Regions Of Memory Uncollected Prose 1949 82:

Regions of Memory William Stanley Merwin, Ed Folsom, 1987 Reading W.S. Merwin in a New Century Cheri Colby Langdell, 2023-01-01 This edited collection explores the work of highly awarded and twice American Poet Laureate W S Merwin Spanning Merwin s early career his mid career success his Hawaiian epic his eco poetry his lesser known later poetry and the influence of Buddhism on his work the volume offers new perspectives on Merwin as a major poet Exploring his works across the twentieth and twenty first century this collection presents Merwin as a necessary and contemporary poet It emphasizes contemporary readings of Merwin as an environmental advocate showing how his poetry seeks to help each reader re establish an intimate relationship with the natural world It also highlights how Merwin s work presents our place in history as a pivotal moment of transition into a new era of international cooperation This volume both celebrates his life and writing and takes scholarship on his work forward into the new century Zoopoetics Aaron M. Moe, 2013-12-19 Zoopoetics assumes Aristotle was right The general origin of poetry resides in part in the instinct to imitate But it is an innovative imitation An exploration of the oeuvres of Walt Whitman E E Cummings W S Merwin and Brenda Hillman reveals the many places where an imitation of another species poesis Greek makings contributes to breakthroughs in poetic form However humans are not the only imitators in the animal kingdom Other species too achieve breakthroughs in their makings through an attentiveness to the ways of being of other animals For this reason mimic octopi elephants beluga whales and many other species join the exploration of what zoopoetics encompasses Zoopoetics provides further traction for people interested in the possibilities when and where species meet Gestures are paramount to zoopoetics Through the interplay of gestures the human animal textual spheres merge making it possible to recognize how actual biological animals impact the material makings of poetry Moreover as many species are makers zoopoetics expands the poetic tradition to include nonhuman poesis Understanding W.S. Merwin H. L. Hix, 1997 Elucidates the unique voice of a Pulitzer Prize winning poet Modernism's Other Work Lisa Siraganian, 2015 Modernism s Other Work challenges our view of relationships between aesthetic autonomy and the world of daily life a conjuncture that Lisa Siraganian demonstrates has often been misunderstood in critical studies of modernism Connecting poetry to the visual arts and politics the author provides new ways to think about modernist art s relationship Cary Nelson and the Struggle for the University Michael Rothberg, Peter K. Garrett, 2009-01-08 Scholars engage the ideas and legacy of Cary Nelson in conversations about the corporate university teaching poetry and activism A Study Guide for W. S. Merwin's "Leviathan" Gale, Cengage Learning, 2015-03-13 A Study Guide for W S Merwin s Leviathan excerpted from Gale s acclaimed Poetry for Students This concise study guide includes plot summary character analysis author biography study questions historical context suggestions for further reading and much more For any literature project trust Poetry for Students for all of your research needs Conversations with W. S. Merwin Michael Wutz, Hal Crimmel, 2015-05-21 Conversations with W S Merwin is the first collection of interviews with

former United States Poet Laureate W S Merwin b 1927 Spanning almost six decades of conversations the collection touches on such topics as Merwin s early influences Robert Graves and Ezra Pound his location within the twin poles of Walt Whitman and Henry David Thoreau and his extraordinary work as a translator as well as his decades long interest in environmental conservation Anticipating the current sustainability movement and the debates surrounding major and minor literatures Merwin was and still is a visionary He is among the most distinguished poets translators and thinkers in the United States A major link between the period of literary modernism and its contemporary extensions Merwin has been a force in American letters for many decades and his translations from the Spanish French Italian Japanese and other languages have earned him unanimous praise and admiration Merwin also wrote at the forefront of literature s environmental advocacy and early on articulated concerns about ecology and sustainability Conversations with W S Merwin offers insight into the various dimensions of Merwin s thought by treating his interviews as a self standing category in his oeuvre More than casual narratives that interpret the occasional poem or relay an occasional experience they afford literary and cultural historians a view into the larger throughlines of Merwin s thinking *W. S. Merwin* Cary Nelson, Ed Folsom, 1987

From Origin to Ecology Jane Frazier, 1999 Frazier examines Merwin s poetry with regard to ecocriticism anthropology Merwin s fellow poets Merwin criticism and his own essays and interviews Of central importance is Merwin s indebtedness to Henry David Thoreau his sense that Thoreau guided American writing in a new direction whereby nature could be seen as something of value for itself **BOOK JACKET**

Ecocriticism and the Poiesis of Form Aaron Moe, 2019-02-14 Ecocriticism and the Poiesis of Form Holding on to Proteus demonstrates how a fractal imagination helps one hold the form of a poem within the reaches of Deep Time and it explores the kinship between the hazy liminal moment when Sound becomes Syllable and the hazy liminal moment when the sage energy of the Atom made a leap toward the gaze of the first cell to echo Merwin Moe distills his methodology as follows My work I point asserted the aphorism That s what I do To point the project integrates a wide range of interdisciplinary ideas including biosemiotics fractals phi trauma theory the Mandelbrot Set hyperobjects meditative chants Goethe s morphology Ramanujan s summation a spiderweb s sonic properties and Thoreau s sense of the plant like burgeoning force of an Atom in order to open up multiple trajectories In this context the volume foregrounds the insights of poets storytellers including Hillman Snyder Anzald a EEC okpik Whitman Dickinson Gladding Melville Morrison and Toomer for they are most attentive to that liminal moment when the vibratory hum in language and in the cosmos turns kinetic As this volume draws on a wide range of writers from many backgrounds it allows the myriad voices to engage with one another across differences in race gender and ethnicity These writers show us how to echo Dickinson the Freight Of a delivered Syllable can split and how the energy unleashed came from and points us back toward the energy un making the forms of Gaia The starting point for discussing the energy of a poem can no longer begin with the human rather Holding on explores how the poem s energy is but a sliver of a hyperobject massively

distributed throughout the cosmos a sage energy that brings forth form **Working Watersheds** William Conlogue, 2024-11-14 The Lackawanna Valley's history reveals how energy production and water circulation created positive feedback loops of technological and environmental change To cope with climate change which is water change we need a change of mind to survive in our warming world we must look to history and literature as guides From Outlaw to Classic Alan Golding, 2009-08-26 From Outlaw to Classic presents a sweeping history of the forces that have shaped and continue to shape the American poetry canon Students scholars critics and poets will welcome this enlightening and impressively documented book Recent writings by critics and theorists on literary canons have dealt almost exclusively with prose Alan Golding shows that like all canons those of American poetry are characterized by conflict Choosing a series of varied but representative instances he analyzes battles and contentions among poets anthologists poetry magazine editors and schools of thought in university English departments The chapters present a history of American poetry anthologies compare competing models of canon formation the aesthetic poet centered and the institutional critic centered discuss the influence of the New Critics emphasizing their status as practicing poets their anti nationalist reading of American poetry and the landmark textbook Understanding Poetry by Cleanth Brooks and Robert Penn Warren examine the canonizing effects of an experimental little magazine Origin trace how the Language poets address in both their theory and their method the canonizing institutions and canonical assumptions of the age **Modern literature** Swann Galleries (New York), 1828 **A Companion to American Poetry** Mary McAleer Balkun, Jeffrey Gray, Paul Jaussen, 2022-04-11 A COMPANION TO AMERICAN POETRY A Companion to American Poetry brings together original essays by both established scholars and emerging critical voices to explore the latest topics and debates in American poetry and its study Highlighting the diverse nature of poetic practice and scholarship this comprehensive volume addresses a broad range of individual poets movements genres and concepts from the seventeenth century to the present day Organized thematically the Companion's thirty seven chapters address a variety of emerging trends in American poetry providing historical context and new perspectives on topics such as poetics and identity poetry and the arts early and late experimentalisms poetry and the transcendent transnational poetics poetry of engagement poetry in cinema and popular music Queer and Trans poetics poetry and politics in the 21st century and African American Asian American Latinx and Indigenous poetries Both a nuanced survey of American poetry and a catalyst for future scholarship A Companion to American Poetry is essential reading for advanced undergraduate and graduate students academic researchers and scholars and general readers with interest in current trends in American poetry

Forces in Modern & Postmodern Poetry Albert Cook, 2008 Forces in Modern and Postmodern Poetry examines the works of classic authors in the modern and postmodern literary tradition including St phane Mallarm Wallace Stevens Samuel Beckett Gertrude Stein Charles Olson Paul Celan Ezra Pound William Carlos Williams Louis Zukofsky and John Ashbery all from a comparative perspective The concepts modern and postmodern are not used to provide definitive answers

but to raise questions concerning the status of representation issues of the self and the use of imagery and musical invention. The wide range of the study is matched by the richly detailed analysis of specific poetic texts from an author noted for the scope and acuity of his attention to modern poetry in all its varied forms. **Desire and Infinity in W. S. Merwin's Poetry** Feng Dong, 2021-12-15. In the first monograph on W. S. Merwin to appear since his death in 2019, Feng Dong focuses on the dialectical movement of desire and infinity that ensouls the poet's entire oeuvre. His analysis foregrounds what Merwin calls the other side of despair, the opposite of humans articulated personal and social agonies. Feng finds these presences in Merwin's evocations of what lingers on the edge of constantly updated socio-symbolic frameworks, surreal encounters, spiritual ecstasies and abyssal freedoms. By examining Merwin's lifelong engagement with psychic fantasies, anonymous holiness, entities both natural and supernatural, and ghostly ancestors, Feng uncovers a precarious relation with the unarticulated, unrealized side of existence. Drawing on theories from Lacan, Lévinas, and Heidegger, *Desire and Infinity* in W. S. Merwin's Poetry reads a metaphysical possibility into the poet's work at the intersection between contemporary poetics, philosophy, and psychoanalysis. W. S. Merwin Harold Bloom, 2009. A comprehensive research and study guide to five of the poems of W. S. Merwin. **The West Side of Any Mountain** J. Scott Bryson, 2005-04-01. In contrast to nature poets of the past who tended more toward the bucolic and pastoral, many contemporary nature poets are taking up radical environmental and ecological themes. In the last few years, interesting and evocative work that examines this poetry has begun to lay the foundation for studies in ecopoetics. Informed in general by current thinking in environmental theory and specifically by the work of cultural geographer Yi-Fu Tuan, *The West Side of Any Mountain* participates in and furthers this scholarly attention by offering an overarching theoretical framework with which to approach the field. One area that contemporary theorists have found problematic is the dualistic civilization/wilderness binary that focuses on the divisions between culture and nature, thereby increasing the modern sense of alienation. Tuan's place/space framework offers a succinct vocabulary for describing the attitudes of ecological poets and other nature writers in a way that avoids setting up an adversarial relationship between place and space. Scott Bryson describes the Tuanian framework and employs it to offer fresh readings of the work of four major ecopoets: Wendell Berry, Joy Harjo, Mary Oliver, and W. S. Merwin. *The West Side of Any Mountain* will be of great interest to scholars and teachers working in the field of contemporary nature poetry. It is recommended for nature writing courses as well as classes dealing with 20th-century poetry, contemporary literary criticism, and environmental theory. *The British Library General Catalogue of Printed Books, 1986 to 1987* British Library, 1988.
