of 52 diverse lesbian gay and bisexual couples in the Bay area He closes the work with a discussion of the raging same sex marriage debate and posits an enlightened solution to this dilemma Library Journal *Between Sodom and Eden* Lee Walzer, 2000-03-30 Astonishingly Israeli lesbians and gays have been able to achieve many political goals that still elude America's gay community Israel's Supreme Court has mandated same sex spousal benefits the military which never barred gays to begin with has removed its last official restrictions Israel's parliament boasts a Subcommittee for the Prevention of Sexual Orientation Discrimination and school curricula are gay friendly all of this in a country where religious interests wield extraordinary power and whose identity today is the object of fierce struggle *Between Sodom and Eden* the first book to explore this rapidly changing landscape is based on interviews with over one hundred Israelis as well as Palestinians Lee Walzer explores how within a decade Israel has evolved from a society that marginalized homosexuals to one that offers some of the most extensive legal protections in the world He traces the political religious and social factors that make Israel a gay rights trendsetter examining the interplay between Judaism and homosexuality the growing prominence of gay themes in Israeli literature film music and television and the role of the media in advancing lesbian and gay political progress

Families We Choose Kath Weston, 1997 This study brings together two areas of investigation relationships of gay and lesbian individuals with their biological families and lesbian and gay relationships in the context of research on alternative forms of family *Up from Invisibility* Larry Gross, 2001-12-26 A half century ago gay men and lesbians were all but invisible in the media and in turn popular culture With the lesbian and gay liberation movement came a profoundly new sense of homosexual community and empowerment and the emergence of gay people onto the media's stage And yet even as the mass media have been shifting the terms of our public conversation toward a greater acknowledgment of diversity does the emerging visibility of gay men and women do justice to the complexity and variety of their experience Or is gay identity manipulated and contrived by media that are unwilling and perhaps unable to fully comprehend and honor it While positive representations of gays and lesbians are a cautious step in the right direction media expert Larry Gross argues that the entertainment and news media betray a lingering inability to break free from proscribed limitations in order to embrace the complex reality of gay identity While noting major advances like the opening of the Oscar Wilde Memorial Bookstore the first gay bookstore in the country or the rise of *The Advocate* from small newsletter to influential national paper Gross takes the measure of somewhat more ambiguous milestones like the first lesbian kiss on television or the first gay character in a newspaper comic strip **Fashioning Sapphism** Laura Doan, 2001-01-03 The highly publicized obscenity trial of Radclyffe Hall's *The Well of Loneliness* 1928 is generally recognized as the crystallizing moment in the construction of a visible modern English lesbian culture marking a great divide between innocence and deviance private and public New Woman and Modern Lesbian Yet despite unreserved agreement on the importance of this cultural moment previous studies often reductively distort our reading of the formation of early twentieth century lesbian identity either by neglecting to examine in detail the

developments leading up to the ban or by framing events in too broad a context against other cultural phenomena Fashioning Sapphism locates the novelist Radclyffe Hall and other prominent lesbians including the pioneer in women's policing Mary Allen the artist Gluck and the writer Bryher within English modernity through the multiple sites of law sexology fashion and literary and visual representation thus tracing the emergence of a modern English lesbian subculture in the first two decades of the twentieth century Drawing on extensive new archival research the book interrogates anew a range of myths long accepted without question and still in circulation concerning to cite only a few the extent of homophobia in the 1920s the strategic deployment of sexology against sexual minorities and the rigidity of certain cultural codes to denote lesbianism in public culture

Auden's Games of Knowledge Richard R. Bozorth, 2001 The first full length consideration of Auden as a homosexual poet this volume shows that Auden's career was tied to a process of gay self interrogation unparalleled in modern poetry and argues that he was driven by a powerful yearning to comprehend the psychological political and ethical implications of same sex desire Auden's theories about poetry in the 1930s and after reflected an intense concern with how to write publicly as a homosexual poet That struggle was made manifest in his love poetry which Bozorth argues constitutes a kind of erotic autobiography exploring the distinct challenges of homosexual love Bozorth's approach is manifold examining the poet's engagements with avant garde poetics gay subculture psychoanalysis leftist politics and theology This book proposes that from his early fascination with secret agent and trickster figures to his later theories of poetry as an I Thou relation Auden viewed poetry as a fictional but primal erotic encounter with the reader

Symptoms of Modernity Matti Bunzl, 2004-02-03 This book is an ethnography of Central European modernity in the form of a comparative study of Jews and queers in late twentieth century Vienna

The Wedding Complex Elizabeth Freeman, 2002-10-31 A queer literary and cultural studies examination of the wedding ceremony rather than the resulting marriages which finds it to be a space of more open possibilities than might normally be supposed

Business, Not Politics Katherine Sender, 2005-01-05 In a hard hitting book that refutes conventional wisdom Katherine Sender explores the connection between the business of marketing to gay consumers and the politics of gay rights and identity She disputes some marketers claims that marketing appeals to gay and lesbian consumers are a matter of business not politics and that the business of gay marketing can be considered independently of the politics of gay rights identity and visibility She contends that the gay community is not a preexisting entity that marketers simply tap into rather it is a construction an imagined community formed not only through political activism but also through a commercially supported media She argues that marketing has not only been formative in the constitution of a GLBT community and identity but also has had significant impact on the visibility of gays and lesbians
