My Secret Is Mine Studies On Religion And Eros In The German Middle Ages:

My Secret is Mine Hildegard Elisabeth Keller, 2000 Erotic sexual and marital images belong to the fundamental stock of human symbols for commitment and union as well as for the endangering of such a union Their inexhaustible potential has shaped religious and cultural history giving rise to rich artistic creations during the Christian Middle Ages Such pictorial and textual sources here drawn mainly from German secular and religious literature between the 12th and the 17th centuries form a veritable archive of gender history What from a Christian point of view had been presented as a principal purpose of human existence being God's free daughter His Son's bride took on an increasingly sexual character and became the particular domain of religious women Beginning with this eroticized concept of God this book examines its multiple implications for the texts themselves as well as their authors and readers for the relationship with a transcendent partner and for the secular experience of marriage After the initial theoretical groundwork a general survey exemplifying brides of God precedes a detailed study of prominent individuals My Secret is Mine thus invites very diverse literary brides and their beloveds to shed some light on their experience of that inexpressible and yet immensely productive promise of union with love itself *The Power of a Woman's Voice in Medieval and Early Modern Literatures* Albrecht Classen, 2012-02-13 The study takes the received view among scholars that women in the Middle Ages were faced with sustained misogyny and that their voices were seldom heard in public and subjects it to a critical analysis The ten chapters deal with various aspects of the question and the voices of a variety of authors both female and male are heard The study opens with an enquiry into violence against women including in texts by male writers Hartmann von Aue Gottfried von Straßburg Wolfram von Eschenbach which indeed describe instances of violence but adopt an extremely critical stance towards them It then proceeds to show how women were able to develop an independent identity in various genres and could present themselves as authorities in the public eye Mystic texts by Hildegard of Bingen Marie de France and Margery Kempe the medieval conduct poem known as *Die Winsbeckin* the *Devout Books of Sisters* composed in convents in South West Germany but also quasi historical documents such as the memoirs of Helene Kottaner or Anna Weckerin's cookery book demonstrate that far more women were in the public gaze than had hitherto been assumed and that they possessed the self confidence to establish their positions with their intellectual and their literary achievements

Conflicting Femininities in Medieval German Literature Karina Marie Ash, 2016-05-23 Drastic changes in lay religiosity during the High Middle Ages spurred anxiety about women forsaking their secular roles as wives and mothers for religious ones as nuns and beguines This anxiety and the subsequent need to model an ideal of feminine behavior for the laity is particularly expressed in the German versions of Latin and French narratives Using thirteenth century penitentials monastic exempla and sermons Karina Marie Ash clarifies how secular wifehood was recast as a quasi religious role and in German epics and romances from the late twelfth and early thirteenth centuries how female characters are adapted to promote the salvific nature of worldly love in ways that echo the

pastoral reevaluation of women at that time Then she argues that mid and late thirteenth century German literature not only reflects this impulse to idealize women's roles in lay society but also to promote an alternative model of femininity that deploys ways of privileging secular roles for women over religious ones These continuously evolving readaptations of female protagonists across cultures and across centuries reflect fictive solutions for real historical concerns about women that not only complement contemporary pastoral and legal reforms but are also unique to medieval German literature

God and the Goddesses Barbara Newman, 2016-01-14 Contrary to popular belief the medieval religious imagination did not restrict itself to masculine images of God but envisaged the divine in multiple forms In fact the God of medieval Christendom was the Father of only one Son but many daughters including Lady Philosophy Lady Love Dame Nature and Eternal Wisdom God and the Goddesses is a study in medieval imaginative theology examining the numerous daughters of God who appear in allegorical poems theological fictions and the visions of holy women We have tended to understand these deities as mere personifications and poetic figures but that Barbara Newman contends is a mistake These goddesses are neither pagan survivals nor versions of the Great Goddess constructed in archetypal psychology but distinctive creations of the Christian imagination As emanations of the Divine mediators between God and the cosmos embodied universals and ravishing objects of identification and desire medieval goddesses transformed and deepened Christendom's concept of God introducing religious possibilities beyond the ambit of scholastic theology and bringing them to vibrant imaginative life Building a bridge between secular and religious conceptions of allegorized female power Newman advances such questions as whether medieval writers believed in their goddesses and if so in what manner She investigates whether the personifications encountered in poetic fictions can be distinguished from those that appear in religious visions and questions how medieval writers reconcile their statements about the multiple daughters of God with orthodox devotion to the Son of God Furthermore she examines why forms of feminine God talk that strike many Christians today as subversive or heretical did not threaten medieval churchmen Weaving together such disparate texts as the writings of Latin and vernacular poets medieval schoolmen liturgists and male and female mystics and visionaries God and the Goddesses is a direct challenge to modern theologians to reconsider the role of goddesses in the Christian tradition

Women Readers in the Middle Ages D. H. Green, 2007-11-22 Throughout the Middle Ages the number of female readers was far greater than is commonly assumed D H Green shows that after clerics monks religious women were the main bearers of written culture Laywomen played a vital part in the process whereby the expansion of literacy brought reading from religious institutions into homes

Trinitarian Theology and Power Relations M. Minister, 2014-11-06 This text crafts a trinitarian theology that reorients theology from presumptions about the immateriality of the Trinity toward the places where the Trinity matters material bodies in historical contexts and the intersecting ways political and theological power structures normalize and marginalize bodies on the basis of material difference

Crown and Veil Ruhrlandmuseum Essen, Kunst- und Ausstellungshalle der Bundesrepublik

Deutschland,2008 Crown and Veil offers a broad introduction to the history and visual culture of female monasticism in the Middle Ages from the earliest communities of Late Antiquity to the Reformation Scholars from numerous disciplines offer a wide range of perspectives not to be found in any other single book on the subject placing the art architecture literature liturgy religious practices and economic foundations of these communities within a wide historical and cultural context Long considered marginal to mainstream history nuns and canonesses in fact had a profound influence on medieval culture Revered and admired as models of piety they commanded considerable prestige and exercised a significant degree of political power Whether acting as producers or patrons of art nuns were widely celebrated for their imaginative accomplishments Focusing on the visual culture of female monastic communities in the German Empire Frankish Gaul Langobard Italy and Anglo Saxon England this volume underscores the richness of largely unfamiliar material and its role in shaping distinctive forms of religious life *Mediation and Immediacy* Jenny Ponzio,Robert A. Yelle,Massimo

Leone,2020-12-07 Religion like any other domain of culture is mediated through symbolic forms and communicative behaviors which allow the coordination of group conduct in ritual and the representation of the divine or of tradition as an intersubjective reality While many traditions hold out the promise of immediate access to the divine or to some transcendent dimension of experience such promises depend for their realization as well on the possibility of mediation which is necessarily conducted through channels of communication and exchange such as prayers or sacrifices An understanding of such modes of semiosis is therefore necessary even and especially when mediation is denied by a tradition in the name of the ineffability of the deity or of mystical experience This volume models and promotes an interdisciplinary dialogue and cross cultural perspective on these issues by asking prominent semioticians historians of religion and of art linguists sociologists of religion and philosophers of law to reflect from a semiotic perspective on the topic of mediation and immediacy in religious traditions **Wounds and Wound Repair in Medieval Culture** ,2015-10-05 The spectacle of the wounded body figured

prominently in the Middle Ages from images of Christ s wounds on the cross to the ripped and torn bodies of tortured saints who miraculously heal through divine intervention to graphic accounts of battlefield and tournament wounds evidence of which survives in the archaeological record and literary episodes of fatal or not so fatal wounds This volume offers a comprehensive look at the complexity of wounding and wound repair in medieval literature and culture bringing together essays from a wide range of sources and disciplines including arms and armaments military history medical history literature art history hagiography and archaeology across medieval and early modern Europe Contributors are Stephen Atkinson Debby Banham Albrecht Classen Joshua Easterling Charlene M Eska Carmel Ferragud M R Geldof Elina Gertsman Barbara A Goodman M ire Johnson Rachel E Kellett Ilana Krug Virginia Langum Michael Livingston Iain A MacInnes Timothy May Vibeke Olson Salvador Ryan William Sayers Patricia Skinner Alicia Spencer Hall Wendy J Turner Christine Voth and Robert C Woosnam Savage *A Companion to Medieval Art* Conrad Rudolph,2019-05-07 A fully updated and comprehensive

companion to Romanesque and Gothic art history This definitive reference brings together cutting edge scholarship devoted to the Romanesque and Gothic traditions in Northern Europe and provides a clear analytical survey of what is happening in this major area of Western art history The volume comprises original theoretical historical and historiographic essays written by renowned and emergent scholars who discuss the vibrancy of medieval art from both thematic and sub disciplinary perspectives Part of the Blackwell Companions to Art History A Companion to Medieval Art Second Edition features an international and ambitious range of contributions covering reception formalism Gregory the Great pilgrimage art gender patronage marginalized images the concept of spolia manuscript illumination stained glass Cistercian architecture art of the crusader states and more Newly revised edition of a highly successful companion including 11 new articles Comprehensive coverage ranging from vision materiality and the artist through to architecture sculpture and painting Contains full color illustrations throughout plus notes on the book s many distinguished contributors A Companion to Medieval Art Romanesque and Gothic in Northern Europe Second Edition is an exciting and varied study that provides essential reading for students and teachers of Medieval art
