Extremists for Love J. T. Young, 2024-08-23 The histories of race and religion in America are inextricably intertwined From the antebellum South to the civil rights era and the modern BlackLivesMatter movement Christianity has played a key role It may be tempting to believe in light of the way far right politics has hijacked Christian language and ideas in recent decades that religion was used exclusively as an oppressive tool but the ways in which Christianity played a key role in active resistance to white supremacy from its earliest days cannot be overlooked *Extremists for Love* gives readers a critical overview of twenty central figures from the history of the black liberation struggle in the United States exposing the theological trappings of their work and what they mean for the church today Accessible in style and academic in quality this volume examines civil rights activists scholars theologians pop culture icons and collectives who either implicitly or explicitly deployed Christian ideas in their work for black liberation

Reclaiming the Great World House Lewis V. Baldwin, Vicki L. Crawford, 2019 *Reclaiming the Great World House in the 21st Century* Cross Disciplinary Explorations of the Vision of Martin Luther King Jr does just that Established and emerging scholars explore Martin Luther King Jr s global vision and his lasting relevance to a globalized rights culture The editors further explain that this edited collection looks at King afresh in his own historical context while also refocusing his legacy of ideas and social praxis in broader directions for today and tomorrow Employing King s metaphor of the great world house with major attention to racism poverty and war or what he called the evil triumvirate the focus is on King s appraisal of and approach to the global human struggle in the 1950s and 60s and on the extent to which his social witness and praxis takes on new hues and pertinence not only in the ongoing struggles against racism poverty and economic injustice and violence and human destruction but also in the mounting efforts to eliminate problems such as sexism homophobia and religious bigotry and intolerance from the global landscape The conclusion is that King s ideas and models of social protest are not only alive but also growing in vitality and popularity in the 21st century especially as humans worldwide are struggling daily with the lingering antiquated thinking and behavior around race and ethnicity the widening gap between the haves and the have nots the mounting cycles of violence torture and terrorism and the frustrating and growing chasms resulting from religious pluralism and the subordination and marginalization of certain sectors of the human family based on gender and sexuality
