My Gift In Return:

Negative Certainties Jean-Luc Marion, 2020-10-28 Now in paperback Jean Luc Marion's groundbreaking philosophy of human uncertainty In *Negative Certainties* renowned philosopher Jean Luc Marion challenges some of the most fundamental assumptions we have developed about knowledge that it is categorical predicative and positive Following Descartes Kant and Heidegger he looks toward our finitude and the limits of our reason He asks an astonishingly simple but profoundly provocative question in order to open up an entirely new way of thinking about knowledge Isn't our uncertainty our finitude and rational limitations one of the few things we can be certain about Marion shows how the assumption of knowledge as positive demands a reductive epistemology that disregards immeasurable or disorderly phenomena He shows that we have experiences every day that have no identifiable causes or predictable reasons and that these constitute a very real knowledge a knowledge of the limits of what can be known Establishing this negative certainty Marion applies it to four aporias or issues of certain uncertainty the definition of man the nature of God the unconditionality of the gift and the unpredictability of events Translated for the first time into English *Negative Certainties* is an invigorating work of epistemological inquiry that will take a central place in Marion's oeuvre

Talking God Gary Gutting, 2016-11-22 Through interviews with twelve distinguished philosophers including atheists agnostics and believers *Talking God* works toward a philosophical understanding and evaluation of religion Along the way Gary Gutting and his interviewees challenge many common assumptions about religious beliefs As tensions simmer and often explode between the secular and the religious forces in modern life the big questions about human belief press ever more urgently Where does belief or its lack originate How can we understand and appreciate religious traditions different from our own Featuring conversations with twelve skeptics atheists agnostics and believers including Alvin Plantinga Philip Kitcher Michael Ruse and John Caputo *Talking God* offers new perspectives on religion including the challenge to believers from evolution cutting edge physics and cosmology arguments both for and against atheism and meditations on the value of secular humanism and faith in the modern world Experts offer insights on Islam Buddhism and Hinduism as well as Judaism and Christianity Topical and illuminating *Talking God* gives readers a deeper understanding of faith today and how philosophers understand it From *Talking God* Some say Buddhism is not a religion because Buddhists don't believe in a supreme being This simply ignores the fact that many religions are not theistic in this sense Chess is a game despite the fact that it is not played with a ball after all Jay Garfield from chapter 10 Buddhism Religion Without Divinity Why think that the creator was all knowing and omnipotent Maybe the creator was a student god and only got a B minus on this project Louise Antony from chapter 2 A Case for Atheism There are a large number maybe a couple of dozen of pretty good theistic arguments None is conclusive but each or at any rate the whole bunch taken together is about as strong as philosophical arguments ordinarily get Alvin Plantinga from chapter 1 A Case for Theism If you cease to believe in a particular religious creed like Calvinism or Catholicism you have

changed your mind and adopted a new position But if you lose faith everything is lost You have lost your faith in life lost hope in the future lost heart and you cannot go on John Caputo from chapter 3 Religion and Deconstruction Returning the Gift Rebecca Colesworthy,2018-11-10 From debates about reparations to the rise of the welfare state the decades following World War I saw a widespread turn across disciplines to questions about the nature and role of gifts What is a gift What do gifts mean and do Which individuals and institutions have the authority to give Marshalling wide ranging interdisciplinary research Returning the Gift argues that these questions centrally shaped literary modernism The book begins by revisiting the locus classicus of twentieth century gift theory the French sociologist Marcel Mauss s 1925 essay *The Gift The Form and Reason for Exchange in Archaic Societies* His title notwithstanding the gift Mauss envisions is not primitive or pre capitalist but rather a distinctively modern phenomenon Subsequent chapters offer sustained nuanced readings of novels and nonfiction by Virginia Woolf Jean Rhys Gertrude Stein and H D from the 1920s to 1940s underscoring the ways their writing is illuminated by contemporaneous developments in the social sciences economics and politics while also making a case for their unique contributions to broader debates about gifts Not only do these writers insist that literature is a special kind of gift but they also pose challenges to the gift s feminization in the work of both their Victorian forebears and contemporary male theorists Each of these writers uses tropes and narratives of giving of hospitality sympathy reciprocity charity genius and kinship to imagine more egalitarian social possibilities under the conditions of the capitalist present The language of the gift is not as we might expect a mark of hostility to the market so much as a means of giving form to the society in market society of representing everyday experiences of exchange that the myth of the free market works even now to render unthinkable **The Gift and its Paradoxes** Dr Olli Pyyhtinen,2014-02-14 Bringing social theory and philosophy to bear on popular movies novels myths and fairy tales *The Gift and its Paradoxes* explores the ambiguity of the gift it is at once both a relation and a thing alienable and inalienable present and poison Challenging the nature of giving as reciprocal the book engages critically with the work of Mauss and develops a new theory of the gift according to which the gift cannot be reduced to a model of exchange but must instead entail a loss or sacrifice Ultimately the gift is examined in the book as the impossible occurrence of gratuitous giving **Taxpayers Ask IRS.** United States. Philosophy of Communication Briankle G. Chang,Garnet C. Butchart,2012-08-10 Classical modern and contemporary philosophical writings that address the fundamental concepts of communication To philosophize is to communicate philosophically From its inception philosophy has communicated forcefully Socrates Plato and Aristotle talk a lot and talk ardently Because philosophy and communication have belonged together from the beginning and because philosophy comes into its own and solidifies its stance through communication it is logical that we subject communication to philosophical investigation This collection of key works of classical modern and contemporary philosophers brings communication back into philosophy s orbit It is the first anthology to gather in a single volume foundational works that address the core

questions concepts and problems of communication in philosophical terms The editors have chosen thirty two selections from the work of Plato Leibniz Hegel Husserl Heidegger Wittgenstein Benjamin Lacan Derrida Sloterdijk and others They have organized these texts thematically rather than historically in seven sections consciousness intersubjective understanding language writing and context difference and subjectivity gift and exchange and communicability and community Taken together these texts not only lay the foundation for establishing communication as a distinct philosophical topic but also provide an outline of what philosophy of communication might look like

Sacrifice and the Body John Dunnill, 2016-04-08

What is sacrifice For many people today the word has negative overtones suggesting loss or death or violence But in religions ancient and modern the word is linked primarily to joyous feasting which puts people in touch with the deepest realities How has that change of meaning come about What effect does it have on the way we think about Christianity How does it affect the way Christian believers think about themselves and God John Dunnill's study focuses on sacrifice as a physical event uniting worshippers to deity Bringing together insights from social anthropology biblical studies and Trinitarian theology Dunnill links to debates in sociology and cultural studies as well as the study of liturgy Through a positive view of sacrifice Dunnill contributes to contemporary Christian debates on atonement and salvation
