A Guide for Developing a Culture of Caring Through Nursing Peer Mentorship Programs Deborah Kramer, 2024-08-19
This book describes in detail how to develop successful programs of nursing mentorship utilizing concepts of caring that yields a strong caring body of nurses who will be nurse thrivers as they find fulfillment and meaning in their professional commitment and will train others to do the same. The mentorship program is the ticket to success that many students need to complete their degree program, prevent burnout, pass the nursing NCLEX examination and remain in the workforce after graduation. The current attrition rate in baccalaureate nursing programs is 25-50% as is the attrition rate in the first 2 years of employment of new RNs entering the workforce. Burnout is due to a lack of care and support for helping the students navigate the rigor and demands of the nursing program. Creating a community of learners with caring and support creates an environment that fosters academic engagement and success. The unique aspect of this book is its focus on creating a caring environment to support the students, helping them develop caring skills, empathy, resilience, and their own self-care, developing the skills for success beyond their educational process into the workforce. This book integrates all patterns of knowing: personal, aesthetic, empiric, and ethical, and provides the missing link of peer mentorship necessary to the development of resilient, emancipated nursing students and graduates capable of working in community with others to establish cultures of care in health care. This is a must-have resource for transformation of nursing education in the next century. Foreword by Dr. Margaret McClure. *The World Book Encyclopedia* World Book, Inc., 2007. The World Book Encyclopedia was first published in 1917 as an 8-volume set. The encyclopedia has been expanded many times through the years and now has 22 volumes. This edition contains 2900 new or revised articles, 200 new or revised maps, 225 new photos, 212 new tables and charts, and 4890 pages are revised. *Leben in zwei Welten* Margit Herfarth, 2014-05-06. Im Jahr 1849 entsandte Theodor Fliedner vier Diakonissen in die USA und gab damit den Impuls zur Entstehung einer zwar nicht immer erfolgreichen, aber ungeheuer vielfältigen amerikanischen Diakonissenbewegung. Diese war geprägt durch den wirtschaftlich gesellschaftlichen Wandel des späten 19. Jahrhunderts, die Frauenbewegung und die Entstehung der professionellen Krankenpflege und Sozialarbeit. Die amerikanische Diakonissenarbeit ist vor allem, aber auch ein Teil deutsch-amerikanischer Kultur, eng verknüpft mit der Geschichte der deutschen Amerika-Auswanderung. Wie wurde das Kaiserswerther Modell interpretiert, amerikanisiert und verändert? Die vorliegende Studie geht diesen Fragen unter einer bewusst transatlantischen Perspektive nach und untersucht sowohl die Geschichte einzelner Institutionen als auch individuelle Biographien.
