Relationships A Dialectical Perspective:

Relationships Robert A. Hinde, 1997 This single author volume on close relationships in adulthood discusses the central issues in the field and points the way towards integrating our knowledge about human relationships The self interactions relationships and groups are treated as dynamic processes in dialectical relations with each other and with the socio cultural structure of norms values beliefs and institutions The focus is on current work and current controversy placed against a background of the knowledge that has been built up in recent decades The book is suitable for advanced undergraduates and graduate students and for research workers and clinicians Literature from diverse disciplines is covered in a list of about 1600 titles

Dialectical Approaches to Studying Personal Relationships Barbara M. Montgomery, Leslie A. Baxter, 2013-09-13 This book describes many different and useful ways of understanding personal relationships from a dialectical perspective It is written for scholars in higher education both faculty and students across many fields within the social sciences and the humanities who seek answers to questions about how people relate to one another The book is valuable for all scholars who pursue new ideas because it models a form of scholarly communication in which multiple voices can be acknowledged as valid the worth of one perspective is not measured by the denigration of another and difference is celebrated as conducive to learning rather than threatening to it The contributors emphasize the characteristics of their dialectical view that set them apart from other dialectical authors and describe their methods of studying relationships from a dialectical perspective Following the Bakhtinian perspective they honor the values of dialogism by respecting different and sometimes contradictory views assuming that these views can be valid and joining in a discussion with the editors and other contributors about their emerging work They also acknowledge that the chapters in this text are part of an ongoing process to frame and reframe emerging ideas and allow the dialogue that occurs within this frame the freedom to express creative unique ideas

The Contemporary American Family Teresa Chandler Sabourin, 2003-04-07 I find the book extremely attractive The dialectical perspective provides a consistent avenue from which to address the diversity structural cultural developmental and functional in Contemporary American Families Whereas this perspective does not claim to solve the tensions in families it offers marvelous insights into the nature and changing diversities in families I believe this text is particularly well suited for reasonable discussion of serious issues and provides valuable insights into the nature of families and their functioning Vince Bloom California State University Fresno Teresa Chandler Sabourin invites students to appreciate the mystery complexity and diversity of the contemporary American family Resisting simplistic descriptions and normative descriptions Sabourin challenges us to open our minds and hearts to the rich humane variety of family connections as we search for ways to accommodate the competing demands and conflicting pressures experienced in our most cherished relationships Starting from the source of her own experience Sabourin addresses both the darker abusive side of family relationships as well as the lighter spiritual side of intimacy and love The Contemporary American Family successfully

addresses the need for an accessible and teachable treatment of the dialectical perspective on close relationships This is a book that will encourage students of family communication to respect diversity question taken for granted assumptions and share the pain and joy and of their own family experiences Art Bochner University of South Florida Increasingly diverse in structure and culture contemporary families defy explanation by many traditional linear methods In order to understand the enormous impact that diversity has on the behaviors and relationships within the family scholars and students need a means to embrace rather than solve relational contradictions The Contemporary American Family A Dialectical Perspective on Communication and Relationships recognizes that families are both close and distant stable and changing amenable and uncontrollable Teresa Chandler Sabourin employs a dialectical approach acknowledging that a family s contradictions and relational tensions may be the determining factor in its interaction Writing in a direct and simple style Sabourin uses this innovative theoretical position to address four types of family diversity structural cultural developmental and functional Sure to stimulate discussion and further research this provocative volume examines The dialectic process in the context of family communication and relationships The redefined more inclusive American family Contemporary family structures Cultural diversity in the family Issues such as alcoholism domestic violence and divorce Spirituality within the family Designed as a supplemental text for upper level undergraduate and graduate courses in Family Communication The Contemporary American Family is also an invaluable resource for students in Family Studies and Women s Studies courses

Close Encounters Laura K. Guerrero, Peter A. Andersen, Walid A. Afifi, 2010-11-03 New edition of this popular introduction to interpersonal communication

Blind Spots Melissa J. Frame, 2004 The purpose of this book is to understand the experiences of persons who are visually impaired including those who are invisibly visually impaired Through the use of a

survey questionnaire and interviews and employing a cross sectional survey design the study examines the experiences of a large number of visually impaired respondents The research largely examines how visual impairment affects the performance of the visually impaired actor in relationships and social interaction To perform successfully the visually impaired actor must be able to adapt to and perform competently within his or her assigned role establish and maintain mutually satisfying relationships with other social actors and know how to prepare for and manage the potential responses of the audience The author employs a social performance perspective to examine how a visual impairment affects the individual s self concept ability to initiate and maintain satisfying relationships and interact successfully The appendix contains a wealth of supplementary information including the actual survey instrument and its rationale the theoretical model guiding the survey research the interview procedures and protocol and the correlation matrix This unique text will be a valuable resource to visually impaired individuals their families and professionals who work with them It also will serve as a useful text in graduate and undergraduate courses in disability issues

The Future of Excellence in Public Relations and Communication Management Elizabeth L. Toth, 2009-03-04 The Future of Excellence in Public Relations and Communication Management brings together a stellar collection of public relations scholars to address the question What will happen to continue the seminal theory building in public relations bolstered by the work of James E Grunig and Larissa A Grunig and the groundbreaking 1992 IABC Excellence Study examining best practices in the field This volume presents a challenge to future researchers encouraging consideration of other theoretical research problems that will lead to improving the management practice of public relations This collection advances scholarly and practitioner understanding of excellence in public relations and communication management and as such public relations and communications scholars in addition to practitioners and graduate students studying these areas will benefit immensely by reading the work in this volume

Personal Relationships and Personal Networks Malcolm R. Parks, 2017-09-25 The effort to understand personal relationships has traditionally focused on the individual characteristics of participants Personal Relationships and Personal Networks takes this analysis a step further focusing on research linking participants feelings and actions within a given personal relationship to the larger social context surrounding it Author Malcolm R Parks expands on the idea that the initiation development maintenance and dissolution of relationships are inextricably connected to each participant s social network a perspective that allows for a better appreciation of our connection to the world and a greater understanding our significant power as social actors This book offers a new way to consider basic notions about how relationships form such as how particular people meet and how relationships are started Among many findings the volume demonstrates that individuals in relationships feel closer and generally more connected when they also have a greater amount of contact with the members of each other s personal networks and when they believe that network members support their relationship Additional topics discussed include how this social context model is applicable to different types of relationships how participants interact with network members

how social networks are involved in the deterioration of personal relationships and what drives change in relationships. Students, researchers and professionals in a wide variety of disciplines such as communication, psychology, sociology, anthropology, family studies, clinical psychology, public health, nursing, education and social work will find this book useful as will anyone seeking to better understand their own personal relationships.

Sourcebook of Family Theory and Research
 Vern L. Bengtson, 2005. Now available in paperback for classroom use. This comprehensive text provides a rich source of perspectives on theorising about the family for scholars, researchers and students. Another of the book's strengths is the emphasis on multimethod approaches in family research. The book covers an impressive range of topics and issues: marital happiness, adjustment of children in divorce, marriages, gay marriage, sibling ties, ethnic families of colour, stepfamilies, aggression, culture, work and family, religion and social policy to name a few. In summary, this superb volume is highly recommended and amply reflects the many contemporary perspectives on the family.

Philip Siebler, Monash University, Victoria. Sponsored by the National Council on Family Relations, the *Sourcebook of Family Theory and Research* is the reference work on theory and methods for family scholars and students around the world. This volume provides a diverse, eclectic and paradoxically mature approach to theorizing and demonstrates how the development of theory is crucial to the future of family research. The *Sourcebook* reflects an interactive approach that focuses on the process of theory building and designing research, thereby engaging readers in doing theory rather than simply reading about it. An accompanying website offers additional participation and interaction in the process of doing theory and making science.

Editors: Vern L. Bengtson, Alan C. Acock, Katherine R. Allen, Peggye Dilworth Anderson and David M. Klein have brought together a prominent group of diverse contributors ranging in race and ethnicity, age and seniority and gender and sexual orientation. The *Sourcebook* begins with a section that sets the context for future family research. The subsequent sections explore changing family patterns, changing family interactions within and across generations and families and larger social forces. A concluding section discusses issues of teaching family theories and research.

Key Features: Focuses on the process rather than the outcomes of family theory and research; methods. Emphasizes the value of multi-methods approaches in family research by integrating theory development with the development of research methods. Differs from many other publications on family research by describing the development of new ideas rather than just summarizing existing findings. The interactive Web site and the special feature boxes within the chapters engage readers with theory and methodology. Boxed features include Case Studies, Spotlights on Theory, Spotlights on Methods and a Discussion and Extension sections. Represents a Who's Who of family researchers with contributions from many of the best researchers in the family realm. The *Sourcebook* will be an excellent addition to any academic library. It is an authoritative reference for scholars and researchers in Human Development and Family Studies, Sociology, Social Work and Psychology. In addition, the *Sourcebook* can also be used in graduate courses on family theory and methodology.
