Reification Or The Anxiety Of Late Capitalism:

Reification Timothy Bewes, 2002-12-17 Reification is the process by which human experience and action is transformed into a sort of object separated from human reality and was identified by Karl Marx as being a natural outgrowth of capitalist accumulation. The concept has recently fallen into analytical disrepute partly because the concept of reification is itself reifying, argues Bewes. Brown U. He revisits concepts of reification in the works of Marx, Adorno, Fanon, Lukacs and others seeking to resolve theoretical problems thrown up by the idea. The theory presented here is an attempt to resolve the theory of reification with its obsolescence. Annotation copyrighted by Book News Inc. Portland, OR

Michel Houellebecq and the Literature of Despair Carole Sweeney, 2013-11-21 Widely acknowledged as an important if highly controversial figure in contemporary literature, French novelist and poet Michel Houellebecq has elicited diverse critical responses. In this book, Carole Sweeney examines his novels as a response to the advance of neoliberalism into all areas of affective human life. This historicizing study argues that *le monde houellebecquien* is an atomised society of banal quotidian alienation populated by quietly resentful men who are the botched subjects of late capitalism. Addressing Houellebecq's handling of the failure of the radical thought of 68, Sweeney looks at the ways in which his fiction treats feminism, the decline of religion, and the family as well as the obsolescence of French theory and the Sartrean notion of engaged literature. Reading the world with the disappointed idealism of a contemporary moralist, Houellebecq's novels, Sweeney argues, fluctuate between despair for the world as it is and a limp utopian hope for a post-humanity.

The Radical Novel and the Classless Society Robert Z. Birdwell, 2018-10-15 *The Radical Novel and the Classless Society* analyzes utopian and proletarian novels as a single socialist tradition in U.S. literature. Utopian novels by such writers as Edward Bellamy, William Dean Howells, Charlotte Perkins Gilman, and Sutton E. Griggs and proletarian novels by such writers as Robert Cantwell, John Steinbeck, Richard Wright, Meridel Le Sueur, Claude McKay, and Ralph Ellison can help us conceive of a unity of utopian and Marxist socialisms. We can combine the imagination of the future classless society with present-day socialist strategy. Utopian and proletarian novels help us to imagine and realize the classless society as achieving the utopian goal of recognizing race and gender and the Marxist goal of overcoming social class.

The Culture and Politics of Contemporary Street Gang Memoirs Josephine Metcalf, 2012-07-02 The publication of Sanyika Shakur's *Monster: The Autobiography of an L.A. Gang Member* in 1993 generated a huge amount of excitement in literary circles. New York Times book critic Michiko Kakutani deemed it a shocking and galvanic book and set off a new publishing trend of gang memoirs in the 1990s. The memoirs showcased tales of violent confrontation and territorial belonging but also offered many of the first journalistic and autobiographical accounts of the much mythologized gang subculture. In *The Culture and Politics of Contemporary Street Gang Memoirs*, Josephine Metcalf focuses on three of these memoirs: Shakur's *Monster*, Luis J. Rodriguez's *Always Running: La Vida Loca, Gang Days in L.A.*, and Stanley Tookie Williams's *Blue Rage, Black Redemption* as key representatives of the gang autobiography. Metcalf examines

the conflict among violence thrilling sensationalism and the authorial desire to instruct and warn competing within these works The narrative arcs of the memoirs themselves rest on the process of conversion from brutal young gang bangers to nonviolent enlightened citizens Metcalf analyzes the emergence production marketing and reception of gang memoirs Through interviews with Rodriguez Shakur and Barbara Cottman Becnel Williams s editor Metcalf reveals both the writing and publishing processes This book analyzes key narrative conventions specifically how diction dialogue and narrative arcs shape the works The book also explores how these memoirs are consumed This interdisciplinary study fusing literary criticism sociology ethnography reader response study and editorial theory brings scholarly attention to a popular much discussed but understudied modern expression *The Carol J. Adams Reader* Carol J. Adams, 2016-10-06 The Carol J Adams Reader gathers together Adams s foundational and recent writings as well as relevant interviews and conversations identifying key concepts and new developments in her work **Georg Lukács's Philosophy of Praxis** Konstantinos

Kavoulakos, 2018-09-20 Georg Luk cs early Marxist philosophy of the 1920s laid the foundations of Critical Theory However the evaluation of Luk cs philosophical contribution has been largely determined by one sided readings of eminent theorists like Adorno Habermas Honneth or even Luk cs himself This book offers a new reconstruction of Luk cs early Marxist work capable of restoring its dialectical complexity by highlighting its roots in his neo Kantian pre Marxist period In his pre Marxist work Luk cs sought to articulate a critique of formalism from the standpoint of a dubious mystical ethics of revolutionary praxis Consequently Luk cs discovered a more coherent and realistic answer to his philosophical dilemmas in Marxism At the same time he retained his neo Kantian reservations about idealist dialectics In his reading of historical materialism he combined non idealist non systematic historical dialectics with an emphasis on conscious collective transformative praxis Reformulated in this way Luk cs classical argument plays a central role within a radical Critical Theory

The Insistence of Art Paul A. Kottman, 2017-04-03 Philosophers working on aesthetics have paid considerable attention to art and artists of the early modern period Yet early modern artistic practices scarcely figure in recent work on the emergence of aesthetics as a branch of philosophy over the course the eighteenth century This book addresses that gap elaborating the extent to which artworks and practices of the fifteenth through the eighteenth centuries were accompanied by an immense range of discussions about the arts and their relation to one another Rather than take art as a stand in for or reflection of some other historical event or social phenomenon this book treats art as a phenomenon in itself The contributors suggest ways in which artworks and practices of the early modern period make aesthetic experience central to philosophical reflection while also showing art s need for philosophy *Learn to Write Badly* Michael Billig, 2013-06-20 Modern academia is increasingly competitive yet the writing style of social scientists is routinely poor and continues to deteriorate Are social science postgraduates being taught to write poorly What conditions adversely affect the way they write And which linguistic features contribute towards this bad writing Michael Billig s witty and entertaining book analyses these questions in a quest

to pinpoint exactly what is going wrong with the way social scientists write Using examples from diverse fields such as linguistics sociology and experimental social psychology Billig shows how technical terminology is regularly less precise than simpler language He demonstrates that there are linguistic problems with the noun based terminology that social scientists habitually use reification or nominalization rather than the corresponding verbs reify or nominalize According to Billig social scientists not only use their terminology to exaggerate and to conceal but also to promote themselves and their work

Recovering the Later Georg Lukács Matthew J. Smetona, 2023-04-25 New resources for the critique of capitalism in culture from the late writings of Georg Lukács one of the first authors in the tradition of Western Marxism The Hungarian literary critic philosopher and Marxist social theorist Georg Lukács is best known for his 1923 *History and Class Consciousness* in which he offered an influential critique of reification from the standpoint of a dialectical conception of totality While Lukács's early works have been central to the study of Marxist thought his later works have often been dismissed as political accommodations to Stalinism In this new study Matthew Smetona argues for a revisionist interpretation of Lukács's later writings on topics as diverse as aesthetics politics and ontology Smetona demonstrates that these writings reveal a methodological unity that follows directly from *History and Class Consciousness* in which realism in both literary and extraliterary senses becomes the basis for the critique of reification As Lukács had demonstrated reification is that process by which the social relations between persons seem to take on the character of a thing Rooted in Marx's concept of commodity fetishism the critique of reification proved in Lukács's hands to be a flexible tool capable of clarifying all manner of obfuscations that arise within the social relations that capitalism produces To recover the later work of Lukács is to open up new horizons for Marxist cultural criticism

Studies in Symbolic Interaction Norman K. Denzin, 2009-10-01 Divided into four parts this title examines commodity racism representation racialization and resistance It presents the interpretive works in the interactionist tradition It features the essays which interrogate the intersections between biography media history politics and culture
