My Little Good Habits:

Crave Chris Tomlinson,2010-01-01 People yearn for many things but only Jesus Christ can satisfy the deepest cravings of the human heart Many individuals however have settled for a cultural Christianity and lost their vibrant day by day relationship with Him This collection of short real life stories from an exciting young author reveals that life with God can be a surprising challenging and richly satisfying journey Readers of Donald Miller and Anne Lamott will love these vignettes of people who talk to strangers about God and find out why sharing their faith can actually be enjoyable answer their calls and delight in godly obedience floss every day and discover the rewards of daily prayer Sometimes humorous occasionally tender and always thought provoking these slices of life connect with 20 and 30 somethings who crave a deeper level of intimacy with God

The Preventorium Susan Annah Currie,2022-08-11 Named the 2023 Best Memoir on Health Adverse Childhood Experiences by Memoir Magazine Opened on February 17 1929 the Mississippi State Preventorium operated continuously until 1976 The Mississippi Preventorium like similar hospitals throughout the country was an institution for sickly anemic and underweight children It was established on the grounds of the Mississippi State Tuberculosis Sanatorium in the early years of the twentieth century when tuberculosis was a dreaded disease worldwide The TB Sanatorium hospital housed those with tuberculosis offering refuge for patients of all ages afflicted with the pernicious and contagious disease Although located on the same medical campus the preventorium was a separate medical institution for children no children with TB were admitted in the sixty year run of the hospital The name preventorium meant a place of preventing disease as there was a fear of sickly children contracting TB The Mississippi Preventorium was one of the last if not the very last of these special hospitals for children Now closed the preventorium housed over three thousand children including author

Susan Annah Currie In this intimate memoir Currie details her fifteen month stay at the preventorium From her arrival in May 1959 at six years old Currie vividly explores the unique and isolating world that she and children across the country experienced Her exacting routine dictated by the nurses and doctors who now acted as her parents erased the distinction between patients and created both a sense of community among the children and a deep sense of loneliness From walking silently single file through the cold narrow halls of the hospital to nurses recording every detail of their bathroom habits to extremely limited visitation from family Currie s time at the preventorium changed her and those around her leaving an indelible mark even after their return home While many of the records from the preventorium have been lost Currie s memoir opens to readers a lost history largely forgotten Told in evocative prose The Preventorium explores Currie s personal trials both in the hospital and in the echoes of her experiences into adulthood *Babyhood* Leroy Milton Yale,1887 Michigan Journal of Education ,1857 Mrs. Overthaway's Remembrances Juliana Horatia Gatty Ewing,2025-07-09 Reprint of the original first published in 1881 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage
