ELEPHORCA

PRIMARY FUNCTION: **DEMOLITIONS**

BIO

Shortly before his power was dispersed into Angolmois energy, Unicron foresaw a time when his servants—in order to affect his resurrection—would require a weapon of mass destruction to carry out his will. A loyal (if somewhat dim-witted) member of a small Maximal (off-world) colony, Elephorca was originally a hard working construction-bot, called upon largely to lift heavy loads and set large pieces of building in place. With a twisted sense of irony, Unicron warped this gentle giant into a raging beast whose sole purpose is chaos and carnage.

**"LET DESTRUCTION REIGN AND
CHAOS WILL PREVAIL!"**

WEAPONS/ABILITIES

Elephorca specializes in one thing: brute force. His strength is off most conventional Cybertronian power charts. Drawing upon Unicron's power, he can increase his size up to five times, reaching titanic proportions. His general attack plan involves him landing on a planet and using his sheer weight to crush entire cities. His skin secretes an acid that weakens any structure or enemy he is trying to destroy and his gun fires a stream of the same toxic substance but in a more concentrated form that liquefies most material on contact.

WEAKNESSES

Elephorca has no known physical weaknesses. His lack of intelligence is his only Achilles heel.
