Regulation Of Information Technology In The European Union:

Regulation of Information Technology in the European Union Terry Broderick, 2000-11-08 Information technology is continuing to transform global communications and the world economy with innovative products and services In this dynamic environment events tend to be market driven and it may be difficult for the regulators to keep up At the same time there is a need for public authorities to promote effective competition within a clear coherent and predictable framework This useful reference work summarizes the major rules and policies for information technology at the European level It describes the institutional framework and general policies for the information society examines the detailed rules for external trade competition and intellectual property and discusses the Internet and electronic commerce It provides an excellent overview of the subject as well as a good starting point for additional research on particular issues This unique work will be of great value for practising lawyers corporate counsel business executives consultants academics and government or trade association officials

The European Union REACH Regulation for Chemicals Lucas Bergkamp, 2013-10-24 This book discusses the law and practice of the European Union's new chemical regulatory programmes known under the acronym REACH REACH is intended to ensure the safe management of risks associated with chemical substances throughout the supply chain Its scope is very broad subject to limited exceptions REACH applies to all bulk chemicals used in industrial processes and to chemicals present in products such as cleaning products paints clothing furniture and electrical appliances The newly established European Chemicals Agency ECHA the Commission and member state authorities are in charge of administering the various parts of the REACH Regulation creating a complex patchwork of government powers procedures and oversight The volume is written by experienced REACH practitioners It addresses both the key legal regulatory issues associated with REACH and the key management and practical challenges In addition to analysing the scope the processes and the obligations of the industry under REACH the book covers the strategy and management of REACH compliance from the perspective of the regulated entities The focus is on the strategic and practical decisions facing companies subject to REACH's various regimes Significant attention is paid to REACH consortia which are a key instrument in compliance management and to the competition law issues arising in connection with REACH consortia It also covers legal remedies enforcement intellectual property rights and civil liability for damages arising from chemical substances as well as how companies can shape their REACH compliance programme to reduce their liability exposure

Regulating eTechnologies in the European Union Tanel Kerikmäe, 2014-07-10 The EU strategy 2020 includes ambitious plans for e regulation that could improve Europe's competitiveness However the European states have very different legal frameworks in this field This book introduces flagship initiatives and provides a detailed overview and analysis of the current standards and latest developments offering practical insights and guidelines for practitioners and policy makers alike Further as it discusses the main areas of e regulation it can serve as a useful platform for university education in light of the growing need for new kinds

of specialists i.e. IT lawyers. The book concentrates on fields that are directly affected by the regulation such as cyber security, databases, computer programs, e-governance, IP and competition law and informatics. **Handbook of Research on Global Information Technology Management in the Digital Economy** Raisinghani, Mahesh S., 2008-01-31. Includes the most important issues, concepts, trends and technologies in the field of global information technology management covering topics such as the technical platform for global IS applications, information systems projects spanning cultures, managing information technology in corporations and global information technology systems and socioeconomic development in developing countries. Information Technology Law in Italy Giovanni Ziccardi, 2025-04-16. Derived from the renowned multi-volume International Encyclopaedia of Laws, this practical guide to information technology law, the law affecting information and communication technology (ICT) in Italy, covers every aspect of the subject including the regulation of digital markets, intellectual property rights in the digital context, relevant competition rules, drafting and negotiating ICT-related contracts, electronic transactions and cybercrime. Lawyers who handle transnational matters will appreciate the detailed explanation of specific characteristics of practice and procedure. Following a general introduction, the monograph assembles its information and guidance in six main areas of practice: 1. the regulatory framework of digital markets including legal aspects of standardization, international private law applied to the online context, telecommunications law, regulation of audio-visual services and online commercial platforms; 2. online public services including e-government, e-health and online voting; 3. contract law with regard to software, hardware, networks and related services with special attention to case law in this area; rules with regard to electronic evidence, regulation of electronic signatures, online financial services and electronic commerce; 4. software protection, legal protection of databases or chips and other intellectual property matters; 5. the legal framework regarding cybersecurity; and 6. the application of criminal procedure and substantive criminal law in the area of cybercrime. Its succinct yet scholarly nature, as well as the practical quality of the information it provides, make this monograph a valuable time-saving tool for business and legal professionals alike. Lawyers representing parties with interests in Italy will welcome this very useful guide and academics and researchers will appreciate its value in the study of comparative law in this relatively new and challenging field. *Specialized Administrative Law of the European Union* Herwig C. H. Hofmann, Gerard C. Rowe, Alexander H. Türk, 2018-11-30. This volume deals with the law governing the administrative implementation of European Union public policy. Much of this law is specific to individual policy sectors. The volume provides a study of such specialized administrative law for more than twenty sectors. This cross-sectoral approach allows for detailed comparisons of EU administration in diverse policy fields. It identifies situations where legal structures and approaches may be unnecessarily duplicated, thus indicating where a comprehensive general system could be advantageous for both Union law and policy achievement. The comparative nature of the study also draws attention to policy fields which have proven to be testing grounds for approaches adopted subsequently in other areas. In addition, the work highlights the distinctive highly

networked and strongly cooperative character of EU administration as a reflection of and a foundation for the operative nature of the European Union as a whole

Disability and Information Technology Eliza Varney, 2013-03-11 *Disability and Information Technology* examines the extent to which regulatory frameworks for information and communication technologies ICTs safeguard the rights of persons with disabilities as citizenship rights It adopts a comparative approach focused on four case studies Canada the European Union the United Kingdom and the United States It focuses on the tension between social and economic values in the regulation of ICTs and calls for a regulatory approach based on a framework of principles that reflects citizenship values The analysis identifies challenges encountered in the jurisdictions examined and points toward the rights based approach advanced by the UN Convention on the Rights of Persons with Disabilities as a benchmark in protecting the rights of persons with disabilities to have equal access to information The research draws on a wealth of resources including legislation cases interviews consultation documents and responses from organisations representing persons with disabilities

Handbook on European data protection law Council of Europe, European Union Agency for Fundamental Rights, 2018-04-15 The rapid development of information technology has exacerbated the need for robust personal data protection the right to which is safeguarded by both European Union EU and Council of Europe CoE instruments Safeguarding this important right entails new and significant challenges as technological advances expand the frontiers of areas such as surveillance communication interception and data storage This handbook is designed to familiarise legal practitioners not specialised in data protection with this emerging area of the law It provides an overview of the EU s and the CoE s applicable legal frameworks It also explains key case law summarising major rulings of both the Court of Justice of the European Union and the European Court of Human Rights In addition it presents hypothetical scenarios that serve as practical illustrations of the diverse issues encountered in this ever evolving field
