Kolb, 2008 This encyclopedia spans the relationships among business ethics and society with an emphasis on business ethics and the role of business in society **The SAGE Encyclopedia of Business Ethics and Society** Robert W. Kolb, 2018-03-27 Spans the

relationships among business ethics and society by including numerous entries that feature broad coverage of corporate social responsibility the obligation of companies to various stakeholder groups the contribution of business to society and culture and the relationship between organizations and the quality of the environment **The Crafting of Grief** Lorraine Hedtke, John Winslade, 2016-07-15 Many books on grief lay out a model to be followed either for bereaved persons to live through or for professionals to practice and usually follow some familiar prescriptions for what people should do to reach an accommodation with loss The Crafting of Grief is different it focuses on conversations that help people chart their own path through grief Authors Hedtke and Winslade argue convincingly that therapists and counselors can support people more by helping them craft their own responses to bereavement rather than trying to squeeze experiences into a model In the pages of this book readers will learn how to develop lines of inquiry based on the concept of continuing bonds and they ll discover ways to use these ideas to help the bereaved craft stories that remember loved ones lives **Transforming Emotion** Glenda Fredman, 2004-02-13 Starting from the position that there is no universal story of emotion necessarily acceptable to all cultures and that we cannot assume a common language of emotion that accurately transfers meanings and experiences between people this volume approaches emotion as the story people weave of physical sensation display and judgements through multi layered contexts of their relationships and cultures Emotion stories are seen as intricately woven with stories of identity therefore having implications for how people perceive their moral worth Within a framework informed by communication theories social constructionism and systemic and narrative therapies Glenda Fredman offers a repertoire of possibilities to talk about feelings share understanding and transform emotion Using her personal stories transcripts of conversations and case vignettes to speak the theory she shows how paying careful attention to each person s emotional language rules and theories can avoid coercion undermining isolating or creating an impasse between the people involved
