Religion, Philosophy and Psychical Research C.D. Broad, 2014-06-23 This is Volume I of seven in a series on the Philosophy of Religion and General Philosophy Originally published in 1953 this is a collection of selected essays looking at Psychical Research to philosophy arguments around the validity of a personal God and also looking at afterthoughts at the time of the Cold War *Religion, Philosophy and Psychical Research* Charlie Dunbar Broad, 1953 *Religion, Philosophy, and Physical Research* Charlie Dunbar Broad, 1969 **Religion, Philosophy and Psychical Research** C.D. Broad, 2014-06-23 This is Volume I of seven in a series on the Philosophy of Religion and General Philosophy Originally published in 1953 this is a collection of selected essays looking at Psychical Research to philosophy arguments around the validity of a personal God and also looking at afterthoughts at the time of the Cold War **The Idea of the Miraculous** T C Williams, 1990-07-19 *Essays in Psychical Research* William James, 1986 The more than 50 articles essays and reviews collected here for the first time were published by James over a span of some 25 years The record of a sustained interest in phenomena of a highly controversial nature they make it amply clear that James s work in psychical research was not an eccentric hobby but a serious and sympathetic concern **Did Jesus Rise from the Dead?** Matthew Levering, 2019-02-07 The Resurrection of Jesus is at the very root of Christian faith without belief in Jesus Christianity dies In this thought provoking work Matthew Levering defends the credibility of the claim that Jesus rose from the dead Drawing on the work of N T Wright Levering shows that the historical evidence vindicates this assumption and reveals that the Gospels were backed by eyewitnesses who were living and telling their stories even during the time of the writing of the Gospels The author also emphasises the importance of evaluating the Old Testament to validate Jesus Resurrection By highlighting the desire both in the ancient world and now to make the Resurrection more comprehensible by spiritualizing it Levering argues that the fact that the disciples themselves did not do this provides a further clue to reliability Finally the author addresses the question of why Jesus does not continue to show himself in his glorified flesh after his resurrection which is often seen as a strong case for scepticism However he shows that Jesus entire mission is predicated upon helping us to avoid cleaving to the present world over God He is leading us to where he is the kingdom of God the beginning of the new creation at the Father s right hand By developing these arguments for the historical reality of Jesus Resurrection this ground breaking study expertly draws together historical and theological reasons for believing that Jesus Resurrection happened *Philosophical Interactions with Parapsychology* H. Price, 1995-10-13 This is a collection of the most important writings of Oxford philosopher H H Price on the topics of psychical research and survival of death collected from a wide variety of sources unavailable to most interested readers Included are discussions of telepathy clairvoyance telekinesis precognition hauntings and apparitions the impact of psychical research on western philosophy and science and what afterlife is probably like Few twentieth century English speaking philosophers have written much on these topics Of those who did so and whose writings

have not been collected and published in a single source H H Price was the most important *The Life and Teaching of Naropa*, 2022-10-04 In the history of Tibetan Buddhism the eleventh century Indian mystic N ropa occupies an unusual position for his life and teachings mark both the end of a long tradition and the beginning of a new and rich era in Buddhist thought N ropa s biography translated by the world renowned Buddhist scholar Herbert V Guenther from hitherto unknown sources describes with great psychological insight the spiritual development of this scholar saint It is unique in that it also contains a detailed analysis of his teaching that has been authoritative for the whole of Tantric Buddhism This modern translation is accompanied by a commentary that relates Buddhist concepts to Western analytic philosophy psychiatry and depth psychology thereby illuminating the significance of Tantra and Tantrism for our own time Yet above all it is the story of an individual whose years of endless toil and perseverance on the Buddhist path will serve as an inspiration to anyone who aspires to spiritual practice *Binary Bullets* Fritz Allhoff, Adam Henschke, Bradley Jay Strawser, 2016 Philosophical and ethical discussions of warfare are often tied to emerging technologies and techniques Today we are presented with what many believe is a radical shift in the nature of war the realization of conflict in the cyber realm the so called fifth domain of warfare Does an aggressive act in the cyber realm constitute an act of war If so what rules should govern such warfare Are the standard theories of just war capable of analyzing and assessing this mode of conflict These changing circumstances present us with a series of questions demanding serious attention Is there such a thing as cyberwarfare How do the existing rules of engagement and theories from the just war tradition apply to cyberwarfare How should we assess a cyber attack conducted by a state agency against private enterprise and vice versa Furthermore how should actors behave in the cyber realm Are there ethical norms that can be applied to the cyber realm Are the classic just war constraints of non combatant immunity and proportionality possible in this realm Especially given the idea that events that are constrained within the cyber realm do not directly physically harm anyone what do traditional ethics of war conventions say about this new space These questions strike at the very center of contemporary intellectual discussion over the ethics of war In twelve original essays plus a foreword from John Arquilla and an introduction *Binary Bullets The Ethics of Cyberwarfare* engages these questions head on with contributions from the top scholars working in this field today *Notes from the Crawl Room* A.M. Moskovitz, 2021-12-02 *Notes from the Crawl Room* employs the lens and methods of horror writing to critique the excesses and absurdities of philosophy Each story reveals disastrous and de humanising effects of philosophies that are separated from real lived experience e g the absurdity of arguing over a sentence in Kant while the world burns around us From a Kafkaesque exploration of administrative absurdities to the horrors of discursive violence white supremacy and the living spectres of patriarchy A M Moskovitz doesn t shy away from addressing the complex aspects of our lives In addition to offering often humorous critiques of philosophy these works are also somewhat ironically pieces of philosophy themselves Each story seeks to move a subject area forward offering the reader the capacity to think through ideas in a weirder and

more open way than traditional philosophy usually allows An antidote to philosophy that seeks to close down and shut off the imaginative potential of human thought Notes from the Crawl Room revels in the unsettling and creative potential of stories for revealing what thinking philosophically might really mean *The Resurrection of Jesus* Dale C. Allison, Jr.,2021-03-11

The earliest traditions around the narrative of Jesus resurrection are considered in this landmark work by Dale C Allison Jr drawing together the fruits of his decades of research into this issue at the very core of Christian identity Allison returns to the ancient sources and earliest traditions charting them alongside the development of faith in the resurrection in the early church and throughout Christian history Beginning with historical critical methodology that examines the empty tomb narratives and early confessions Allison moves on to consider the resurrection in parallel with other traditions and stories including Tibetan accounts of saintly figures being assumed into the light in the chapter Rainbow Body Finally Allison considers what might be said by way of results or conclusions on the topic of resurrection offering perspectives from both apologetic and sceptical viewpoints In his final section of modest results he considers scholarly approaches to the resurrection in light of human experience adding fresh nuance to a debate that has often been characterised in overly simplistic terms of it happened or it didn't

Sidgwick's Ethics and Victorian Moral Philosophy J. B. Schneewind,1977-11-17

Henry Sedgewick's *The Methods of Ethics* challenges comparison as no other work in moral philosophy with Aristotle's *Ethics* in the depth of its understanding of practical rationality and in its architectural coherence it rivals the work of Kant In this historical rather than critical study Professor Schneewind shows how Sidgwick's arguments and conclusions represent rational developments of the work of Sidgwick's predecessors and brings out the nature and structure of the reasoning underlying his position

Parapsychology, Philosophy, and Spirituality David Ray Griffin,1997-01-09 In this book David Ray Griffin best known for his work on the problem of evil turns his attention to the even more controversial topic of parapsychology Griffin examines why scientists philosophers and theologians have held parapsychology in disdain and argues that neither a priori philosophical attacks nor wholesale rejection of the evidence can withstand scrutiny After articulating a constructive postmodern philosophy that allows the parapsychological evidence to be taken seriously Griffin examines this evidence extensively He identifies four types of repeatable phenomena that suggest the reality of extrasensory perception and psychokinesis Then on the basis of a nondualistic distinction between mind and brain which makes the idea of life after death conceivable he examines five types of evidence for the reality of life after death messages from mediums apparitions cases of the possession type cases of the reincarnation type and out of body experiences His philosophical and empirical examinations of these phenomena suggest that they provide support for a postmodern spirituality that overcomes the

thinness of modern religion without returning to supernaturalism Journal of the American Society for Psychical Research American Society for Psychical Research,1960 Jesus' Resurrection and Apparitions Jake O'Connell,2016-11-03 Did Jesus rise physically from the dead or did he rise as a real non bodily apparition like those reported in the parapsychological literature In this book which is the first book length examination of the question in over fifty years Jake O Connell argues in favor of the physical resurrection hypothesis In order to do so he employs Bayes Theorem a mathematical theorem which encapsulates the way humans think when they analyze the probability of a hypothesis In addition he provides a thorough overview of the evidence for the reality of apparitions of the dead **University of California Union Catalog of Monographs Cataloged by the Nine Campuses from 1963 Through 1967: Subjects** University of California (System).
