My Freshman Year What A Professor Learned By Becoming A Student:

My Freshman Year Rebekah Nathan, 2005 After more than fifteen years of teaching Rebekah Nathan a professor of anthropology at a large state university realized that she no longer understood the behavior and attitudes of her students Fewer and fewer participated in class discussion tackled the assigned reading or came to discuss problems during office hours And she realized from conversations with her colleagues that they too were perplexed Why were students today so different and so hard to teach Were they in fact more likely to cheat ruder and less motivated Did they care at all about their education besides their grades Nathan decided to put her wealth of experience in overseas ethnographic fieldwork to use closer to home and apply to her own university Accepted on the strength of her high school transcript she took a sabbatical and enrolled as a freshman for the academic year She immersed herself in student life moving into the dorms and taking on a full course load She ate in the student cafeteria joined student clubs and played regular pick up games of volleyball and tag football sports at which the athletic fifty something year old could hold her own Nathan had resolved that if asked she would not lie about her identity she found that her classmates if they were curious about why she was attending college at her age never questioned her about her personal life Based on her interviews and conversations with fellow classmates her interactions with professors and with other university employees and offices and her careful day to day observations My Freshman Year provides a compelling account of college life that should be read by students parents professors university administrators and anyone else concerned about the state of higher education in America today Placing her own experiences and those of her classmates into a broader context drawn from national surveys of college life Nathan finds that today s students face new challenges to which academic institutions have not adapted At the end of her freshman year she has an affection and respect for students as a whole that she had previously reserved only for certain individuals Being a student she discovers is hard work But she also identifies fundamental misperceptions misunderstandings and mistakes on both sides of the educational divide that negatively affect the college experience By focusing on the actual experiences of students My Freshman Year offers a refreshing alternative to the frequently divisive debates surrounding the political economic and cultural significance of higher education as well as a novel perspective from which to look at the achievements and difficulties confronting America s colleges and universities in the twenty first century

My Freshman Year: What a Professor Learned by Becoming a Student Rebekah Nathan, **My Freshman Year**, 2005 **As Professors Lay Dying**

Jacques Berlinerblau, 2025-09-30 As professors in the United States are being paid less and less to teach more and more undergraduates prospective students need all the information they can get about receiving their tuition dollars worth About to choose a college About to make an investment that might exceed a quarter million dollars Worried about ideological indoctrination on university campuses Then you need to know a lot about professors There has been perhaps no worse time to be a scholar in the United States than now The misery experienced by the professoriate has immediate and dramatic

effects on the education that undergraduates receive As *Professors Lay Dying* seeks to help you answer the following questions 1 How important are professors to my college education 2 How seriously do they take the responsibility of teaching undergraduates 3 What kind of professors are actually in the classroom working with American coeds 4 Is ideological indoctrination a real danger to the nation's matriculated youth 5 What kind of schools should a discerning college shopper look for 6 Ultimately why are professors so essential to the delivery of a first class education Colleges don't advertise the state of their faculty but it might be the most important factor in your decision This book pulls back the curtain on the profession that shapes the minds of the next generation

The Structure of Schooling Richard Arum, Irene R. Beattie, Karly Ford, 2014-11-13 The Structure of Schooling Readings in the Sociology of Education by Richard Arum Irene Beattie and Karly Ford exposes students to examples of sociological research on schools with a focus on the school as community Now in its Third Edition this engaging reader has broadened its scope even more presenting additional readings in particular related to the sociology of higher education The book draws from classic and contemporary scholarship to examine current issues and diverse theoretical approaches to studying the effects of schooling on individuals and society In addition to covering traditional areas such as stratification and racial inequality the book also veers off the beaten path including readings on such contemporary topics as bullying school shootings school choice and teen social media use

Reclaiming the Public University Judith Summerfield, Crystal Benedicks, 2007 To reclaim the public university is to focus our energies on teaching all our students well educating them for a new increasingly complicated age To deliver on this promise we must interrogate the general education we provide for our students for that is the vast unrecognized ground we stand on It is what students and faculty do most in common If we can get educating our students right generally and liberally then we will have laid a claim to what the public university needs to be

American Higher Education in the Twenty-First Century Philip G. Altbach, Patricia J. Gumpert, Robert O. Berdahl, 2011-04-12 First published in 1998 American Higher Education in the Twenty First Century offers a comprehensive entree to the central issues facing American colleges and universities today This thoroughly revised edition brings the volume up to date on key topics of enduring interest Placing higher education within its social and political contexts leading scholars discuss finance federal and state governance faculty students curriculum and academic leadership Contributors also address major changes in higher education especially the influence and incorporation of the latest technologies and growing concern about the future of the academy in a post Iraq War setting No other book covers such wide ranging issues under the broader theme of higher education's relationship to society Highly acclaimed and incorporating cutting edge research American Higher Education in the Twenty First Century remains the standard reference in the field Contributors Philip G Altbach Benjamin Baez Michael N Bastedo Robert O Berdahl Marjorie A E Cook Melanie E Corrigan Judith S Eaton Peter D Eckel Gustavo Fischman Roger L Geiger Lawrence E Gladieux Sara Goldrick Rab Patricia J Gumpert Fred F Harclerod D Bruce Johnstone Adrianna Kezar Jacqueline E King Aims C McGuinness Jr Amy Scott Metcalfe

Michael Mumper Michael A Olivas Robert M O Neil Gary Rhoades Frank A Schmidtlein Sheila Slaughter Daryl G Smith John Willinsky Higher Education Policy *College Belonging* Lisa M. Nunn, 2021-02-12 College Belonging reveals how colleges and universities efforts to foster a sense of belonging in their students are misguided Colleges bombard new students with the message to get out there and find your place by joining student organizations sports teams clubs and the like Nunn shows that this reflects a flawed understanding of what belonging is and how it works Drawing on the sociological theories of Emile Durkheim College Belonging shows that belonging is something that members of a community offer to each other It is something that must be given like a gift Individuals cannot simply walk up to a group or community and demand belonging That s not how it works The group must extend a sense of belonging to each and every member It happens by making a person feel welcome to feel that their presence matters to the group that they would be missed if they were gone This critical insight helps us understand why colleges push for students simply to get out there does not always work **The American Academic Profession** Joseph C. Hermanowicz, 2011-06-30 The academic profession like many others is rapidly being transformed This book explores the current challenges to the profession and their broad implications for American higher education Examining what professors do and how academia is changing contributors to this volume assess current and potential threats to the profession Leading scholars in sociology and higher education explore such topics as structural and cognitive change socialization and deviance career development and professional autonomy and regulation A comprehensive analysis of the significant questions facing this crucial profession The American Academic Profession will be welcomed by students and scholars as well as by administrators and policy makers concerned with the future of the academy **In Search of Self: Exploring Student Identity Development** Chad Hanson, 2014-06-17 Students become new and different people through the course of their education When students earn the right to say I am a college graduate that new status becomes a part of who they are The authors in this volume scholars from a range of fields offer methods that staff and faculty can use to explore the process through which students develop new personal civic and professional identities The research and ideas in this volume can assist in designing approaches to encourage student growth and to help us understand what it means to attend and become a graduate of a college or university This is the 166th volume of the Jossey Bass quarterly report series New Directions for Higher Education Addressed to presidents vice presidents deans and other higher education decision makers on all kinds of campuses it provides timely information and authoritative advice about major issues and administrative problems confronting every institution
