Religions of Rome: Volume 2, A Sourcebook Mary Beard, John North, Simon Price, 1998-06-28 Volume two reveals the extraordinary diversity of ancient Roman religion A comprehensive sourcebook it presents a wide range of documents illustrating religious life in the Roman world from the foundations of the city in the eighth century BC to the Christian capital more than a thousand years later Each document is given a full introduction explanatory notes and bibliography and acts as a starting point for further discussion Through paintings sculptures coins and inscriptions as well as literary texts in translation the book explores the major themes and problems of Roman religion such as sacrifice the religious calendar divination ritual and priesthood Starting from the archaeological traces of the earliest cults of the city it finishes with a series of texts in which Roman authors themselves reflect on the nature of their own religion its history even its funny side Judaism and Christianity are given full coverage as important elements in the religious world of the Roman empire

Religions of Rome. Vol. 1. A History Mary Beard, John North, Simon Price, 1998 And Man Created God Selina O'Grady, 2024-09-04 This popular history of ancient religions is a wonderfully illuminating prodigious tour de force of ecclesiastical anthropology Kirkus Reviews starred review At the time of Jesus birth the world was full of gods Thousands of them jostled competed and merged with one another Rulers and ruled turned to religion as a source of order and stability To explore the power that religious belief has had over societies through the ages Selina O Grady takes the reader on a dazzling journey across the empires of the ancient world Throughout she seeks

to answer why amongst the countless religious options available the empires at the time of Jesus chose the religions they did Why did China's rulers hitch their fate to Confucianism a philosophy more than a religion And why was a tiny Jewish cult led by Jesus eventually adopted by Rome's emperors rather than the cult of Isis which was far more popular and widespread The Jesus cult followed by no more than 100 people at the time of his death should have disappeared in a few generations Instead it became the official religion of the Roman Empire Why did Christianity grow so quickly to become the predominant world religion And Man Created God looks at why and how religions have had such an immense impact on human history and in doing so uncovers the connection between politics and religion a connection which still defines us in our own age This is an important thrilling and necessary new work of history A gifted storyteller accessibly engagingly and vividly evokes the sights sounds smells and colors of much of the ancient world Booklist The Individual in the Religions of the Ancient Mediterranean Jörg Rüpke, 2013-08-29 Ancient religions are usually treated as collective and political phenomena and apart from a few towering figures the individual religious agent has fallen out of view Addressing this gap the essays in this volume focus on the individual and individuality in ancient Mediterranean religion Even in antiquity individual religious action was not determined by traditional norms handed down through families and the larger social context but rather options were open and choices were made On the part of the individual this development is reflected in changes in individuation the parallel process of a gradual full integration into society and the development of self reflection and of a notion of individual identity These processes are analysed within the Hellenistic and Imperial periods down to Christian dominated late antiquity in both pagan polytheistic as well as Jewish monotheistic settings The volume focuses on individuation in everyday religious practices in Phoenicia various Greek cities and Rome and as identified in institutional developments and philosophical reflections on the self as exemplified by the Stoic Seneca **In Search of the Romans (Second Edition)** James Renshaw, 2019-12-12 In Search of the Romans is a lively and informative introduction to ancient Rome Making extensive use of ancient sources and copiously illustrated with photographs drawings maps and plans now for the first time in colour its opening two chapters guide the reader through the events of Roman history from the foundation of the city to the fall of the empire Subsequent chapters introduce the most important aspects of the Roman world the army and the provinces religion society and entertainment the final two chapters focus on Pompeii and Herculaneum the two cities destroyed by Vesuvius New to this edition are sections on the Augustan principate on the Roman army on life in the provinces and on engineering innovations while the existing text is revised throughout The narrative includes descriptions of many individuals from the Roman world drawn from a variety of social settings Activity boxes and further reading lists throughout each chapter aid students understanding of the subject Review questions challenge students to read further and reflect on some of the most important social political and cultural issues of ancient Rome as well as to compare them with those of their own society The new edition is supported by a website that includes images maps and timelines further reading and related links

Sociological Studies in Roman History Keith Hopkins, 2018 Collected essays by Cambridge sociologist Keith Hopkins one of the most radical innovative and influential Roman historians of his generation Studying Religion, Past and Present Nickolas P. Roubekas, Dimitris Xygalatas, Luther H. Martin, Donald Wiebe, 2024-09-05 Celebrating the contributions of Panayotis Pachis to the field this book discusses the past present and future of the study of religion in antiquity and modernity Panayotis Pachis has dedicated his celebrated career at the Aristotle University of Thessaloniki to the study of various aspects of ancient religions The contents of this book reflect Pachis conviction that the study of religious ideas and practices should be focused on three pillars the study of history the formulation and application of theoretical frameworks and the utilization of traditional as well as innovative methodological tools Chapters range from the scientific study of Roman Graeco religions cultural evolution and neurocognitive theories in the history and study of religion to a look at why we need an integrative approach to study religion past and present **On Greek Religion** Robert C.T. Parker, 2011-08-15 There is something of a paradox about our access to ancient Greek religion We know too much and too little The materials that bear on it far outreach an individual's capacity to assimilate so many casual allusions in so many literary texts over more than a millennium so many direct or indirect references in so many inscriptions from so many places in the Greek world such an overwhelming abundance of physical remains But genuinely revealing evidence does not often cluster coherently enough to create a vivid sense of the religious realities of a particular time and place Amid a vast archipelago of scattered islets of information only a few are of a size to be habitable from the Preface In *On Greek Religion* Robert Parker offers a provocative and wide ranging entrance into the world of ancient Greek religion focusing especially on the interpretive challenge of studying a religious system that in many ways remains desperately alien from the vantage point of the twenty first century One of the world's leading authorities on ancient Greek religion Parker raises fundamental methodological questions about the study of this vast subject Given the abundance of evidence we now have about the nature and practice of religion among the ancient Greeks including literary historical and archaeological sources how can we best exploit that evidence and agree on the central underlying issues Is it possible to develop a larger unified theoretical framework that allows for coherent discussions among archaeologists anthropologists literary scholars and historians In seven thematic chapters Parker focuses on key themes in Greek religion the epistemological basis of Greek religion the relation of ritual to belief theories of sacrifice the nature of gods and heroes the meaning of rituals festivals and feasts and the absence of religious authority Ranging across the archaic classical and Hellenistic periods he draws on multiple disciplines both within and outside classical studies He also remains sensitive to varieties of Greek religious experience Also included are five appendixes in which Parker applies his innovative methodological approach to particular cases such as the acceptance of new gods and the consultation of oracles *On Greek Religion* will stir debate for its bold questioning of disciplinary norms and for offering scholars and students new points of departure for future research 1998 Massimo Mastrogregori, 2013-05-08 Annually published since 1930 the

International bibliography of Historical Sciences IBOHS is an international bibliography of the most important historical monographs and periodical articles published throughout the world which deal with history from the earliest to the most recent times The works are arranged systematically according to period region or historical discipline and within this classification alphabetically The bibliography contains a geographical index and indexes of persons and authors **In Stone and Story** Bruce W. Longenecker,2020-02-18 This beautifully designed full color textbook introduces the Roman background of the New Testament by immersing students in the life and culture of the thriving first century towns of Pompeii and Herculaneum which act as showpieces of the world into which the early Christian movement was spreading Bruce Longenecker a leading scholar of the ancient world of the New Testament discusses first century artifacts in relation to the life stories of people from the Roman world The book includes discussion questions maps and 175 color photographs Additional resources are available through Textbook eSources **Death, the End of History, and Beyond** Greg Carey,2023-01-31 What happens at the end of our lives and of the course of history Will God bring about a just and peaceful world What lies beyond this realm and what can we know of the beings who dwell there In *Death the End of History and Beyond* Greg Carey offers resources for understanding multiple even conflicting ways that the Bible imagines these ultimate realities Carey opens the Scriptures with a breadth of insight that acknowledges its diversity of viewpoints about what lies beyond the veil centering hope in God's action to bring good out of evil in our lived realities in our personal journeys through death and in visions of resurrection and justice restored An appendix on preaching also invites clergy to help their communities imagine when and how eschatology can inform our lives today **Major Turning Points in Jewish Intellectual History** D. Aberbach,2003-11-05 This book analyzes major transformations in Jewish life and thought from idolatry to exclusive monotheism in the biblical age from state based identity to cultural nationalism in the Roman empire and in the European Diaspora from theology to secularism and revived political nationalism in the modern period Fundamental questions are asked about Jewish survival in a variety of topics including prophecy Jewish law Midrash the Roman Jewish wars Stoicism secular poetry in Muslim Spain Marx and Freud and Hebrew literature through the ages **The Architecture of Roman Temples** John W. Stamper,2005-02-16 This book examines the development of Roman temple architecture from its earliest history in the sixth century BC to the reigns of Hadrian and the Antonines in the second century AD John Stamper analyzes the temples formal qualities the public spaces in which they were located and most importantly the authority of precedent in their designs He also traces Rome's temple architecture as it evolved over time and how it accommodated changing political and religious contexts as well as the affects of new stylistic influences **The Religious History of the Roman Empire** J. A. North,John North,2023 The *Religious History of the Roman Empire* The Republican Centuries consists of fourteen chapters all dealing with aspects of the religious life of Republican Rome between c 500 BCE and the fall of the Republican constitution in c 30 BCE **The Oxford Handbook of Religion and Europe**

Luther Martin, 2014-05-21 Over the course of his career Luther H Martin has primarily produced articles rather than monographs This approach to publication has given him the opportunity to experiment with different methodological approaches to an academic study of religion with updates to and different interpretations of his field of historical specialization namely Hellenistic religions the subject of his only monograph 1987 The contents of this collected volume represent Martin's shift from comparative studies to socio political studies to scientific studies of religion and especially to the cognitive science of religion He currently considers the latter to be the most viable approach for a scientific study of religion within the academic context of a modern research university The twenty five contributions collected in this volume are selected from over one hundred essays articles and book chapters published over a long and industrious career and are representative of Martin's work over the past two decades **The Routledge Global History of Feminism** Bonnie G.

Smith, Nova Robinson, 2022-02-21 Based on the scholarship of a global team of diverse authors this wide ranging handbook surveys the history and current status of pro women thought and activism over millennia The book traces the complex history of feminism across the globe presenting its many identities its heated debates its racism discussion of religious belief and values commitment to social change and the struggles of women around the world for gender justice Authors approach past understandings and today's evolving sense of what feminism or womanism or gender justice are from multiple viewpoints These perspectives are geographical to highlight commonalities and differences from region to region or nation to nation they are also chronological suggesting change or continuity from the ancient world to our digital age Across five parts authors delve into topics such as colonialism empire the arts labor activism family and displacement as the means to take the pulse of feminism from specific vantage points highlighting that there is no single feminist story but rather multiple portraits of a broad cast of activists and thinkers Comprehensive and properly global this is the ideal volume for students and scholars of women's and gender history women's studies social history political movements and feminism **Roman Religion in the Danubian Provinces** Csaba Szabó, 2022-04-06 The Danubian provinces represent one of the largest macro units within the Roman Empire with a large and rich heritage of Roman material evidence Although the notion itself is a modern 18th century creation this region represents a unique area where the dominant pre Roman cultures Celtic Illyrian Hellenistic Thracian are interconnected within the new administrative economic and cultural units of Roman cities provinces and extra provincial

networks This book presents the material evidence of Roman religion in the Danubian provinces through a new paradigmatic methodology focusing not only on the traditional urban and provincial units of the Roman Empire but on a new space taxonomy Roman religion and its sacralized places are presented in macro meso and micro spaces of a dynamic empire which shaped Roman religion in the 1st 3rd centuries AD and created a large number of religious glocalizations and appropriations in Raetia Noricum Pannonia Superior Pannonia Inferior Moesia Superior Moesia Inferior and Dacia Combining the methodological approaches of Roman provincial archaeology and religious studies this work intends to provoke a dialogue between disciplines rarely used together in central east Europe and beyond The material evidence of Roman religion is interpreted here as a dynamic agent in religious communication shaped by macro spaces extra provincial routes commercial networks but also by the formation and constant dynamics of small group religions interconnected within this region through human and material mobilities The book will also present for the first time a comprehensive list of sacralized spaces and divinities in the Danubian provinces
