Relative Autonomy The Key To Understanding Vatican II:

Relative Autonomy Anton Losinger, 1997 The Second Vatican Council 1962-1965 which finished its work just thirty years ago has rightly been described as one of the most important events in the history of the Church since the Reformation and the Age of Enlightenment. It is in particular the Pastoral Constitution *Gaudium et spes* On the Church in the Modern World which marks a milestone on the Church's way into modernity. It forms a bridge designed to overcome misunderstandings of the past points of conflict and rifts between the Church and modern society. It purports to guide the differing positions towards a constructive dialog. The central criterion and the crucial question of this new definition of the relationship in all areas such as culture, politics, science and economics is the criterion of Relative Autonomy, the topic treated in this book.

Vatican II and New Thinking about Catholic Education Sean Whittle, 2016-10-26 This volume considers the various ways in which Vatican II and its teaching on education has been received and engages with the challenges and testing times that beset faith-based education in the twenty-first century.

Nouvelle Théologie and Sacramental Ontology Hans Boersma, 2009-05-08 In the decades leading up to the Second Vatican Council, the movement of *nouvelle théologie* caused great controversy in the Catholic Church and remains a subject of vigorous scholarly debate today. In *Nouvelle théologie and Sacramental Ontology*, Hans Boersma argues that a return to mystery was the movement's deepest motivation. Countering the modern intellectualism of the neo-Thomist establishment, the *nouvelle théologie* theologians were convinced that a *ressourcement* of the Church Fathers and of medieval theology would point the way to a sacramental reintegration of nature and the supernatural. In the context of the loss suffered by both Catholics and Protestants in the de-sacramentalizing of modernity, Boersma shows how the sacramental ontology of *nouvelle théologie* offers a solid entry point into ecumenical dialogue. The volume begins by setting the historical context for *nouvelle théologie* with discussions of the influence of significant theologians and philosophers like M. H. Blondel, Marcel Maréchal, and Louis Bouillier. The exposition then moves to the writings of key thinkers of the *ressourcement* movement, including Henri de Lubac, Jean-Baptiste Metz, Karl Rahner, Hans Urs von Balthasar, and Jean Daniélou. Boersma analyses the most characteristic elements of the movement: its reintegration of nature and the supernatural, its reintroduction of the spiritual interpretation of Scripture, its approach to Tradition as organically developing in history, and its communion ecclesiology that regarded the Church as sacrament of Christ. In each of these areas, Boersma demonstrates how the *nouvelle théologie* theologians advocated a return to mystery by means of a sacramental ontology.

Theological Anthropology at the Beginning of the Third Millennium Kevin Wagner, Peter John McGregor, M. Isabella Naumann, 2022-04-29 *Theological Anthropology at the Beginning of the Third Millennium* is the third volume of the *Theology at the Beginning of the Third Millennium* series. Bringing together Catholic and Orthodox scholars of diverse disciplines, this work sheds new light on the question: what does it mean to be a human person? Beginning with an overview on the state of the discipline in our time, the book brings theological anthropology into dialogue with epistemology, Christology, science, spiritual theology, and

pedagogy It explores how human persons who are created in God's image and likeness can come to knowledge of the self and the other such that the individual person can know love and be united to the God and Father of Jesus Christ

Catholic Perspectives on Medical Morals Edmund D. Pellegrino, J. Langan, John Collins Harvey, 2012-12-06 CATHOLIC PERSPECTIVES AND CONTEMPORARY MEDICAL MORALS A Catholic perspective on medical morals antedates the current world wide interest in medical and biomedical ethics by many centuries 5 Discussions about the moral status of the fetus abortion contraception

and sterilization can be found in the writings of the Fathers and Doctors of the Church Teachings on various aspects of medical morals were scattered throughout the penitential books of the early medieval church and later in more formal treatises when moral theology became recognized as a distinct discipline Still later medical morality was incorporated into the many pastoral works on medicine Finally in the contemporary period works that strictly focus on medical ethics are produced by Catholic moral theologians who have special interests in matters medical Moreover this long tradition of teaching has been put into practice in the medical moral directives governing the operation of hospitals under Catholic sponsorship Catholic hospitals were monitored by Ethics Committees long before such committees were recommended by the New Jersey Court in the Karen Ann Quinlan case or by the President's Commission in 1983 8 9 Underlying the Catholic moral tradition was the use of the casuistic method which since the 17th and 18th centuries was employed by Catholic moralists to study and resolve concrete clinical ethical dilemmas The history of casuistry is of renewed interest today when the case method has become so widely used in the current revival of interest in medical ethics 11 *Whitaker's Books in Print* ,1998

The Splendor of the Church in Mary Theresa Marie Chau Nguyen,2023-05-05 Henri de Lubac SJ 1896 1991 is one of the most renowned theologians of the twentieth century Numerous studies have been undertaken to examine his many contributions to theology but little attention has been paid to the specific topic of the relationship of the Blessed Virgin Mary and the Church in his writings This was a topic that gave rise to contentious discussion at the Second Vatican Council and although the Council fathers approved the integration of Marian doctrine into the Dogmatic Constitution on the Church this synthesis of Mariology and ecclesiology has been largely neglected in theology today The Splendor of the Church in Mary retrieves de Lubac's Marian ecclesiology and revives an understanding and appreciation of its enduring influence at the Vatican Council and beyond The first part examines de Lubac's pre conciliar works which evince a steady biblical and patristic ressourcement of Marian themes It also explores his writings on Teilhard de Chardin's Eternal Feminine Christian mysticism and Amida Buddhism and discovers in them the essential building blocks of his Marian thought The second part turns to the Second Vatican Council and post conciliar developments Rereading the debates and texts of Lumen Gentium through a Marian lens brings to light the extent of de Lubac's influence Meditation sur l'Eglise 1953 his principal work on Mary and the Church anticipated the structure and content of Lumen Gentium a decade before the Council De Lubac's writings provided a theological compass for the Council fathers and they continue to provide direction and orientation for ecclesiological discourse today The Splendor of the Church in Mary culminates in a constructive analysis of one of the most pressing pastoral and ecclesiological questions of our times the question of the relationship of the universal and particular churches Directly engaging the crucial debate between then Cardinal Ratzinger and Cardinal Kasper it proposes that de Lubac's Mariology effectively offers a new perspective and a refreshing path forward Attentive to the mystical identification of Mary and the Church de Lubac's ressourcement has the potential to re-enchant and advance contemporary theology in

Komonchak, 1987 *Recognizing the Gift* Daniel A. Rober, 2016-06-01 *Recognizing the Gift* puts twentieth century Catholic theological conversations on nature and grace particularly those of Henri de Lubac and Karl Rahner into dialogue with Continental philosophy notably the thought of Jean Luc Marion and Paul Ricoeur It argues that a renewed theology of nature and grace must build on the accomplishments of the recent past while acknowledging that an engagement with the political is unavoidable for theology Ultimately the aim is to revive and broaden discussion of nature and grace by drawing together the insights of contemporary theologians and Continental philosophers Too often these areas of inquiry remain quite separate in part due to differing priorities This work tries to open that conversation in part by critically pointing out in dialogue with Ricoeur the need in Marion's work for an acknowledgment of recognition reciprocity and the political It thus argues for a theology of nature and grace in terms of recognition of the gift drawing out the reciprocal and political nature of gift and givenness in opposition to those including Marion who would seek to avoid politics and reciprocity as a proper avenue of inquiry for theology **The Political Theology of Pope Francis** Ole Jakob Løland, 2022-12-30 This book explores the political dimension of Pope Francis theology from a variety of perspectives and makes a unique contribution to the ongoing historiography of his pontificate It defines the concept of political theology when applied to Pope Francis discourse and reflects on the portrayal of him as the voice of Latin America a great reformer and a revolutionary The chapters offer a thorough investigation of core texts and key moments in Pope Francis papacy 2013 focusing in particular on their relation to canon theory liberation theology the rise of populism and gender issues As well as documenting some of the continuities between the ideas of Pope Francis and his predecessor Benedict XVI the author asks what the Argentinian pontiff has brought from Latin America and considers the Latin American dimension to what has become known as the Francis effect Overall the book demonstrates how the Pope's words and actions constitute a powerful political theology disseminated from a unique religious and institutional position It will be of interest to scholars of theology religion and politics particularly those with a focus on world Catholicism political theology and church history **That They May All Be One** Walter Kasper, 2004-01-01 Cardinal Kasper is a distinguished theologian who was a colleague of Cardinal Ratzinger Karl Rahner and Hans Kung at The Universities of Münster and Tübingen Kasper now heads the Vatican's Council for Promoting Christian Unity with the specific task of fostering relations between the Catholic Church and other Christian Churches and Ecclesial communities Here he outlines his vision for the unity of Christian Churches A man with an open mind Kasper covers one of the major responsibilities of the contemporary Catholic Church His perspective of the uniqueness of The Catholic Church and its magisterium is presented here as a modern inquiry into the nature of truth

Lived Religion Meredith B McGuire,2008-08-22 The divergence of religious practices from one individual to another has long baffled scholars of contemporary religion whose research often assumes that individuals commit or refuse to commit to an entire institutionally defined package of beliefs and practices Social surveys typically ask respondents to self identify by denominational or other broad religious categories Sociologists attempt to measure religiosity according to how well individuals conform to the official religious standards such as frequency of church attendance scripture reading or prayer In this book Meredith McGuire points the way forward to a new way of understanding and studying religious behavior Rather than try to fit people into prearranged packages she argues scholars must begin to study religion as it is actually lived and experienced in people s everyday lives

The Unchanging Truth of God? Crucial Philosophical Issues for Theology Thomas G. Guarino,2022-02-18 It has long been a cornerstone of Catholic belief that Christians can be intelligent and creative thinkers inquisitive seekers after truth as well as men and women of ardent faith Catholics are entirely committed then to the claim that human rationality and religious faith are complementary realities since they are equally gifts of God But understanding precisely how faith and reason cohere has not always been a smooth path At times theology has allowed philosophy to become the leading and baleful partner in the faith reason relationship thereby lapsing into rationalism or relativism At other times theology has been tempted by fideism with philosophy now regarded as little more than a pernicious intruder corrupting Christian faith life and thought The essays in this volume display how Catholicism understands the proper confluence between philosophy and theology between human rationality and Christian faith between the natural order and supernatural grace To illustrate these points the book draws on a long line of

Christian thinkers Origen Augustine Anselm Aquinas and in our own day Fides et Ratio of John Paul II and the Regensburg Address of Benedict XVI How is theology always a Jewgreek enterprise to borrow a term from Jacques Derrida always a combination of the biblical Hebraic and philosophical Hellenic traditions Why is one particular element of philosophy metaphysics essential for the intelligibility and clarity of Catholic theology Why is this so much the case that John Paul II could state emphatically a philosophy which shuns metaphysics would be radically unsuited to the task of mediation in the understanding of Revelation But theology cannot simply be about dialogue with philosophers of yesteryear Theology must constantly incorporate fresh thinking and remain in lively conversation with an extensive variety of contemporary perspectives This book displays how reciprocity and absorption has been characteristic of theology's past and must represent its future as well

The Analogy of Being Thomas Joseph White, 2011 Does all knowledge of God come through Christ alone or can human beings discover truths about God philosophically The Analogy of Being assembles essays by expert Catholic Protestant and Orthodox theologians to examine the relationship between divine revelation in the person of Jesus Christ and the philosophical capacities of natural reason These essays were inspired by the lively decades long debate between Karl Barth and Erich Przywara which was first sparked in 1932 when Barth wrote that the use of natural theology in Roman Catholic thinking was the invention of the Antichrist The contributors to The Analogy of Being analyze and reflect on both sides of Barth and Przywara's spirited discourse offering diverse responses to a controversy reaching to the very core of Christian faith and theology It would be difficult to match the range and quality of commentators on this historic exchange between a Catholic philosopher and a renowned Reformed theologian on a subject of enduring significance given the centrality of analogy to any issue in philosophical theology Moreover the contributions exhibit how the issues have come to span ecclesial boundaries as their import has progressively evolved A splendid collection David Burrell C S C Uganda Martyrs University A profound testimony to the enduring significance of the analogia entis debate between Erich Przywara and Karl Barth Hans Boersma Regent College In a fresh ecumenical context this extraordinary volume rekindles the mid twentieth century encounter between ressourcement thinkers and metaphysical theology The voices of Przywara Barth Balthasar and others speak anew through leading theologians of our own day in these masterfully orchestrated essays Matthew Levering University of Dayton
