Wilson,2018-12-21 David Wilson s initial research into the phenomenon of prophecy in the Hebrew Bible suggested that many of the passages featuring prophets and hitherto considered to be bizarre myths or much edited collections of traditions were in fact sequences of dreams Moreover it was possible to compare the structure of these sequences with the structure of a night s sleep hypnogram as revealed by modern sleep research to demonstrate that the sleeper was depressed This characteristic depressive sleep architecture was then used to show that three characters in particular Elijah Jonah and Adam compared in the New Testament with Jesus were all in fact depressed Quite naturally this raised further questions concerning the nature of Jesus himself Was he merely a prophet If he wasn t how did he differ If he was depressed how was he able to function and succeed in his mission when Elijah and Jonah clearly had such great difficulties These and other questions are raised throughout this book and many of them are not new but they are however changed forever when asked against a contextual background of altered states of consciousness ASCs and dreamform in particular **The Rotarian** ,1990-05 Established in 1911 The Rotarian is the official
