific questions for pastoral caregivers such as Can what you do be measured Do you have an obligation to embrace the challenge of change Is

becoming more scientific a necessity for staying in touch with your health care peers How cost effective is the pastoral care you provide if it doesn't include the scientific process Could a reluctance to incorporate science into your counseling cost you your job Professional Chaplaincy and Clinical Pastoral Education Should Become More Scientific Yes and No presents thoughtful and thought provoking debate that is a must read for all pastoral caregivers and educators *Ministry in the Spiritual and Cultural Diversity of Health Care* Robert Anderson, 2013-01-11 Stay up to date in health care ministry as cultural and spiritual heterogeneity increases *Ministry in the Spiritual and Cultural Diversity in Health Care* Increasing the Competency of Chaplains identifies concrete methods for improving the provision of pastoral care to culturally and religiously diverse patients and or residents Experts from both inside and outside the profession with established records in cross cultural work and experience with religious diversity discuss in detail the multicultural revolution that has challenged the traditional health care delivery system With this timely resource you will be able to respond to the requests and desires of patients and their loved ones with compassion and consideration for their cultural and spiritual backgrounds *Ministry in the Spiritual and Cultural Diversity in Health Care* explores the challenges for the spiritual care professional in health care to address the emotional cultural and spiritual needs of a patient without assumption bias or discomfort for either person In addition to advice recommendations and real world examples and case studies this valuable resource provides a guide for chaplaincy supervisors to use when training chaplain students to impart such unprejudiced care The book is devoted to establishing chaplains who are clinically trained and certified to contribute to the increasingly pluralistic and global health care context with assorted religious spiritual and cultural values beliefs and practices *Ministry in the Spiritual and Cultural Diversity in Health Care* will keep you updated on how a health care chaplain can overlook the differing worldview of a patient and his or her family how cultural diversity impacts the work of the health care chaplain specific strategies and tools that will assist chaplains in acquiring spiritual and cultural competency definitions obstacles and standards of care for fostering a genuine multicultural perspective among health care givers particularly chaplains how professional health care chaplains take leadership in responding to cultural and spiritual diversity within health care environments *Spiritual Care for Persons with Dementia* Larry Van De Creek, 2015-12-22 *Spiritual Care for Persons with Dementia* explores spirituality in those with dementia to enrich our understanding of the neurological and psychological aspects of hope prayer and the power of belief You will discover how your ministry is vitally relevant to the clinical well being and quality of life of people with Alzheimer's disease *Spiritual Care for Persons with Dementia* provides you with a model spiritual care program for long term facilities that supplies you with ideas you can implement in your own ministry You will learn to avoid cognitive pastoral care method that can be hurtful to those suffering with dementia by using new approaches found in *Spiritual Care for Persons with Dementia* This book provides you with suggestions about how to spiritually care for people with dementia These important recommendations include understanding the value of pastoral contact when ministering to people with a loss of
